

5001 Clean Room

Specifically formulated to control electrical discharge in clean rooms.

Staticide® Clean Room is a specialized anti-static cleaning formula that is sodium and chloride free. It eliminates static electricity on floors, chairs, CRT screens, work surfaces, glass, plastics and other static-prone materials. This formula is suitable for class 100 clean rooms.

Use Staticide® Clean Room for regular daily maintenance on environmental surfaces and major floor-mounted equipment. It can be applied on most hard surfaces with a lint-free wipe or an approved clean room mop.

Product is not suitable for use on food contact surfaces or equipment. Material Safety Data Sheet is available at www.aclstaticide.com.

Instructions: Dampen a clean room approved lint-free cloth, sponge or mop with the 5001 cleaner and wipe hard surfaces or articles. Allow to dry thoroughly. Do not soak or wet the surfaces; use only enough to cause a slight moisture layer.

Product #5001 is available in pour top quarts; 12 per case

Note: This product is not clean room packaged in double bags.

- ❖ **Filtered to less than 0.5 microns**
- ❖ **Non-toxic & non-corrosive**
- ❖ **Biodegradeable**
