

November 13, 2015

Dear Valued Customer:

NMB Technologies, Inc had made a decision to stop production of many models and thus we issued a corresponding EOL notices. In addition we also notified our customers about several models that we wanted to EOL and to start converting to newer models.

After much discussion and overwhelming customer demand, we have convinced our factory to postpone each Phase of the initiatives until further notice.

This means the legacy series/part numbers targeted for EOL will still be available and as a reminder we encourage all new designs to focus on promoting the new P/N. Please refer to the attached lists for the Legacy Series.

As always, please let us know if you have any questions. Thanks for your understanding and cooperation!

Sincerely,  
NMB Technologies, Inc
