Product/Process Change

Product Termination

Internal Update

Description and Purpose of Change(s):

The tape used in this product will be changed to a new material. The change is occurring because the old tape has a halogen in it and we will be changing to a halogen free tape. This is being done to reduce the halogens in this product. The old tape and the new tape have similar adhesion strength, dielectric strength, and temperature ratings.

Impact on Form, Fit, Function, Quality or Reliability:

This change will not effect the electrical performance or mechanical size of the product. All electricals specification will remain the same.

Changes will be implemented on all product starting with date / date code: 1941 .

The following order (s) may be affected by the above change (s) being made.

Part Number	Sales Order #	Purchase Order #	Quantity	Ship Date
