Product change notification

Dear valued customer/sales team,

We would like to inform you that the product inspec.x L 4/100 - 0019-003-000-50 will be discontinued without substitution. However, the alternative inspec.x L 5.6/120 float covers the magnification range with even larger image circle.

Customers are given the opportunity for a last time buy of the inspec.x L 4/100 as long as stock is available.

For larger quantities (MOQ ≥ 20 pcs.) Excelitas will still accept orders based on individual agreements. Please get in contact with our local Excelitas sales person.

Excelitas apologizes for any inconvenience this change may cause to you and will certainly support you in the best possible way to find an alternative solution in the broad portfolio of LINOS Machine Vision Lenses. For more information, please contact your Excelitas sales person.
