

<u>Issue Date</u>: November 13<sup>th</sup>, 2019

Dear Valued Customer,

This notice is to inform you of changes affecting selected items that you have purchased from Littelfuse.

### Description of the Change:

Littelfuse will be re-sourcing stamped components, affecting the attached finished goods.

### Reason for The Change:

- We have recently been notified that a legacy vendor will be immediately closing operations.
- To continue our supply of affected finished goods to you, we are seeking replacement components from existing vendors.

### Effective Date of the Change:

Littlefuse analysis of alternate components is ongoing. We are targeting to complete validation
of all replacement components and finished goods before stock diminishes of existing
components.

#### What You Need to Do:

- In response to this abrupt change, we have secured remaining stock of components and will soon confirm to you the changes necessary to sustain production, by finished good.
- Due to varying level of stock per component, and the number of finished goods they support, some finished goods will require component substitution sooner than others. In the subsequent pages, these part numbers and relative times of substitution are noted.

Any open orders will be handled on a customer-by-customer basis. For any questions, please feel free to reach out to either your Littelfuse Customer Service Representative or Inside Sales Representative.

We appreciate your continued partnership and business.

Sincerely,

Zachary Naughton Global Product Manager

Littelfuse Commercial Vehicle Products

Current demand on the below finished goods will exhaust affected component inventory in Q1 2020. Replacement components are being identified currently and we will reach out to you soon regarding substitutions.
