Terasic Inc. - Product End of Life (EOL) Announcement

End of Life DE1

Nov 13, 2018

Dear Valued Terasic Customer,

Thank you for placing your trust in Terasic products. This letter is to inform you End of Life of Altera DE1 Board (DE1) effective immediately.

Since some critical components are becoming obsolete and scarce to source, we will no longer continue the production of DE1. As an alternative, we invite you to transition to DE1-SoC Development Kit with upgraded features.

EOL Product	Suggested Replacement
Altera DE1 Board	DE1-SoC Development Kit

To learn more about the alternative platform, please contact your normal sales representative or Terasic authorized distributors, or refer to the [Product Comparison](#).

Terasic offers Last Time Buy (LTB) opportunities for DE1 while the stock lasts. However, the inventory is limited and once it has depleted, we will close the LTB opportunities.

We maintain our best to support your inquiries, but depending on the product availability, Terasic reserves the right to allocate remaining quantity to the orders placed prior to the others.

Thank you for your long term support and business. We look forward to providing you with the quality products and services in the years to come. If you have any questions or concerns, please don't hesitate to contact us for assistance.

Kind regards,
Terasic Inc.
