A short Actassi summary

Here is a short summary for you: Actassi is Schneider Electric's new global state-of-the-art range for networking and connectivity infrastructure solutions, created for buildings and data centres. It consists of the best performing features from local Schneider Electric brands such as LexCom, Infraplus, Clipsal Datacomms, Sarel and Himel. To be able to offer every installer around the world, the best-of-the-best solutions, we have created ONE single system; Actassi.

Searching for a smaller sized home solution? LexCom Home should be your choice. You'll get data, TV and telephone in all rooms, and even access to all medias at the same time from the same outlet.

All products are designed to give superior usability and performance. They exceed the most advanced international standards, such as ISO/IEC 11801 Ed3.0 for the new S-One connector. All S-One connectors are manufactured to provide exceptional Cat 5e, Cat 6 and Cat 6A performance for shielded and unshielded data networks.

Furthermore Actassi is fully integrated with a wide range of other Schneider Electric solutions and products, such as the Total Office Performance system including products to create a true organic office – read more on page 8-page 9.

The Actassi system consists of a comprehensive set of products:

- > Connectors for Cat 5e, Cat 6 and Cat 6A performance
- > Cross-connect panels
- > Copper and fibre optic LAN cables
- > Patch cords and connecting hardware
- > Cabling and server enclosures

Building Actassi

Green Premium to guarantee our products are compliant with International Environment Regulations & Standards (RoHS, REACH, PEP and EoLI)

Reliable cabling solution & proven technology backed by **extended system warranty**

Superior connectivity with compliance of **international standards** (TIA/EIA, ISO/IEC, AS/NZ)

Apply the latest building management technologies with **proven PoE+ connectivity** to increase efficiency of power usage

& Connectivity

Actassi is a part of the TOP system

By now you know that Actassi is the smartest way to create reliable and high-performing network connectivity. So let's add some more interesting facts to that piece of information; Actassi is also part of our Total Office Performance system. Just like in a human body, it's the interaction between these parts that creates the organic quality of the complete system.

P126271

Connectivity Actassi

Network connectivity is as essential for a modern office as the signal substances are for your body's inner communication. Actassi is as intuitive, fast and reliable.

8

06/2022 | Actassi

Infrastructure Canalis / Performa

Canalis busbars and Performa mesh trays are the bone structure which distributes power and network throughout the office building.

Installation system OptiLine

OptiLine is to power and networks what your veins are to your blood circulation; Flexible, extensive, reaching into every corner.

4

P126284

Life Space Management Uniq / Roombox

Uniq, Roombox and KNX provides convenient building control and energy management. All functions for LifeSpace Management are monitored from one single source.

5

P130067

Safety and Security Dardo / Twinbus

Finally your office needs eyes, ears and senses. Twinbus is the vigilant door entry system and Dardo and Exiway provides all the safety you need with its signs and alarms.

6

P131633

Wiring devices Altira

This is the office building's skin, containing great functions and presenting them in style.

Data Center

Actassi

Future proof application & above-the-standard performance to maximize the total lifecycle of Actassi solution

Space optimization to maximize ROI by utilizing the scarce space resources in data center

Easy deployment to reduce the construction time needed for new data center

Real time monitoring to secure network continuity of physical layer. Minimize downtime that is caused by human error

Intelligent Management

Network racks and cabinets

Future Proof connectivity

High Density Fibre Solution

Superior cable & Connectivity

Actassi network connectivity solution

Entrance Room (ER)

Actassi single-mode OS2 fibre cables for optimised cable performance in entrance room

Single-mode OS2 fibre cables

Telecommunication Room (TR)

Actassi multi-mode OM4 fibre cables for speeds beyond 40 Gigabit/s and 100 Gigabit/s

Multi-mode OM4 fibre cables

Equipment Distribution Area (EDA)

Tough Cabling for superior data transmission performance regardless of installation quality; and 10G solution for fast data transmission over extensive equipment distributions

F² cables

10G solution

ID-3TM F² patch cords

Storage area

Actassi's fibre solution for quick retrieval of storage data

Solutions for data centres

Test lab
Tough Cabling for efficient testing activities

Control room
Actassi Tough Cabling for superior data transmission, and F² secure patch cords to ensure there are no unauthorised disconnections

Main Distribution Area (MDA)
Actassi MPO plug-n-play solution for high bandwidth demand, high-density reliability and scalability

Horizontal Distribution Area (HDA)
MPO plug-n-play solution for guaranteed performance; and 10G solution for fast data transmission over extensive data applications

- Backbone cabling
- Horizontal cabling

Superior usability

By constructing a complete system, we have made sure that there will never be incompatible differences in-between parts. But as an installer, we believe you would like to know the specifics. Let's take a closer look at some less visible Actassi advantages!

Actassi system

With innovations such as the S-One connector, the sliding 19" patch panels and the CL-MX cable, Actassi allows you to work faster. Installation time will be decreased by up to 20 %, still high-performing network cabling is assured.

The fast and trouble-free Actassi S-One connector

The One-piece RJ45 connector is tool-less to open and close. Advantages such as the colour coding, smart bridle, U-shaped cable entry and automatic 360° earthing allow you to connect up to 50 % faster. A cutting plier is all the tooling you need. Actassi S-One is designed by Schneider Electric, manufactured in our state-of-the-art factory in Denmark and is fully compliant with the latest standard ISO/IEC 11801 Ed3.0.

P127327

The new Actassi CL-MX cable has a patented metallic crossfiller for better link performance and less installation operations. No need of separation distance to power cabling and no need of ANEXT field testing.

The high-performance CL-MX cable

A new and innovative shielded Cat 6_A cable with 3 times faster installation and a superior transfer impedance performance. The secret is the patented single-foil metallic crossfiller that brings 3x shielding, improved EMC and less cutting operations.

The pre-equipped 19" panels

The Actassi 19" patch panels with sliding and quick-fix function, automatic earthing, quick-release button and rear cable identification will delight any professional.

Actassi VDS allows airflow of 80 %

The new Actassi enclosure for server applications is very robust and can be mounted with up to 750 kg of 19" components. The micro-perforated door ensures superior air circulation. Cable entries at the sides enable ergonomic installations.

Actassi helps you
get more jobs done
by speeding up each
task.

Install seamless end-to-end connectivity

Actassi includes everything needed to install and operate network connections simply and intuitively. Technical innovations and ergonomic features exceeding the demands of end-users and installers, enhance productivity in every workplace.

Actassi is easy to specify, install, use and upgrade. Together with our OptiLine installation system you will have a very flexible network access.

PE901435

Actassi 19" Enclosures

A complete range of products including all sizes of enclosures, from 6 units to 47 units with different widths, depths and compositions.

P111569

Quick Fix

Our 19" panels are all equipped with the Quick Fix function, allowing simple, firm and convenient installation and maintenance.

P124895

Actassi 19" Panels

Sliding function, automatic earthing, quick-release button and rear cable identification make the Actassi 19" panel a delight to install.

P127327

CL-MX cable

The new Actassi CL-MX cable has a patented metallic crossfiller which brings 3x shielding and superior EMC. Still it's 3 times faster to install!

P121600

Actassi S-One – Twice as fast

The new Actassi S-One RJ45 connector, with features like the smart bridle, is up to 50 % faster to connect than most other connectors.

P131340

OptiLine Consolidation point

Performa Mesh trays

Cable management for perfectionists
Every cord and cable is easily fixed and fastened in its designated place.

Clear marking
Both patch panels and connector face plates are equipped with a system for clear marking.

Expand in no time
The patch panels are pre-equipped and have benefits such as the Quick Fix and a convenient sliding function.

Altira
The Altira range contains all the functions and finishes you need to make a complete and stylish installation.

Wall installation
The OptiLine trunking makes tele, data and power easily and elegantly accessible.

Table installation
Increase function, technology and design by providing network and power access for complete flexibility.

Floor installation
For a truly flexible solution, use our two-sided post. It's equipped with a fixing for the innovative floor grommet, enabling easy future adjustments.

Complete peace of mind

Did you connect the right wire? Did you remember earthing? With Actassi you never have to worry again. The shielded connectors have an automatic 360° earthing, so you will save time and provide safe installations simultaneously. But security isn't only a built-in feature in products. It's also a philosophy that has governed the way we have designed the Actassi support services and warranties.

We offer comprehensive training programmes as well as extensive warranties.

You will get it right, intuitively

Actassi system warranty covers the complete network, from the technical room to the workstation. Ask your local Schneider Electric sales office for detailed information on the warranties and support resources in your country.

Actassi is built on intuitive installation technology, making it very hard to fail. But if there are any uncertainties, don't hesitate to call your local support services. They are happy to answer your questions. And if there is something you would like to excel at, you are always welcome to join our training programmes.

Certified standard and global accessibility

All Actassi products are certified to the highest standards by a third party. Several products actually exceed international standards to give you true top-class performance and reliable connectivity. Our worldwide presence and well-known distribution partners also ensure both global and local access to our products and services.

P130046

P63309

The Digital Rule helps you select products

Do you find it hard to select RJ45 connectors, patch panels, cables and enclosures? Visit schneider-electric.com and try our Digital Rule. It's an intelligent online e-catalogue which will facilitate your choices and ensure an error-free specification.

Environment in focus

Energetic and environmental responsibility lies at the core of Schneider Electric culture and strategy. We strive to reduce the environmental impact of our products throughout their entire life-cycle, particularly through eco-design and eco-production.

Actassi is compliant with RoHS, the REACH European directives and PEP Eco passport. Product Environmental Profile available on request.

Actassi CL-MX cables is one example of Eco-design. Halogen-free, flame or fire retardant. In case of fire, the result of using Actassi CL-MX is the reduction of the emissions of opaque smoke and acid gases. Thus, it helps reducing damages to equipment and allows people to escape from the building more easily.

Eco-design

The European Union enacted an Energy using Products (EuP) framework directive in 2005 (directive on the eco-design of products) which seeks to promote eco-design approaches in priority sectors, or even to specify the aims of impacts for some products.

Although Schneider Electric's supply is outside of the EuP target, it generalises the eco-design approach to all its developmental activities and undertakes to communicate the environmental features of its products through Product Environmental Profiles (PEPs).

Product Environmental Profile

For each product Schneider Electric undertakes to publish a Product Environmental Profile (PEP). It provides customers with information on their environmental performances during their life cycle as well as the best treatment solutions at the end of their life. To ensure transparency and the validity of the data, it complies with ISO 14025 in an inter-professional programme which sets shared calculation and drafting rules for publishing the environmental impacts of products.

P127327

P131634

Actassi 19" patch panels

The Actassi 19" panels are indeed an installer's delight! They are innovative, simple and efficient. They are also part of the global Actassi product portfolio for Network Connectivity including connectors, cables and enclosures. Actassi is also a vital component of TOP – the Total Office Performance system – making workspaces energy efficient, flexible and comfortable. TOP includes everything from power and data distribution, to safety systems and lifespace controls. So, when you choose Actassi you'll get superior usability and a truly seamless end-to-end connectivity.

PI10158

PI10158

Making professional IT and network installations easy

P111569

All Actassi panels are equipped with the smart and innovative Quick Fix function.

Now, furnishing or maintaining our 19" racks with panels couldn't be done easier or faster. Actassi panels are all equipped with the Quick Fix function, a mechanism mounted at each side of the 1U panel, which helps them to be quickly opened.

P111437

A panel for every need

We've got panels for fibre optic, data and telecom. They have all been developed with two words in focus - easy and smart. Some examples; Quick Fix function, sliding panels, clear marking and easy cable management.

The fibre optic panels also have a highly developed protection against dust. And the best of it all, the panels are also available pre-equipped, to make your ordering and installation as simple as possible. Of course power panels are also part of our offer.

P111548

Quick Fix

Just press the button and the panel smoothly slides out. Other Quick Fix secrets are the guiding fingers and the pre-mounted screws. The integrated label holder gives the panel a unique identity.

P110843

Homogeneous design

Actassi is not only a high quality system, it also looks good! The appearance is really professional since we have kept the same aesthetics for the whole range.

P110842

Future proof

All Actassi products are part of our modular offer for creating a professional IT and network environment. The robust design, construction and high-quality materials are other long-lasting guarantees. That's why the Actassi products are future proof.

P110844

Good overview

The transparent front lids and the top cover protect the patchcords and fibres, and give a clear visibility of the inside.

Actassi data panels

The data panels contain a front configuration for 24 RJ45 connectors. All panels have the smart Quick Fix function. They are also available pre-equipped with connectors, shutters, label holders and a rear cable organizer. We try to make your life as easy as possible.

The data panel is available pre-equipped with the innovative S-One connectors.

Sliding helps installation

Maintenance and extensions are smoothly performed with the help of the Quick Fix sliding function.

Actassi S-One

The connectors are a one-piece design for very fast and reliable wiring. Actassi S-One exceeds component hardware certification for standards like ISO/IEC 11801 Ed3.0 for Cat 6_A, ensuring optimized network performance.

Cable management

Apart from the systems with colour codes, labels and numbers, the technical setup at the rear of the panel is designed to enhance order. Cables of various diameters are easily mounted and kept in place in specified slots.

Rear position numbers

Keeping track of each RJ45 could sometimes be very hard. Actassi is changing all of that! The cable numbers at the rear correspond to those at the front, simplifying installation and maintenance from both sides of the rack.

Automatic earthing

An automatic earthing for FTP/STP versions is integrated in the panel.

Clear front marking

Each panel plate has an openable label holder. Print your own labels or use the included versions with pre-printed port numbers. Each shutter can also be colour coded for quick identification in both open and closed positions.

Actassi flat high-density panels

1

The new Actassi 19" flat data panel with connectors placed at an angle gives a new dimension to high density – the panels can be mounted directly on top of each other, with no need of intermediate guiding panels. They are available empty without connectors or equipped with Cat 6_A STP connectors.

P135366

Quick Fix function
The panels are equipped with a Quick Fix function for a fast installation.

P135754

The flat data panel contains a configuration for 24 RJ45 connectors with a clear marking both at the front and at the rear. The panels are easy to install thanks to the front access and the Quick Fix function. Use the vertical side rings for vertical management of the patch cords. Other features are the removable cable manager at the rear, the panel identification label and the hinged central label holder.

P135002

P135753

P135061

Vertical side rings
Vertical side rings and connectors at an angle give a true high density installation. The overhead patching frame saves space in the enclosure below.

P135364

Connectors at an angle
Connectors placed at an angle combined with front access simplify installation work.

P135365

Clear front marking
Large identification labels for easy readability from ground level.

P135366

Cable management
The cable manager can be folded or removed. Hooks for cable ties for extra safety.

Actassi fibre optic panels

A simple all-in-one concept, pre-equipped with for example Quick Fix function, coiling wheels and cable glands. It has a capacity of 24 fibres and has transparent lids for protection and a clear visibility of the inside. Can hold up to 4 cover plates, and since it is delivered with 3 blank plates, the choice is open for the fourth to be used according to your needs. The cover plates are available in empty and pre-equipped versions with adapters.

To match your fibre optic panel we have developed a range of pre-equipped cover plates. It's a time-saving, safer and smarter way to work with your installations.

Coiling wheels

The panel contains wheels to keep the fibres in place and to avoid tension on the connectors. This will also give a correct bending radius and more space for excess lengths of the fibres.

Excellent protection

The transparent covers give both protection and overview. The front covers can be opened for quick access and the top cover is easily removed.

Clear marking

Since the marking is very clear, identifying the cable you are looking for will never be a problem.

Integrated guiding panel

A patchcord guiding panel, with smoothly shaped edges to protect the cords, is integrated in the panel. So there is no need to add a separate guiding panel that would take another 1U space.

Rear quick fixation

A quick-fixation system is provided for the cables at the rear. Use the provided 16 mm glands for cables. If a 21 mm gland (not provided) is needed, just remove the rear plastic support and fix the gland directly in the cable entry. Quick and easy!

Sliding function

The panel can be slid or completely removed for a more convenient working position.

Actassi telecom panels

The smart and high capacity 19" telecom patch panel provides up to 50 connections. Very easy fixation of the panel thanks to the Quick Fix function with guiding fingers and pre-mounted screws. The label holders are easily opened without using any tool.

Exceptional robustness

The sliding function does not deteriorate the stability. As a proof you can use the punch down tool for LSA contacts with the panel in a sliding-out position. You don't need to remove it from the rack first!

Punch down tool
This is the punch down tool for LSA contacts, to be used for telecom cable connections.

Cable identification
No need trying to figure out which cable goes where. The cable identification is very clear on the clever fixing guides.

Safe and easy earthing
The panel has two earthing connection points for both shielded cables and for the rack, easily accessible at the rear.

Clear marking
The telecom panel comes with pre-printed labels and openable label holders.

Power panels and accessories

The Actassi system also includes a range of power panels and smart accessories for improved cable management. The power panels are available in several versions, for example with a protected light switch and overvoltage protection. The innovative patchcords guiding panel is equipped with four openable rings, managing up to 48 cords.

Power panel
With Quick Fix function and 3 m of power cord. Several versions, for example with protected circuit breaker/earth leakage.

Brush and blank panel
Brush guiding panel. Blank panel instead of an empty gap in the rack.

Guiding panels for patch cords
The 1U panel manages 24 cords, and 2U panel 48 cords. Easily opened but still safe, since a clever device prevents cords from falling out. Also possible to pull out only one cord if needed.

Side rings for rack 800x800
Rings for vertical management of up to 48 patch cords, attached to each side of the guiding panel (or any panel with Quick Fix). Available for 1U and 2U.

Vertical rings for rack 600x600
For the 600x600 racks, use the smaller tie up devices to keep your installations in neat order.

Actassi consolidation box

Cabling infrastructure installations are requested to be more flexible in order to:

Support quick reorganization of the building usage.

Simplify the deployment of new devices and applications that becomes progressively IP based.

Actassi consolidation point is this new node of cabling infrastructure. It has been developed to ease the installation either in ceiling or in technical floor with same components. It is equipped with shutter, label and label holder to be managed inside the whole installation as the other elements.

Standards have defined new topologies for distributed services in building in which the consolidation point becomes a central node and it makes the network more scalable.

Installation in cabling infrastructure are now requested to be very flexible. It must be able to support quick reorganization of the building usage and able to simplify the deployment of new devices and applications that are now IP based. Wireless access points, IP cameras, building automation control devices are now directly connected using plug terminated links. These links are connected to a consolidation point. That's why we propose a new set of consolidation box in Actassi range.

Cable management

The inside of the box is designed to enhance order. Cables of various diameters can easily be mounted and fixed on specific features.

IP protection

Brush are installed on all cables entrances to protect the inside from dust.

Cover

Cover is removable and can rotate. It allows an easy installation of RJ45 connected with cable inside the box.

Automatic earthing

An automatic earthing for FTP/STP versions is integrated in the consolidation box.

Clear front marking

Each consolidation box plate has an openable label holder. Print your own labels or use the included versions with pre-printed port numbers. Each shutter can also be colour coded for quick identification in both open and closed position.

Actassi S-One RJ45 connectors

Actassi S-One with one-piece design for faster and safer installations

Without any loose parts the Actassi S-One connector is more compact, easier to handle and up to 50 % faster to connect. The connector is delivered open, ready to connect. It has an automatic 360° cable earthing, a simple locking termination and a very smart locking function. The robust one-piece design is suitable for all applications, and in the Actassi S-One range you'll find both unshielded and shielded connectors of all categories.

PoE++

The Actassi S-One connector is now certified and fully compliant with the PoE++ standards by Force Technology (Delta), allowing transport of up to 100 W in the data cable.

Ready...

S-One is delivered open. Just insert the cable in the central U-shaped entry.

Steady...

Close the smart bridling – it will automatically lock the cable and provide 360° earthing.

Done.

Shut the connector. A "click" confirms that it's locked into its firm and reliable position.

Actassi S-One benefits

U-shaped cable entry with a smart bridle

Despite being compact in size, the connector has enough space inside for your work. All functions are designed to ease your installation.

Smart bridle with elastomer insert for cable locking reduces risk of damaging cables.

U-shaped cable entry. Easy access for all cables.

Central cable entry for optimized performance.

Automatic 360° earthing with spring-loaded locking and earthing bridle.

Integrated earth-drain contact provides double earthing.

Safe and automatic 360° earthing

Actassi S-One easily provides automatic earthing without any tools.

Protected IDC

With Actassi S-One it's nearly impossible to damage cables or fingers, since the IDC is concealed in a cavity.

Insulated plastic IDC housing eliminates short-circuit between conductors and metal body.

Ergonomic design

Installing shouldn't be painful! So in the Actassi S-One range it isn't.

Bridle with elastomer insert (unshielded) for convenient locking and soft touch.

Smooth design with rounded edges.

Touch-friendly materials.

Re-open in two clicks

You can hear the Actassi S-One opening and closing.

Quick-release buttons for tool-less re-opening.

Reduced risk of damaging connections.

Re-close with a simple click-click.

Actassi S-One is colour-coded

The Actassi S-One wire organizers are colour-coded to make performance identification safer and easier. Both unshielded and shielded connectors are coded according to the same system. Green for Cat 5e, light blue for Cat 6 and dark blue for Cat 6A.

Practical eco-box

- Box of 12 connectors.
- Connectors delivered open, ready to connect.
- Cardboard package for easy recycling.

Integrated hook for the 19" rack.

Unshielded

The unshielded Actassi S-One connectors have a smooth feel. The design promotes safety and comfort by its finely contoured shape, edges and elastomer insert.

Shielded

The shielded Actassi S-One connectors have two very time saving and safe features. It's the spring-loaded bridle for locking and automatic 360° earthing, and the integrated earth drain contact, which provides efficient double earthing.

Full compliance with ISO/IEC 11801 Ed3.0

To get your complete network installation classified you need to work with classified components. That's why you should choose our solutions. We provide seamless end-to-end connectivity through safe, speedy and reliable network installations. We are constantly adjusting and updating our portfolio, and at the same time making sure that they are fully compatible with older and future solutions.

Cat 5e

Cat 6

Cat 6_A

Every part in our Actassi range is certified to deliver what we claim they will. The Actassi S-One components are produced in Europe and fully compliant with ISO/IEC 11801 Ed3.0 for Cat 6_A, so you can always count on an outstanding performance and reliability.

Actassi S-One DPM benefits

U-shaped cable entry with a smart bridle

Despite being compact in size, the connector has enough space inside for your work. All functions are designed to ease your installation.

Smart bridle with elastomer insert for cable locking reduces risk of damaging cables. U-shaped cable entry. Easy access for all cables.

Central cable entry for optimized performance.

Safe and automatic 360° earthing

Actassi S-One DPM easily provides automatic earthing without any tools.

Automatic 360° earthing with spring-loaded locking and earthing bridle.

Integrated earth-drain contact provides double earthing.

Protected IDC

With Actassi S-One DPM it's nearly impossible to damage cables or fingers, since the IDC is concealed in a cavity.

Insulated plastic IDC housing eliminates short-circuit between conductors and metal body.

Ergonomic design

Installing shouldn't be painful! So in the Actassi S-One DPM range it isn't.

Bridle with elastomer insert (unshielded) for convenient locking and soft touch.

Smooth design with rounded edges.

Touch-friendly materials.

Re-open in two clicks

You can hear the Actassi S-One DPM opening and closing.

Quick-release buttons for tool-less re-opening.

Reduced risk of damaging connections.

Re-close with a simple click-click.

Actassi S-One DPM is colour-coded

The Actassi S-One DPM wire organizers are colour-coded to make performance identification safer and easier. Both unshielded and shielded connectors are coded according to the same system. Green for Cat 5e, light blue for Cat 6 and dark blue for Cat 6A.

Practical eco-box

- Box of 12 connectors.
- Connectors delivered open, ready to connect.
- Cardboard package for easy recycling.

Integrated hook for the 19" rack.

Unshielded

The unshielded Actassi S-One DPM connectors have a smooth feel. The design promotes safety and comfort by its finely contoured shape, edges and elastomer insert.

Shielded

The shielded Actassi S-One DPM connectors have two very time saving and safe features. It's the spring-loaded bridle for locking and automatic 360° earthing, and the integrated earth drain contact, which provides efficient double earthing.

Full compliance with ISO/IEC 11801 Ed3.0

To get your complete network installation classified you need to work with classified components. That's why you should choose our solutions. We provide seamless end-to-end connectivity through safe, speedy and reliable network installations. We are constantly adjusting and updating our portfolio, and at the same time making sure that they are fully compatible with older and future solutions.

Cat 5e

Cat 6

Cat 6_A

Every part in our Actassi range is certified to deliver what we claim they will. The Actassi S-One DPM components are produced in Europe and fully compliant with ISO/IEC 11801 Ed3.0, so you can always count on an outstanding performance and reliability.

Actassi S-110 RJ45 connectors

P148081 eps

Actassi S-110 high-quality ranges

Actassi S-110 is the high-quality range of RJ45 punch-down connectors with Keystone footprint. The connectors are unshielded, based on 110 termination technology and can be connected with Actassi Quick Termination Tool or Actassi punch-down tool. Actassi S-110 range provides full compliance to the latest international standards ISO/IEC 11801 Ed3.0 and ANSI/TIA-568-C.2. It is also compliant to PoE++ (PoE 100W) IEC 60512-99-002 and is supported by 3rd party laboratory certification.

Actassi S-110 RJ45 benefits

Actassi S-110 is the high-quality range of RJ45 punch-down connectors with Keystone footprint. The connectors are unshielded, based on 110 termination technology and can be connected with Actassi Quick Termination Tool or Actassi punch-down tool. Actassi S-110 range provides full compliance to the latest international standards ISO/IEC 11801 Ed3.0 and ANSI/TIA-568-C.2 and is supported by FORCE Technology (Delta) certification.

U-shaped cable entry

Customer is able to do termination with cable entrance by lateral or axial access

Easy termination

Same wire map for Cat 5e + Cat 6 + Cat 6_A = less risk to make wire connection errors

Keystone footprint

RJ45 jack is able to be integrated in Actassi faceplates and 19" patch panels

Wires retention

Wires are maintained in the rear part of RJ45 during termination

Transparent IDC cap

Clear and transparent IDC cap for faster visual inspection of wires after termination

Easy identification of applications

Available in several colours for easy and quick circuit/network identification and management in patch panels

Visible category

With 3 different markings it's easy to know the category just by looking the front of the connector (5e = Cat 5e, 6 = Cat 6, 6A = Cat 6_A)

Integrated automatic shutter

Patented automatic shutter to protect the RJ45 jack from dust and accidental insertion. Customer doesn't need to buy and install additional part to protect the RJ45 jack in 19" patch panel or in Wiring device faceplates

Fixed panels – empty and equipped with the S-110 connectors

The Actassi S-110 product range offers 2 Actassi panels where S-110 RJ45 connectors can be fitted. The panels have a Quick Fix function on both sides and they are equipped with 4 label holders and a metal tray cable manager.

You can choose empty panel or equipped panel (delivered with S-110 Cat 5e unshielded or S-110 Cat 6 unshielded connectors, see page 95).

Empty fixed panel for S-110 connectors (for all categories **except Cat 6_A unshielded**)

Equipped fixed panel with S-110 connectors (delivered with S-110 **Cat 5e unshielded** or **S-110 Cat 6 unshielded connectors**)

For the specific need of Cat 6_A unshielded system, a panel is available with an offset design to fit with specific requirements of S-110 Cat 6_A unshielded connectors.

This panel is equipped with S-110 Cat 6_A unshielded connectors (black colour, without shutters, see page 97).

Equipped fixed panel for S-110 connectors (delivered with S-110 **Cat 6_A unshielded connectors**)

Actassi S-110

Industrial design

Our product design allows you to recognize the Schneider brand through the RJ45 jack aesthetic: logo, design and color. It's easy to associate it to Schneider Electric products and other ranges and is a proof of our willingness to provide you a full consistency in our offers.

Practical eco-box

- Box of 24 connectors.
- Connectors delivered in individual, Plastic bag
- Cardboard package for easy recycling.

Full compliance with ISO/IEC 11801 Ed3.0

To get your complete network installation classified you need to work with classified components.

That's why you should choose our solutions. We provide seamless end-to-end connectivity through safe, speedy and reliable network installations. We are constantly adjusting and updating our portfolio, and at the same time making sure that they are fully compatible with older and future solutions.

Quick termination punchdown tool

(compatible with new unshielded S-110 Cat 5e, Cat 6 and Cat 6_A)

- Fast and easy field installation tool with simple squeeze handle
- Handle lock design
- Replaceable cutting module design
- Save up termination time over 80 %
- Save up termination force needed to 70 %
- Termination of all wires at one single squeeze
- Ensure quality, stability and safety during termination
- Easy & handy carrying and storage.

Actassi copper cables

This page must be checked by each country. Should contain some regional offer.

Three ranges that cover all needs

P119656

CL-C offer

Standard copper LAN cables for your day-to-day installations, based on U/UTP and F/UTP cables, from category 5 to category 6_A.

The CL-C cables are reliable and well-known, with good performance.

P119655

CL-MNC offer

High-end copper LAN cables for performances from category 6 to category 7_A 1000 MHz. Exceeding international standards by 3 dB minimum on NEXT. Full FORCE Technology (Delta) certification for components.

P128513

CL-MX offer

Exclusively designed LAN copper cables for category 6_A with a patented single-foil metallic Xfiller, providing high performance and reliable shielded installations. Exceeding international standards by 20 dB on NEXT.

Full FORCE Technology (Delta) certification for components.

Actassi offer overview

Type of shielding	Performances				
	Cat 5	Cat 5e	Cat 6	Cat 6 _A	Cat 7 _A
U/UTP		CL-C*	CL-C* CL-MNC		
F/UTP	CL-C*	CL-C*	CL-C	CL-C CL-MNC	
SF/UTP			CL-C		
U/FTP			CL-MNC	CL-MNC	
F/FTP				CL-MNC CL-MX	CL-MNC
S/FTP					CL-MNC**

* Available with PVC or D_{CA} (LSZH) material.

** Available with D_{CA} (LSZH) or C_{CA} (LSFRZH) (D_{CA} (LSZH) + improved Fire Resistance) material.

Cable standardisation

X/X TP

- TP= Twisted Pair
- F= Foil screened, U=Unscreened
- F= Foil screened, S=Braid screened, SF=Braid & Foil screened, U=Unscreened

Actassi copper cables

This page must be checked by each country. Should contain some regional offer.

Some important advantages

2

CL-C, CL-MNC, CL-MX conductivity

For the whole offer, the conducting side of the shield is turned outwards. Thus, there is no need to turn the shield inside out before applying the connector to have a good conductivity. You will gain time during installation, there will be no destruction of the shield and you will get very good shielding.

CL-MNC crossfiller with optimized design and micro-blades

With an optimized design and specific micro-blades, you will have better performances in NEXT and ELFEXT, and a better resistance to the mechanical constraints.

CL-MX patented metallic crossfiller

New and patented metallic crossfiller design of the CL-MX LAN copper cable, providing superior shielding, faster installations and increased efficiency.

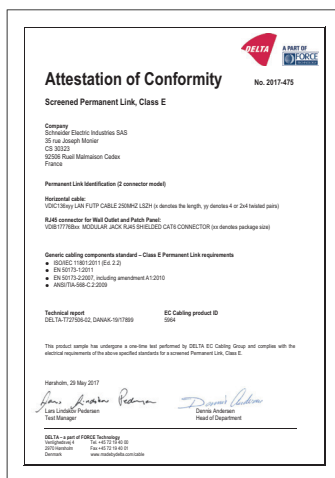

CL-C, CL-MNC, CL-MX dual cables

In order to facilitate cable laying, the majority of our cables are available in dual version. Only one operation to install two cables.

Certificates

All LAN cables from Category 6 are certified at a component level by the independent third-party laboratory FORCE Technology (Delta). Certificates are regularly updated to be compliant to the latest and highest international standards.

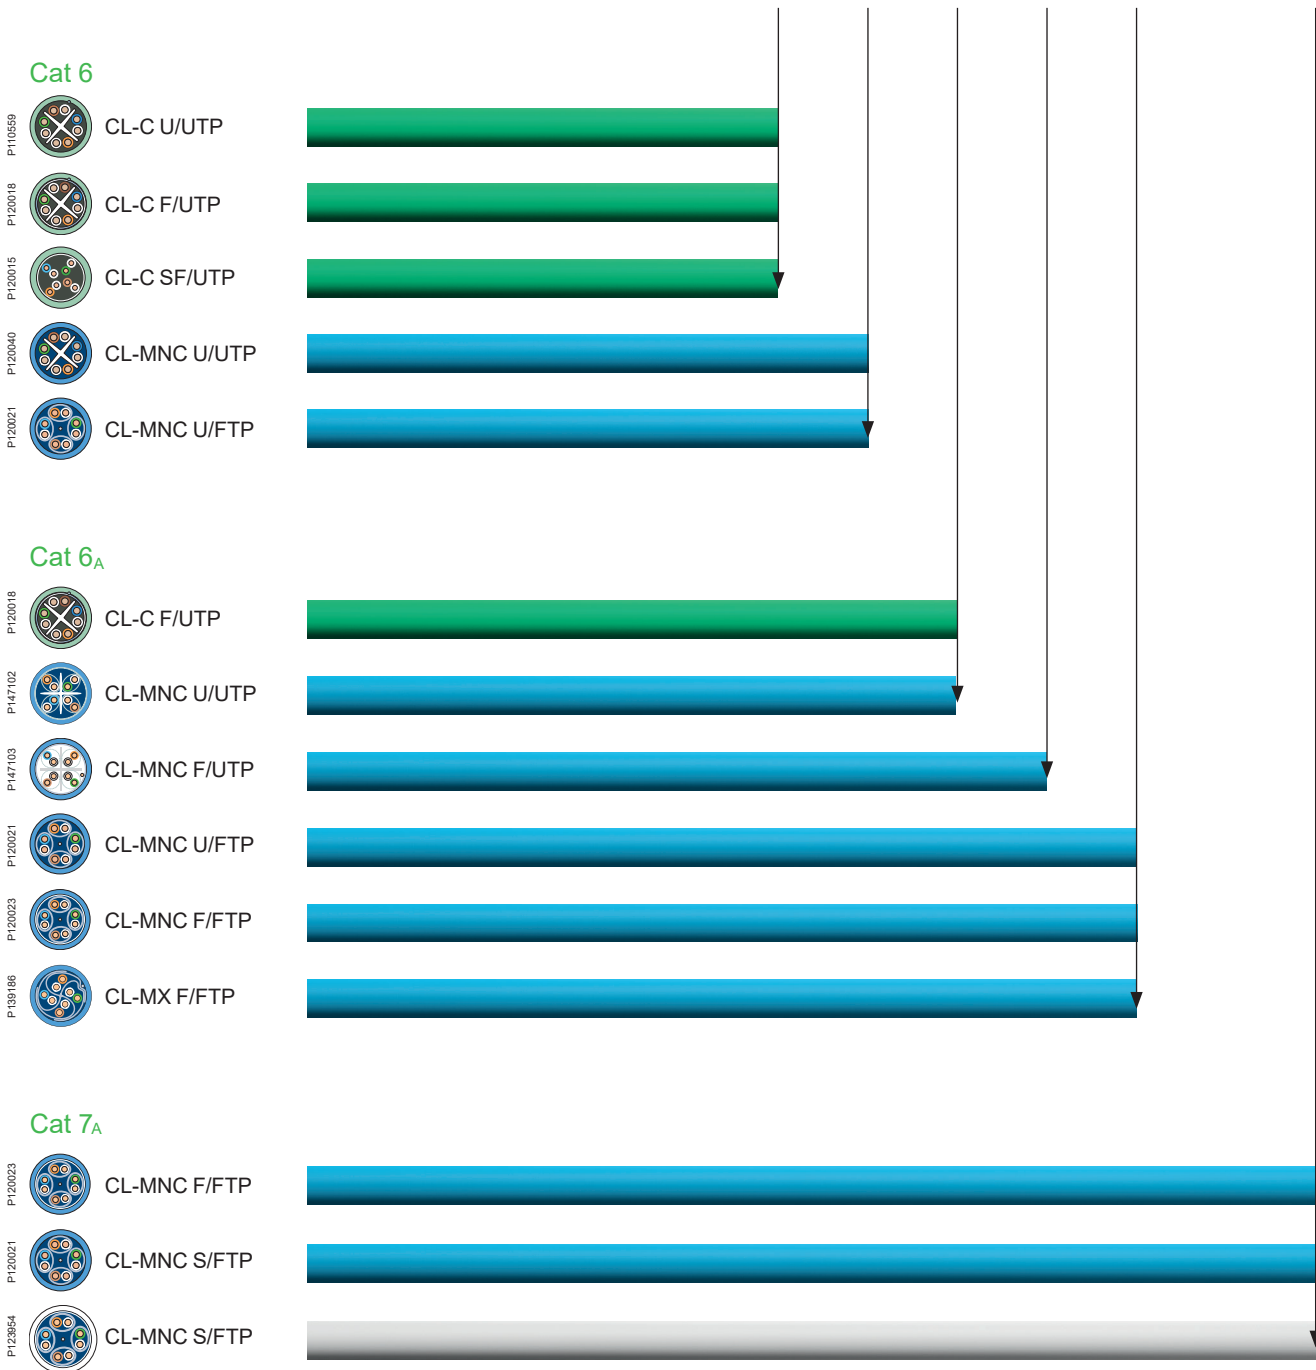

P1478137, P148138

This page must be checked by each country. Should contain some regional offer.

Performances

Frequency (MHz)	250		500			1000
Attenuation (dB)*	33	33	45.3	45.5	45.3	61.9
NEXT (dB)*	39.3	42.3	34.8	37.8	54.8	60.4
ACR-F (dB)*	20	23	14	17	24	35.3
Propagation speed (%c)	66	66	70	70	82	78

* Guaranteed characteristics given for 100 meters at maximum frequencies: 250 MHz for category 6, 500 MHz for category 6_A, 1000 MHz for category 7_A.

New Construction Product Regulation CPR Euroclass

The purpose of this new regulation is to increase security for people and goods inside buildings.

All the communication cables as LAN copper cables or fibre optic permanently installed in buildings sold on the European countries after July 1st 2017 must comply to EN 50575 and new CPR. This new regulation defines a common methodology to evaluate fire performances and ensure the harmonisation of the law at EU level.

All cables will need to be tested, classified and CE marked per the new CPR mandate. Indication of Euroclass level will be mandatory on the packaging label, a declaration of performance is compulsory for each product, available on SE.com website.

Schneider Electric has a comprehensive range of cables available to support these requirements

Euroclass classification

High contribution to fire propagation

Low contribution to fire propagation

Current test

Flame spread

New requirements

- Flame spread
- Heat release
- Smoke production
- Flaming droplets
- Acidity

Euroclass
is based on

5

tests

Make the good choice...

Make your choice and advise customers according to:

- Material standard
- Typology of the building
- Typology of people inside the building
- Accessibility of the building
- Cost of the goods to be replaced (check the typology of the installation)

Schneider Electric recommendations

- Promote only Cables and optic fibres **D_{CA}** and **C_{CA}**
- Promote **C_{CA}** Euroclass when risk is high (hospital, high building...)

Each cable is certified by an accredited laboratory
The certification is proof of performance.
To know more about CPR : link to standard

Example

a Acidity

a ₁	Conductivity < 2.5 micro S/mm and pH > 4.3
a ₂	Conductivity < 10 micro S/mm and pH > 4.3
a ₃	No performance determined

d Flaming droplets

d ₀	No flaming droplets within 1200 s
d ₁	No flaming droplets within persisting longer than 10 s
d ₂	No performance determined

s Smoke

s ₁	TSP1200 ≤ 50 m ² and Peak SPR ≤ 0.25 m ² /S s _{1a} = s ₁ and transmittance in accordance with EN 61034-2 ≥ 80 % s _{1b} = s ₁ and transmittance in accordance with EN 61034-2 ≥ 60 % < 80 %
s ₂	TSP1200 ≤ 400 m ² and Peak SPR ≤ 1.5 m ² /S
s ₃	No performance determined

LAN cable / Fibre optic

CPR

5 tests for the new Euroclass ranking

Installer

Check cable conformity and provide the right document to security committee.

Distributor

Check conformity of product sold.

Specifier

Specify the right solution according to the local laws.

Actassi CL-MX cables

3 times improved performance w 1 new metallic crossfiller

This page must be checked by each country. Should contain some regional offer.

The patented crossfiller brings 3x shielding and superior Electro Magnetic Compatibility (EMC). Thanks to the unique design, the EMC performance is the best in the market with performances exceeding the standard requirem shielded cables with braid (S/FTP). The metallic crossfiller ensures an improved transfer impedance to fit requirements of sensitive areas where data transmission is critical. Best of all, Actassi CL-MX cables require less operations to be installed.

Superior headroom and bandwidth, exceeding international and local standards.

Designed for improved EMC

High-speed transmission protocols beyond 10 Gbit/s highlight ANEXT sensitivity and noise immunity as key performance factors for efficient, secure and robust installations.

The single-foil structure of the metallic crossfiller acts like a triple screen protection around the copper twisted pairs. This specific design enhances EMC performances to reach grade 1 on the transfer impedance parameter, which is better than a shielded design with braid.

P127328

This page must be checked by each country. Should contain some regional offer.

The fire properties are documented by standardized methods according to IEC 60332-1, IEC 60332-3C, IEC 60754-1 and IEC 60754-2.

Better link performance

With Actassi CL-MX the installations are easy and safe. According to the international standards for shielded LAN cables, the use of CL-MX cables will require less installation operations:

- No separation distance to power cabling*
- No ANEXT field testing

*EN 50174-2 to be referred

Improved safety in case of fire

Actassi CL-MX is available in two versions, the flame retardant D_{CA} (LSZH) and the fire retardant C_{CA} (LSFRZH). Both are halogen-free. In case of fire, the result of using CL-MX is the reduction of the emissions of opaque smoke and acid gases. Thus, it helps reducing damages to equipment and allows people to escape from the building more easily.

3x

Three times faster installation with Actassi CL-MX

Less cutting with Actassi CL-MX

Use the cable stripper tool and cut the outer sheath. Cut the one single foil metallic crossfiller and remove it with a simple grip. Your CL-MX is ready to connect.

Instead of separate wrapped-in foil pairs (like in traditional F/FTP or F/UTP cables), the Actassi CL-MX new crossfiller is wrapped in one single foil. This means less cutting and improved quality of the cable preparation. No need to pay attention to cutting the foils at exactly the same level, or to the length of the F/UTP plastic cross.

Why traditional F/FTP cables are 3 times slower to install

Prepare your tools. Use the cable stripper tool and cut the outer sheath. Cut the outer foil. Remove the foil. Separate all pairs and the drain wire. Cut and remove the foil of the first pair. Cut and remove the foil of the second pair. Cut and remove the foil of the third pair. Cut and remove the foil of the fourth pair.

CL-C Category 5e Copper LAN cables

CL-C Cat 5e U/UTP

Specifications

- 100 Ohms, 100 MHz, AWG24, 4 pairs or 2x4 twisted pairs without screen
- Compatible with all PoE applications up to 4-pair PoE Type 4 (100 W maximum @ Power Source Equipment).

For Type 4 PoE, bundle size shall be limited to 32 cables when installed in pathways under ventilated conditions and 10 cables in closed metal trays to ensure temperature rise below 15°C.

Performances

- Compliant to EN 50173-1, ISO/IEC 11801 Ed3.0, IEC 61156-5 Ed2 and TIA/EIA-568-C.2 standards.

NEXT	Guaranteed	Standard IEC
100 MHz	35.3 dB	≥ 35.3 dB

Use

- Network cabling systems for category 5 voice & data applications. Data rates transmission: Gigabit Ethernet, 10/100 BaseT.

Type	Weight	Diameter	Euroclass	Cond/Length	Ref. No

CL-C Copper LAN cables - Category 5e

Category 5e PVC cables

The Actassi Category 5e 4-pair cable consists of 24 AWG (0.51 mm) solid-copper conductors insulated with high-density polyethylene. The insulated conductors are tightly twisted into pairs and covered with PVC material. The Actassi Category 5e 4-pair cable provides excellent high-speed transmission, is certified to 100 MHz. This product is CM or CMR fire rated.

Category 5e LSZH cables

The Actassi Category 5e low smoke zero halogen (LSZH) 4-pair cable consists of 24 AWG (0.51 mm) solid-copper conductors insulated with high-density polyethylene. The insulated conductors are tightly twisted into pairs and covered with a non-halogen high-density polyethylene jacket made from low smoke zero halogen compounds. The Actassi Category 5e LSZH 4-pair cable provides excellent high-speed transmission, and certified to 155 MHz. This product is CM fire rated.

Product features

- Compliant with enhanced Category 5 standard.

Customer benefits

- Ideal for high-speed networks and broadband distribution in the premise
- Suits horizontal and vertical wiring.

APAC

CL-C Copper LAN cables - Category 5e

Category 5 25-pair cable is constructed of 24 AWG (0.5 mm) solid-copper conductors insulated with high density polyethylene. The insulated conductors are tightly twisted into pairs, stranded into mini-units. This construction allows for easy pair identification and subsequent termination.

Category 5 25-pair cable provides excellent high-speed transmission, certified to 100 MHz and supports applications such as 155 Mb/s ATM, 622 Mb/s ATM and IEEE 802.3 1000 Base-T (Gigabit ethernet) standards, using parallel transmission technology or as a high performance voice riser cable. This product is CMR fire rated for riser use.

Category 5e 25-pair cable allows the use of multi-pair cables in interconnects and zone cabling applications. The 25-pair cable construction reduces tray and conduit fill rates whilst allowing high-density interconnections.

Product features

- Compliant with enhanced Category 5 standard
- PE insulation of conductors
- Grey PVC jacket.

Customer benefits

- Ideal for high-speed networks and broadband distribution in the premise
- Suits horizontal and vertical wiring.

CL-C Copper LAN cables - Category 6

Category 6 PVC cables

The Actassi 4-pair Category 6 cable is a superior product delivering excellent network performance when used in conjunction with other Actassi Category 6 products.

The Category 6 cable consists of 4 pairs of solid insulated copper 23 AWG and is CM or CMR fire rated.

The Category 6 cable provides a significant margin above the minimum Category 6 near end crosstalk NEXT requirement of ANSI/TIA/EIA-568 and ISO/IEC 11801.

Category 6 LSZH cables

The availability of a central filler helps in delivering superior cross-talk isolation and therefore ensures excellent performance. This precision and unique manufacturing process design allows for easy removal, which maximizes both performance and termination.

Insulated with non-halogen high-density polyethylene and covered with low smoke zero halogen compounds. It is designed for use in horizontal cabling situations where building smoke requirements mandate low smoke and zero halogen installation.

Product features

- Centre filler to maintain pair twisting and optimum NEXT and ELFEXT performance
- 23 AWG conductors for improved insertion loss performance.

Customer benefits

- Exceeds Category 6 ANSI/TIA/EIA-568-C2-1 and ISO/IEC 11801 standards
- Supports Gigabit ethernet (1000 Base-T and 1000 Base-TX) and beyond.

			LSZH	305 m	ACT4P6SLS3RBxx

Where **xx** denotes the color of jacket: BK = black, BU = blue, GR = green, RD = red, SG = soft grey, WE = white, YL = yellow.

Cables

APAC

CL-MNC Copper LAN cables Category 6A

Actassi Cat 6_A 4-pair cable is a high quality product delivering excellent network performance when using in conjunction with other Actassi Cat 6_A products.

The Cat 6_A cable consists of 4 pairs of solid insulated copper 23 AWG. The cable provides a significant margin above the Category 6_A Alien Crosstalk (ANEXT) requirement of TIA/EIA 568-C.2 Category 6_A and ISO/IEC 11801 Class Ea.

CL-MNC Cat 6_A U/UTP

Specifications

- 23 AWG. 4 pairs. Centre filler to maintain pair twisting.

Performances

- Complies with TIA/EIA-568-C.2 Category 6_A and ISO/IEC 11801 Class Ea standards.

CL-MLink contributes to OPEX reduction

Answering high reliability and speed deployment needs

Actassi CL-MLink is Schneider Electric's new solution for buildings and data centre applications. It delivers the features and functionality necessary to meet the unique challenges and requirements of these demanding environments.

P146882-73.jpg

2

High security for your network

- > Complete plug & play systems
- > Expertise: 100 % pre-assembled and 100 % pre-tested by Schneider Electric
- > 10G performance
- > Pre-term links with Schneider Electric warranty
- > Available in Cat 6 and Cat 6A, shielded and unshielded

Costs and time savings

- > Actassi CL-MLink's target is zero downtime. The pre-assembled cable with Actassi S-One connectors enable a speedy deployment and reduce labor costs by saving on installation time compared to standard copper installations
- > Increase overall efficiency and avoid late penalties at your construction site
- > Save on installation time with custom labels on each port that identify the building, floor, cabinet or office number

Scalable and adaptable

- > Increase flexibility in network offices
- > Pay as you grow
- > Scalability with consolidation points
- > Custom cable lengths adjust to end user needs
- > Delivered in step with site evolution

Time secured for installation on site

- > 8x faster installation compared to standard copper offer. Save connection time on site
- > Delivery secured
- > Links offer fast and easy deployment that reduces human intervention on site

An end-to-end network installation

- > Benefit from partnering with one supplier. Access the larger Schneider Electric offer for BMS, UPS, Cooling, CMS
- > Solutions for a broad range of projects and applications
- > Digital offer selection guides

Energy efficient thanks to "Green environment"

- > Packaging reduced by 90 %
- > Custom cable lengths reduce waste

Plug & Play copper bundle solution

Pre-terminated solution

CL-MLink

EMEAS Bundles

Pre-terminated bundles are manufactured according to your requirements with the components pictured below. Configurations are introduced on the following pages. To select the reference and links, use the configurator available at:

<http://www.schneider-electric.com/en/product-range-selector/61003-actassi-foreurope/?filter=business-5-installation-systemsand-control&parent-category-id=3800>

Pre-terminated solution

CL-MLink

APAC

Bundles - Category 6A F/UTP

Actassi pre-terminated copper trunk cable provides simple plug-and-play solution for high density network.

With the flexibility for customization, users can choose their own configuration with different length, connector type. Optional angled jack to angled jack connector to aid high density environment application.

In addition, 100 % factory tested copper assemblies assure transmission performance and reduce installation time caused by field termination.

Product features

- Double ended with 6-connector construction
- 100 % factory tested
- Individual serial number.

Customer benefits

- Fast installation by plug & play
- Reliable solution to supports 10 Gigabit ethernet application
- Increase visibility of back tracking.

Description	Ref. No
Jack-to-jack	
Pre-terminated Category 6A F/UTP, jack-to-jack, 6 pieces bundled, LSZH, white	ACTPTCJJ6ASLSxxWE

Where **xx** denotes the cable length from 02 m to 90 m.

Actassi consolidation point links

CP-links are used when it is needed to provide a high quality level and a high transmission link performance. The cable is pre-assembled with the Actassi S-One connector. No connection to do on site, just plug & play, which reduces errors and maintenance.

Applications

Consolidation point links (called "CP-links") are aimed for new buildings, big refurbish and critical installations within technical and server rooms, either in false floor and false ceiling areas.

This page must be checked by each country. Should contain some regional offer.

Specifications

- CP link Cat 5e, 6 and 6_A are pre-assembled with the following components:
 - S-One connector Cat 6_A
 - cable Cat 5e U/UTP and F/UTP
 - cable Cat 6 U/UTP and S/FTP
 - cable Cat 6_A S/FTP (white colour)
 - RJ45 Plug
- High performance: Cat 6_A for copper systems, standard & system warranty
- Compliant with: ISO/IEC 11801 Ed3.0, EN 50173 Ed.3, EIA/TIA 568-C.2, IEC 60603-7, IEC 61156-5
- Full latest standards FORCE Technology (Delta) certified - EN 50173 Ed.3., EIA/TIA 568 - C.2.

Benefits

- Plug & play: 100 % pre-assembled and pre-tested link
- Available in 3 catalogue lengths: 5 m, 10 m, 15 m
- Quick and easy installation
- D_{CA} (LSZH) cable use
- Full compatibility for installations with Schneider Electric poles and posts.

Application

Ensures and gives transmission of data networks.

Actassi copper patch cords

New range of Actassi patch cords are more green, more flexible, 100% tested and third-party certified

Featuring Cat 6 U/UTP, Cat 6 F/UTP, and Cat 6_A S/FTP, the range is available in LSZH or PVC outer sheath, offering 5 different colors and lengths.

Following Schneider Electric's sustainable engagement, Actassi patchcords are now packaged and delivered with the best product quality in a flat brown-carton for a better environmental footprint with less plastic, fewer inks and chemical substances.

Applications

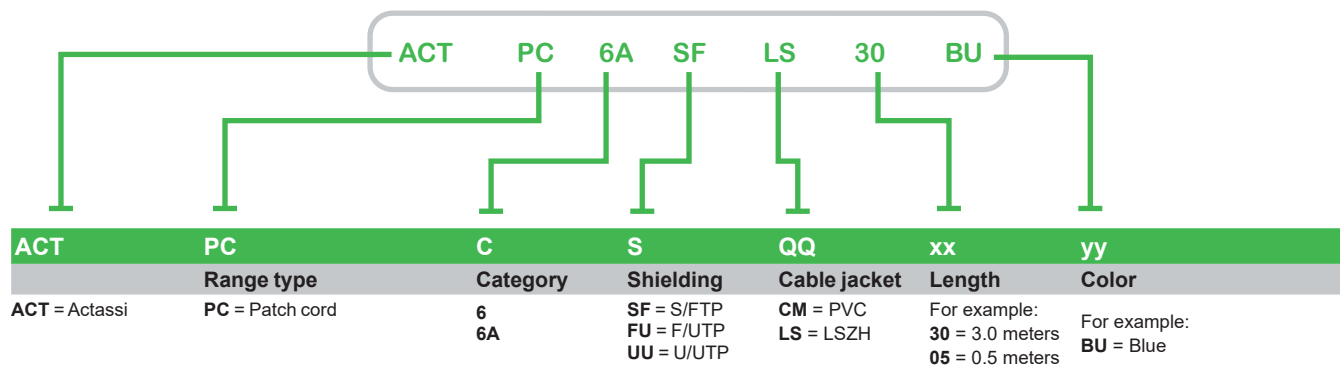

Actassi copper patch cords ensure a reliable transmission in data networks. They are suitable for both shielded and unshielded needs.

Benefits

The improved design of the new range of patch cord offers:

- 40% diameter reduction for a better installation experience
- improved flexibility that enables easy patching while finalizing racks
- simplified high-density patching management and improved heat circulation for better thermal management around the switches
- simplified patch cord reference numbers easily identified with the naming principle.

Principle of reference numbers

e.g.:

- ACTPC6ASFLS30GR = ACT = Actassi, PC = Patch cord, 6A = Category, SF = Shielding, LS = Cable jacket, 30 = Length, GR = Green
- ACTPC6ASFCM10RD = ACT = Actassi, PC = Patch cord, 6A = Category, SF = Shielding, CM = Cable jacket, 10 = Length, RD = Red

Cat 6 U/UTP patch cord

ACTPC6UUCMxxyy
ACTPC6UULSxxyy

Cat 6 F/UTP patch cord

ACTPC6FUCMxxyy
ACTPC6FULSxxyy

Cat 6 S/FTP patch cord

ACTPC6ASFCMxxyy
ACTPC6ASFLSxxyy

Standard Compliance

- 100% tested at the final control according to TIA-568.2-D and ISO/IEC11801-1 standards.
- Support Power over Ethernet (POE) applications up to 100 W (IEEE802.3af, EE802.3at, and IEEE802.3bt Type 3 and Type 4).
- Certified each year by a third-party laboratory (also recognized as Notified Body by European Union).
- Compliant with latest international standards TIA-568.2-D and ISO/IEC11801-1.
- Compliant with environmental and safety standards 2011/65/EU and 2015/863/EU RoHS directives and 2014/35/EU low voltage directive.
- Meet local regulations, CE for Europe, and RCM for Australia.
- The product and its packaging are compliant with ROHS and REACH. It also meets the SE Green Premium program.
- The product delivery includes its environmental profile showing limited environmental impacts during Manufacturing, Distribution, Installation, Use, and End of life.

Specifications

- The outer sheath of the patch cord is LSZH or PVC.
- The PVC outer sheath cable of U/UTP, F/UTP, and S/FTP categories are CM rated.

Installation Guidelines

- CL-MNC Cat 6 and Cat 6A Actassi patch cords are suitable for TIA Channel Cat 6 or 6A respectively and suitable for ISO Channel Class E or Ea at the condition 1.95 de-rating factor applied.
- The patch cord installation guidelines follow TIA TSB-184-A-1 and IEC 14763-2 standards, especially for the bundling of AWG28 patch cords supporting the delivery of IEEE 802.3 Type 3 or Type 4 PoE.

Panel range with S-One, S-One DPM and S-110 Actassi data panels

The data panels contain a front configuration for 24 RJ45 connectors. All panels have the smart Quick Fix function. They are also available pre-equipped with connectors, shutters, label holders and a rear cable organizer. We try to make your life as easy as possible.

The data panel is available pre-equipped with the innovative S-One connectors.

Sliding helps installation

Maintenance and extensions are smoothly performed with the help of the Quick Fix sliding function.

Actassi S-One

The connectors are a one-piece design for very fast and reliable wiring. Actassi S-One exceeds component hardware certification for standards like ISO/IEC 11801 Ed3.0 for Cat 6_A, ensuring optimized network performance.

Cable management

Apart from the systems with colour codes, labels and numbers, the technical setup at the rear of the panel is designed to enhance order. Cables of various diameters are easily mounted and kept in place in specified slots.

Rear position numbers

Keeping track of each RJ45 could sometimes be very hard. Actassi is changing all of that! The cable numbers at the rear correspond to those at the front, simplifying installation and maintenance from both sides of the rack.

Automatic earthing

An automatic earthing for FTP/STP versions is integrated in the panel.

Clear front marking

Each panel plate has an openable label holder. Print your own labels or use the included versions with pre-printed port numbers. Each shutter can also be colour coded for quick identification in both open and closed positions.

Actassi flat high-density panels

The new Actassi 19" flat data panel with connectors placed at an angle gives a new dimension to high density – the panels can be mounted directly on top of each other, with no need of intermediate guiding panels. They are available empty without connectors or equipped with Cat 6_A STP connectors.

2

Quick Fix function
The panels are equipped with a Quick Fix function for a fast installation.

The flat data panel contain a configuration for 24 RJ45 connectors with a clear marking at both front and rear. The panels are easy to install thanks to the front access and the Quick Fix function. Use the vertical side rings for vertical management of the patch cords. Other features are the removable cable manager at the rear, the panel identification label and the hinged central label holder.

Vertical side rings
Vertical side rings and connectors at an angle gives a true high density installation. The overhead patching frame saves space in the enclosure below.

Connectors at an angle
Connectors placed at an angle combined with front access simplifies installation work.

Clear front marking
Large identification labels for easy readability from ground level.

Cable management
The cable manager can be folded or removed. Hooks for cable ties for extra safety.

Actassi telecom panels

The smart and high capacity 19" telecom patch panel provides up to 50 connections. Very easy fixation of the panel thanks to the Quick Fix function with guiding fingers and pre-mounted screws. The label holders are easily opened without using any tool.

Exceptional robustness

The sliding function does not deteriorate the stability. As a proof you can use the punch down tool for LSA contacts with the panel in a sliding-out position. You don't need to remove it from the rack first!

Punch down tool
This is the punch down tool for LSA contacts, to be used for telecom cable connections.

Cable identification
No need trying to figure out which cable goes where. The cable identification is very clear on the clever fixing guides.

Safe and easy earthing
The panel has two earthing connection points for both shielded cables and for the rack, easily accessible at the rear.

Clear marking
The telecom panel comes with pre-printed labels and openable label holders.

Power panels and accessories

The Actassi system also includes a range of power panels and smart accessories for improved cable management. The power panels are available in several versions, for example with a protected light switch and overvoltage protection. The innovative patchcords guiding panel is equipped with four openable rings, managing up to 48 cords.

Power panel
With Quick Fix function and 3 m of power cord. Several versions, for example with protected circuit breaker/earth leakage.

Brush and blank panel
Brush guiding panel. Blank panel instead of an empty gap in the rack.

Guiding panels for patch cords
The 1U panel manages 24 cords, and 2U panel 48 cords. Easily opened but still safe, since a clever device prevents cords from falling out. Also possible to pull out only one cord if needed.

Side rings for rack 800x800
Rings for vertical management of up to 48 patch cords, attached to each side of the guiding panel (or any panel with Quick Fix). Available for 1U and 2U.

Vertical rings for rack 600x600
For the 600x600 racks, use the smaller tie up devices to keep your installations in neat order.

Empty sliding panel for S-One connectors 1U 24 ports

- Empty sliding 19" copper panel (without connectors)
- 1U height
- 24 RJ45 ports
- 1 Quick Fix function on both sides to allow a simple, quick fixing position and sliding feature
- Available in two versions:
 - evolution: panels equipped with 24 shutters in light grey, 4 label holders, and one cable manager at the rear
 - basic: panels without shutters, label holders, cable manager
- Metal sheet: thickness 1.2 mm. Dark grey RAL 7016
- Plastic parts in PA66 GF20 or PA6
- Simple clicking connectors for mounting
- Automatic earthing with the pre-equipped bus bar for FTP/STP versions.

Evolution version: pre-equipped with 24 light grey shutters, 4 label holders, 1 rear cable organizer

Description	Ref. No

 - evolution: panels equipped with 24 shutters in light grey, 4 label holders, and one cable manager at the rear
 - basic: panels without shutters, label holders, cable manager
- Metal sheet: thickness 1.2 mm. Dark grey RAL 7016
- Plastic parts in PA66 GF20 or PA6
- Simple clicking connectors for mounting
- Automatic earthing with the pre-equipped bus bar for FTP/STP versions.

Evolution version: pre-equipped with 24 RJ45 S-One connectors (not mounted) and 24 light grey shutters, 4 label holders, 1 rear cable organizer

Panels

S-One DPM

Empty sliding panel for S-One DPM connectors 1U 24 ports

- Empty sliding 19" copper panel (without connectors)
- 1U height
- 24 RJ45 ports
- 1 Quick Fix function on both sides to allow a simple, quick fixing position and sliding feature
- Panels equipped with 24 shutters in light grey, 4 label holders, and one cable manager at the rear
- Metal sheet: thickness 1.2 mm. Dark grey RAL 7016
- Plastic parts in PA66 GF20 or PA6
- Simple clicking connectors for mounting
- Automatic earthing with the pre-equipped bus bar.

Evolution version: pre-equipped with 24 light grey shutters, 4 label holders, 1 rear cable organizer

P111249

Empty panel for DPM connectors 1U FTP/STP 24 ports	VDIG111241F

P111250

Basic version: without label holders and cable organizer

Description	Ref. No
Empty panel for DPM connectors 1U FTP/STP 24 ports	VDIG011241F

Empty fixed panel for S-110 connectors 1U 24 ports (compatible with Cat 5e and Cat 6 not compatible for Cat 6_A)

- Empty fixed 19" copper panel (without connectors)
- 1U height
- 24 RJ45 ports
- 1 Quick Fix function on both sides to allow a simple, quick fixing position
- Panels equipped with 4 label holders and a metal tray cable manager
- Metal sheet: thickness 1.2 mm. Dark grey RAL 7016
- Plastic parts in PA66 GF20 or PA6
- Simple clicking connectors for mounting.

Evolution version: pre-equipped with 4 label holders and a metal tray cable manager

Description	Ref. No
Empty panel 1U for S-110 connectors keystone UTP 24 ports	VDIG113241U

Empty fixed panel with S-110 connectors, Cat 6_A STP, 1U 24 ports

- Category 6_A fully shielded keystone modular jacks
- Universal colour-coding for 568A and 568B standards
- Front labelling system
- Removable rear cable management bar is bundled with Velcro tapes
- Compatible with standard 19" equipment racks
- Fully compliant ISO/IEC 11801 Ed3.0 and ANSI/TIA/EIA-568-C series connecting hardware standards.

Description	Ref. No
Category 6_A Empty panel 10G Cat 6 _A , shielded 24-port patch panel*	ACTPPS24NSU
Empty panel 10G Cat 6 _A , shielded 24-port angled jack panel, unloaded**	ACTPPAS24NS

(*) ACTPPS24NSU can be used on Cat 6 shielded and Cat 5e FTP keystone jacks.
(**) ACTPPAS24NS can be used on Cat 6_A or Cat 6 shielded angled.

Panels

S-110

Equipped fixed panel for S-110 connectors, Cat 5e, 1U 24 ports UTP

- Aesthetic, contemporary design
- Powder coated metal framework
- Universal colour-coding for T568A and T568B wiring scheme
- Removable rear cable management tray
- Compatible with standard 19" equipment frames
- IDC termination using an Actassi or other compatible tools
- Fully compliant to AS/NZS 3080: 2003, ISO/IEC 11801 Ed3.0 and ANSI/TIA/EIA-568-C series connecting hardware standards.

Description	Ref. No
Telecom panel 50 ports	VDIG141501

Empty flat panel for S-One connectors in angle, 1U 24 ports

- 1U height
- 24 RJ45 ports
- Allows high-density copper ports installation. Connectors are positioned in angle to guide the patch-cords to the vertical sides of the enclosure. The installation of copper ports is maximised as there is no need to consume rack units to mount horizontal guiding panels
- Recommended mounting with vertical side ring for vertical management of the patch-cords (reference VDIM189412)
- 1 Quick Fix function on both sides to allow a simple, quick fixing position
- Equipped with a label holder and a cable manager at the rear
- The cable manager can rotate and be removed to ease the accessibility
- Metal sheet: thickness 1.2 mm. Dark grey RAL 7016
- Plastic parts in PA66 GF20 and PC
- Simple clicking the connectors for mounting
- Automatic earthing with pre-equipped bus bar.

Empty flat 19" copper panel for connectors in angle (delivered without connectors)

Description	Ref. No
Empty flat panel for connectors in angle 1U FTP/STP 24 ports	VDIG328241B

P133074

Equipped flat panel with S-One connectors in angle, Cat 6_A STP, 1U 24 ports

- 1U height
- 24 RJ45 ports
- Allows high-density copper ports installation. Connectors are positioned in angle to guide the patch-cords to the vertical sides of the enclosure. The installation of copper ports is maximised as there is no need to consume rack units to mount horizontal guiding panels

High density panel 48 ports 1U straight for S-110 RJ45

- Straight high density panel 1U 48 ports (without RJ45 jacks)
- Compatible with standard 19" equipment frames
- Compliant with standard 19" at 1U height
- Fully compliant to ISO/IEC 11801Ed 3.0 and ANSI/TIA/EIA-568-C series connecting hardware standards
- Compatible with unshielded Cat5e RJ45 S110 ACTASSI
- Compatible with unshielded Cat6 RJ45 S110 ACTASSI
- Compatible with specific Shielded Cat5e, Cat6 and Cat6A RJ45
- Earthing kit provided
- Simple clicking connectors for mounting
- Automatic earthing with the metallic RJ45 support for STP versions.
- Equipped with pre-printed labels
- Equipped with removable cable manager

Description	Ref. No
Patch Panel 48 ports 1U Straight unloaded	ACTPP48EMS

Cable management and accessories

S-One, S-One DPM and S-110

Patch cord guiding panels

- Patch cord guiding panel
- 1U, 2U
- 1 Quick Fix function on both sides to allow a simple, quick fixing position
- 4 openable rings
- Patch cord holder integrated inside the ring for opened position.

Description	Ref. No

Rack earthing kit, pack of 10 pcs	VDIM48E011

Cable management and accessories

S-One, S-One DPM and S-110

Metal blank panel

- 1 Quick Fix function on both sides to allow a simple, quick fixing position.

Description	Ref. No
Blank panel 1U	VDIG188021

Metal shelf

- 1 Quick Fix function on both sides to allow a simple, quick fixing position.

Description	Ref. No
Shelf 1U, depth 250 mm, for max weight 15 kg	VDIG188011

Metal management panel

- Cable management panel with metal fingers and metallic cover
- Metal base is powder coated to provide protection against scratches and rust
- A metallic cover provides security and aesthetics
- Available as a 1-rack unit (1U) item
- Available in graphite grey
- Compatible with standard 19" equipment racks.

Description	Ref. No
1U cable management panel	ACTRJ1UCMPM

Management panel

- Rack mount clips eliminate the need for cage nuts and screws
- Reinforced cable management rings can accommodate up to 50 patch cords
- Cavities behind each ring provide additional space for cable slack
- Additional depth on cable rings ensures compliance with minimum bend radius requirements
- Compliments Actassi patch panel styling.

Description	Ref. No
1U, Actassi deep cable management panel	ACTRJ1UCMPC

1U, Actassi shallow cable management panel	ACTRJ1UCMPSC

Consolidation box for RJ45 and optic fibers

- Consolidation box for 12 RJ45 (without RJ45 jacks)
- One reference per RJ45 footprint: S-ONE, S-ONE DPM and Keystone.
- Compatible for Shielded and Unshielded RJ45
- Compatible for Cat 5e, Cat 6 and Cat 6_A categories of RJ45
- Earthing kit provided
- Metal sheet: thickness 1.2 mm. Black color
- Plastic parts in PA66 GF20 or PA6
- Simple clicking connectors for mounting
- Automatic earthing with the pre-equipped bus bar for STP versions
- Size: height 22 mm, width 16 mm, length 36 mm
- Operational temperature range: -10°C to 60°C
- Delivered in carton box.

Description	Ref. No
For S-ONE RJ45	
Consolidation box 12 ports S-ONE STP unloaded	VDIM61212B
For S-ONE DPM RJ45	
Consolidation box 12 ports S-ONE DPM STP unloaded	VDIM61112B

110 System & Voice distribution

APAC

110 wallmount block - Category 5e

The 110 wiring block is an extremely popular way of terminating cables for cross connecting data and voice. It is used in either a rack or wall mounted situation. The base block is where the riser/horizontal cable is terminated and a 110 connector is then placed over the terminated pairs. This now allows access for jumper wires or 110 patch cords to cross connect. The wall mount is available with or without legs to allow room behind the block for cable entry and to stand off from the wall.

The blocks are available in 50, 100 and 300-pair with legs. Blocks without legs are available in 50 and 100-pair configurations. The 110 connectors are available in 4 and 5-pair sizes. The termination of cable on 110 wiring blocks is achieved with the use of 110 tools. Use either the single contact tool or the speedy 5-pair termination tool. Both tools have a cut-off mechanism. Both can be used on the wiring block bases (for cable termination) as well as the top of the IDC contact block (for jumpering). The 5-pair tool can only be used to terminate on the wiring block and not to terminate jumpers on the 110 connector.

Product features

- Popular 110 connector technology
- Available with or without legs for the block base
- Speedy 5-pair punch down block base saving installation time and cost
- Suitable for jumper wire or patch cords
- 4 and 5-pair 110 connectors available.

Customer benefits

- More cost-effective solution than RJ45 patching solutions
- Supports Category 5e performance
- Wire management available for jumpers and patch cords to prevent accidental disconnection
- Label holder and label for easy circuit identification
- 1,2 and 4-pair patch cords available for data, fax and voice applications.

Please add "A" for T568A wiring and "B" for T568B wiring at the back of the part number during ordering.

110 System & Voice distribution

APAC

110 wallmount block - Category 6

The Cat 6 110 wiring block is a popular way of terminating cables for cross connecting data and voice. It is used in either a rack or wall mounted situation. The base block is where the riser/horizontal cable is terminated and a 110 connector is then placed over the terminated pairs. This now allows access for jumper wires or 110 patch cords to cross connect.

The wall-mount blocks are available in 48, 96 and 288-pair with legs; rack mounted blocks is supplied with back panel (1U~3U) available in 96, 192 and 288-pair.

The 110 connectors is available in 4-pair size. The termination of cable on 110 wiring blocks is achieved with the use of speedy 4-pair termination tool. The 4-pair tool can only be used to terminate on the wiring block and not to terminate jumpers on the 110 connector.

Product features

- Popular 110 connector technology meets TIA/EIA 568B 2.1 Cat 6 connecting hardware standards
- Both available in wall-mount and rack-mount types
- Speedy 4-pair punch down block base saving installation time and cost.

Customer benefits

- More cost-effective solution than RJ45 patching solutions
- Supports Category 6 performance
- Wire management available for jumpers and patch cords to prevent accidental disconnection
- Label holder and label for easy circuit identification.

Actassi fibre optic cables

Part of a total solution

Actassi Fibre LAN cables are an important part of our total Network Connectivity solution that also includes panels, enclosures, connectors etc. All Network Connectivity products are specially designed to work perfectly together with complementary Schneider Electric products like trunking, poles, boxes and wiring devices in order to deliver true and seamless end-to-end connectivity.

The Fibre LAN offer covers needs for all kinds of LAN installations:
Campus (between buildings), Building backbones (between technical rooms) and Distribution (from technical rooms to workstations).

Actassi network connectivity

- 1 Enclosures
- 2 Panels for data, fibre optic and telecom
- 3 Fibre LAN backbone cables
- 4 Copper LAN and Fibre LAN distribution cables
- 5 Fibre LAN campus cables
- 6 Fibre data sockets in trunking
- 7 Fibre data sockets in posts
- 8 Fibre data sockets in floor boxes

A complete product portfolio for LAN installations

The Fibre LAN range offers a complete product portfolio for LAN installations. Providing the best support for high-speed data networks the fibre LAN range complements our Copper LAN offer. Optic cables, patchcords, connectors, tools and accessories are part of the Fibre LAN offer.

The Actassi 19" fibre optic panel is one of the most installation and user-friendly panels on the market. Quick-fix, sliding function, integrated guiding panel, excellent protection and clear marking, coiling wheels and much more.

Fibre optic technology offers several advantages

- Very high data rates
- Flexible, reliable networks
- Very low & constant attenuation
- Long distances (up to 40 km)
- No EMC rules
- No grounding issue
- Immune to crosstalks
- Safety in sensitive environments (no spark)
- Confidentiality
- No corrosion
- Simplified field testing
- High port density

Fibre optic performances

Actassi Fibre LAN is a reliable and robust solution for high-speed data networks. The range includes both OM1, OM2 and OM3, but also OM4, OM5 and OS2 following the latest standards.

Fibre LAN performances in brief

- Supports all kinds of network applications like 10 Gigabit/s Ethernet, Gigabit/s Ethernet, FastEthernet, Ethernet.
- Guarantees the compatibility with LAN active components.
- Compliant with international LAN optic transmission standards
- Available in multimode and single-mode, adapted to all LAN active equipments using LED, VCSEL and LASER technologies.

Two types of fibres: Multimode and Single-mode

Multimode (OM1, OM2, OM3, OM4, OM5)

- 4 ranges of multimode optic fibres performances: OM1 62.5/125, OM2 50/125, OM3 50/125, OM4 50/125 and OM5 50/125. Meeting the markets needs up to 10 Gigabit/s.
- OM4 50/125 performance. Meeting the markets needs for speeds beyond 40 Gigabit/s and 100 Gigabit/s.
- OM5 is a new type of multimode fiber supporting four wavelengths (850-950 nm), supporting Shortwave Wavelength Division Multiplexing (SWDM) applications with longer reach.
- High bandwidth. Optimized to increase the maximum optic link distance at both operating wavelengths (850 nm and 1300 nm).
- Low attenuation. Optimized to decrease the signal attenuation at both operating wavelengths (850 nm and 1300 nm).

Single-mode (OS1/OS2)

- Single-mode optic fibres performances: OS1/OS2 9/125. Meeting the markets needs for all single-mode applications.
- Low Water Peak and PMD. Optimized to decrease the signal attenuation between 1260 to 1625 nm allowing for multiplexing (modern optical transmission technologies like DWDM).

Full Spectrum Fibre

Supports all kinds of network applications

Applications	Wavelength	Multimode fibre					Singlemode fibre

Actassi fibre optic solutions

Network Connectivity solutions are key in your data centre to answer your environment constraints. Indeed you have to deal space optimization, MACs, high bandwidth requirements for your active and passive components, security, and CAPEX reduction. In that direction, from Standard Building to Data centre applications, Schneider Electric introduces complete Fibre Optic solutions to cover your needs at all levels.

Schneider Electric introduces complete Fibre Optic solutions to cover your needs at all levels.

Data centre environment evolution and key trends are driving the market

Cloud Computing trends with a significant increase of Big Data volume for the next years

- High bandwidth requirements for computing and core networking applications is growing steadily towards from 10 G to 40 and 100 Gbits
- Higher reliability and security needs: in data centre system downtime cannot be accepted and has to be 100 % under control not to happen

Consolidation, automatization, virtualization of data centres

- Effective optimization of data centre space
- Effective cable management: Slack management is very important as well as ease airflow to relieve congestion in pathways and spaces
- Capacity planning, Infrastructure management improvements
- Rapid moves, adds and changes (MACs) need to be facilitated

Externalisation with the increase of colocation data centres types

- CAPEX and OPEX reduction Energy

Actassi seamless end-to-end network connectivity

Actassi is a global and scalable network connectivity infrastructure solution for buildings and data centres. It's easy to install, easy to operate and is certified by a third-party independent laboratory at the highest Cat 6_A international standards.

Actassi Standard offer

A complete range of RJ45 connectors, 19" panels, cables and enclosures.

Actassi Specific Data Centre offer

19" flat high-density panels and an innovative overhead patching frame.

Actassi FL-MLink Pre-terminated solution

Pre-terminated fibre optical offer including panels, cassettes and links.

Actassi 19-HD Fibre Panel

One panel for 2 solutions, accepts pre-terminated cassettes and optional splice trays for fusion splicing.

Unicam

FL-C Fibre optic Unicam connectors

Specifications

- Unicam optic connectors suitable for quick and easy direct termination with tight buffered fibre optic cables inside optic patchpanels and/or at workstation:
 - less than 1 minute to connect a Unicam to a tight buffered fibre
 - does not require polishing unlike other no epoxy connectors. Controlled endface processing is part of the factory process
 - zirconia ceramic material ferrules
 - colored housings and boots to identify quickly performances of connectors:
 - OM1: beige housing / Beige boot, OM2: black or beige housing / Black boot, OM3/OM4: black housing / Aqua boot, OS2: blue housing / Blue boot
- The Unicam connector can best be described as a mini pigtail. It incorporates a factory installable fibre stub that is fully bonded into the ferrule. The other end of the fibre is precisely cleaved and placed into the patented alignment mechanism of our mechanical splice. Both the field fibre and fibre stub are fully protected from environmental factors.

Performances

- SC connectors compliant with TIA/EIA 604-3 and IEC 61754-4 Ed. 2
- LC connectors compliant with TIA/EIA 604-10A and IEC 61754-20 Ed. 2
- ST connectors compliant with TIA/EIA 604-2 and IEC 61754-2.

Camsplice

FL-C Fibre optic Camsplice solution

Specifications

■ Camsplice solution suitable for emergency restoration of the connection between 2 fibres (Multimode or Singlemode):

- less than 2 minutes to connect fibres through Camsplice connector
- completed splices fit into the Actassi optic cassette thanks to the fixation spreader for Camsplice
- does not require adhesive or epoxy
- minimal training and few accessories to assemble.

The Camsplice connector incorporates a unique fibre alignment mechanism that self-centers the fibres and provides accurate alignment.

Other Solutions

Fibre spreaders: Helps transforming a loose tube fibre structure at 250 µm into a tight buffer structure at 900 µm in case of connection needed

Specifications

- Capacity: 6 or 12 optical fibres in loose tube.
- For cable tubes with 2.4 mm and 3 mm diameters.
- 900 µm optical fibre sheath.
- Sheath length: 0.6 m.
- Fibre diameter accepted: 250 µm.

Cold cured and Heat cured

FL-C Fibre optic Cold cured and Heat cured connectors

- Cold cured optic connectors combining the quick-cure convenience of anaerobic adhesive with the performances of epoxy and polish connectors for installations inside optic patchpanels and/or at workstation
- requires less than 4 minutes to assemble and polish the connector
- does not require electrical power to install
- hand polish
- The anaerobic adhesive uses a two-part epoxy process. The adhesive is first injected into the connector ferrule. The fibre is dipped into the primer and inserted into the connector. Curing takes one minute without the use of lamp or oven. Then the fibre of the connector requires manual polishing through different grades of sand papers.
- Heat cured connectors can be used according to installations standards of cold cured connectors.

Cold cured connectors

- Connectors delivered with boots for 900 µm, 2 and 3 mm jacketed cables, crimp rings for 2 and 3 mm jacketed cables (and 1.6 mm for LC version)
- Color coding for easy identification of performances (both black and aqua boots for Multimode, blue boot for singlemode)
- Zirconia ceramic material ferrules.

Heat cured connectors

- Connectors delivered with boot for 900 µm cables (beige boot for Multimode, blue boot for singlemode)
- Zirconia ceramic material ferrules.

Performances

- SC connectors compliant with TIA/EIA 604-3 and IEC 61754-4 Ed. 2
- LC connectors compliant with TIA/EIA 604-10A and IEC 61754-20 Ed. 2
- ST connectors compliant with TIA/EIA 604-2 and IEC 61754-2.

Actassi fibre optic cables

Actassi Fibre LAN range is adapted to the familiar ways of installing optic connectors and pigtails (SC, LC, ST). The range is available under 2 different structures: tight buffered and Loose tube to be used for direct connector termination and for splicing respectively. Both structures are suitable for indoor and specific outdoor installations.

Loose tube

Tight buffered

1 Robust sheath

Tensile strength

Reinforces the tensile strength of the cable.

Robustness

High maximum pulling force and crush resistance of the cable during installation.

UV resistance

Resistance to UV degredation.

Colours

Distinct colours to identify strategic cables and prevent mistakenly cutting the cable.

2 Water swellable elements

Provide a protective barrier against longitudinally water ingresson while guaranteeing cable performance.

3 100 % glass yarns

Reinforcing the tensile strength of the cable. Acting as rodent retardant.

4 Innovative design

Innovative design of dual loose tube structure to help simplify the installation.

5 Gel

Provides a protective barrier against longitudinally water ingresson while guaranteeing cable performance.

Coating

6 250 µm coating

7 900 µm coating

8 Compact for improved bending radius

The compact design of the cables gives several benefits:

- Reduced bending radius: 10 x diameter (static) and 20 x diameter (dynamic)
- Reduced diameter and increased installation space.

Packaging

Packaging adapted to our customers requests (convenient small sized drums or cut to length).

Colour code

Fibre no.1 to no.12 according to the following colours.

1	Blue	
2	Orange	
3	Green	
4	Brown	
5	Grey	
6	White	
7	Red	
8	Black	
9	Yellow	
10	Violet	
11	Rose	
12	Aqua	

Fibre no.13 to no.24: idem + transparent

Environment-friendly

LSZH

LSZH (Low Smoke Zero Halogen) sheath according to test methods IEC 61034 (smoke density), IEC 60754-1 (gas toxicity), IEC 60754-2 (gas corrosiveness).

Flame retardant

Flame retardant (self extinguishing) according to IEC 60332-1.

Fire retardant

Fire retardant (no fire propagation along the cable) according to IEC 60332-3C.

RoHS and REACH

RoHS compliance according to UE directive.
REACH compliance.
PeP available for the range.

Cables

EMEAS

Range Loose tube

FL-C Loose tube Fibre optic cables

Specifications

- Compact and universal cables suitable for indoor and specific outdoor installations:
- low Smoke Zero Halogen (LSZH) green coloured external sheath
- UV resistant
- dielectric
- high tensile strength
- rodent retardant
- longitudinally watertight
- Loose tube gel-filled cable construction with 250 µm coating available in unitube structure for 4, 6, 8 and 12 fibres and bitube structure for 24 fibres
- Flame retardant according to IEC 60 332-1, EN 50 265 2.1, NF C 32 070 2.1 (Category C2),
- Euroclass D_{CA} s₂ d₂ a₂.

Performances

- OM3 50/125 compliant with ITU G.651, IEC 60793-2-10 Type A1a.2 and ISO/IEC 11801 Ed3.0 OM3
- OM4 50/125 compliant with IEC 60793-2-10 Type A1a.3, ISO/IEC 11801 Ed3.0 OM4
- OS1/OS2 9/125 compliant with ITU G.652.D, IEC 60793-2-50 Type B1.3, ISO/IEC 11801 Ed3.0 OS2
- Cable mechanical characteristics tested according to IEC 60794-1.

Use

- High data rate fibre optic backbones for building and campus
- Suitable for splicing termination: installation with pigtailed by fusion or mechanical splices.

APAC

Indoor building cables, LSZH

Indoor duct cables

The Actassi indoor building cable is designed to provide superior optical performance. These flexible, flame retardant cables are for use indoors. All cables use high quality single-mode or multi-mode fibres. Each fibre is coated to 900 microns with durable, protective material. buffers are colour-coded. The buffered fibres are surrounded by aramid yarns for strength, and are covered with Low Smoke Zero Halogen (LSZH) sheath to meet tough emission control.

Product features

- High quality and compact design
- Small diameter and bend radius
- Compliant with Bellcore GR-409-core and ANSI/TIA/EIA-568C, ISO/IEC 11801 standards.

Customer benefits

- Easy to terminate
- Easy installation in space constrained area.

Indoor building, xx-core, 50/125 µm multi-mode OM4, LSZH	ACTNDxxMM5XLS

Where **xx** denotes fibre counts (e.g. 02/04/06/08/12/16/24/48).

Cables

APAC

Indoor/outdoor LSZH duct cables

The Actassi indoor/outdoor LSZH cable is a Low Smoke Zero Halogen (LSZH) cable that provides excellent anti-flame performance. The need for splicing between indoor and outdoor cables can be eliminated. The tubes are surrounded by aramid yarns and are covered by a low smoke, flame-retardant jacket for protection. A direct outdoor to indoor transition can be completed with this single cable.

The indoor/outdoor LSZH cable passed the following tests:

- IEC 754 part 3, acidity/corrosively based on pH and conductivity measurements
- IEC 332 part 3, flammability and fire retardant
- NES 713, toxicity index
- IEC 1034, smoke emissions.

Product features

- Complies with ANSI/TIA/EIA-568-C, ISO/IEC11801 standards
- All dielectric self-supporting fibre
- Filled with water-resistant filling compound
- LSZH or PE rated.

Customer benefits

- Supports 100 Gigabit ethernet application
- Suitable for indoor/outdoor or inter/intra building backbones installation
- Water-blocking
- Excellent anti-flame performance.

Unitube non-armoured cables

Duct, Aerial cables

The Actassi unitube non-armoured cable is housed in a loose tube made of a high modulus plastic. The tube is filled with a water-resistant filling compound. Over the tube, water-blocking material is applied to keep the cable watertight. Two parallel steel wires are placed at the two sides of the cable. The cable is covered with a polyethylene (PE) sheath.

Product features

- Accurate fibre excess length
- High strength loose tube
- Two parallel steel wires
- PE sheath
- Small diameter, lightweight and hassle-free installation
- Long delivery length.

Customer benefits

- Accurate fibre excess length ensures good mechanical and temperature performance
- High strength loose tube is hydrolysis resistant and special tube filling compound ensures critical protection of fibre
- Two parallel steel wires ensure tensile strength
- PE sheath protects cable from ultraviolet radiation
- Flame retardant sheath protects cable from fire.

APAC

Unitube light-armoured cables

The Actassi Unitube light-armoured cable features a loose tube, made of a high modulus plastic. The tube is filled with a water-resistant filling compound and is longitudinally wrapped with a layer of Polyethylene Steel Polyethylene (PSP). Between the PSP and the loose tube, water-blocking material is applied to keep the cable compact and watertight. Two parallel steel wires are placed at the two sides of the steel tape. The cable is covered with a polyethylene (PE) sheath.

Product features

- Accurate fibre excess length
- High strength loose tube
- Specially designed compact structure and PE sheath
- Crush resistant and flexible
- PSP enhances the cable’s crush-resistance, impact-resistance and moisture-proofing
- Two parallel steel wires ensure tensile strength
- Small diameter, lightweight and hassle-free installation
- Long delivery length

Customer benefits

- Accurate fibre excess length ensures good mechanical and temperature performance.
- High strength loose tube is hydrolysis resistant and special tube filling compound ensures critical protection of fibre.
- Specially designed compact structure prevents loose tubes from shrinking.
- PE sheath protects cable from ultra-violet radiation.
- Flame-retardant sheath protects cable from fire.

Cables

APAC

Stranded loose tube light-armoured

The Actassi Stranded loose tube light-armoured cable is housed in a loose tube made of a high modulus plastic. The tubes are filled with a water-resistant filling compound. A steel wire, sheathed with polyethylene (PE) is used for cables with high fibre counts and is located in the core centre to act as a metallic strength member. Tubes and fillers are stranded around the strength member into a compact and circular cable core. Polyethylene Steel Polyethylene (PSP) is longitudinally applied over the cable core, and the core is then filled with a filling compound to protect it from water ingress. The cable is covered with a PE sheath.

Product features

- Accurate fibre excess length
- High strength loose tube
- Specially designed compact structure
- Crush resistant and flexible
- Tight water-resistant measures - steel wire used as central strength member, loose tube filling compound, 100 % cable core filling, PSP enhancing moisture-proofing and water-blocking material.

Customer benefits

- Accurate fibre excess length ensures good mechanical and temperature performance
- High strength loose tube is hydrolysis resistant and special tube filling compound ensures critical protection of fibre
- Specially designed compact structure prevents loose tubes from shrinking.

Cables

APAC

Stranded loose tube armoured cables

The Actassi Stranded loose tube Armoured cable (with moisture barrier) is housed in a loose tube made of a high modulus plastic. The tubes are filled with a water-resistant filling compound. A steel wire, sheathed with polyethylene (PE) is used for cables with high fibre counts and is located in the core centre to act as a metallic strength member.

Tubes and fillers are stranded around the strength member into a compact and circular cable core. An Aluminium Polyethylene Laminate (APL) is applied around the cable core, which is then filled with filling compound to protect it from water-ingress. The cable core is covered with a thin PE inner sheath. After the Polyethylene Steel Polyethylene (PSP) is longitudinally applied over the inner sheath, the cable is covered with a PE outer sheath.

Product features

- Accurate fibre excess length
- High strength loose tube
- Specially designed compact structure
- Crush resistant and flexible
- Tight water-resistant measures - steel wire used as central strength member, loose tube filling compound, 100 % cable core filling, APL moisture barrier, PSP enhanced moisture-proofing and water-blocking material.

Customer benefits

- Accurate fibre excess length ensures good mechanical and temperature performance
- High strength loose tube is hydrolysis resistant and special tube filling compound ensures critical protection of fibre
- Specially designed compact structure prevents loose tubes from shrinking.

Actassi FL-MLink Pre-terminated solution

EMEAS

3

Answering to your quick deployment and high reliability need

Actassi Pre-terminated solution is a new Schneider Electric solution for data centres and IT room applications, covering the following requirements:

100 %

pre-assembled and pre-tested in factory.

Plug & play fibre optic solution.

High density and performance for data centres

- Up to 96 ports in 1U, up to 576 fibres
- MTP connector: MPO technical evolution which guarantees better robustness
- OM3, OM4, OS2, Bend Insensitive, Indoor/Outdoor
- Fan out splitter protections
- Ready to support 10 G, 40 G and 100 G performances
- Fully compliant to following international standards

High security for your network

- Complete plug & play systems
- Pre-equipped cassettes, panels, standard and cassettes all types of links
- Expertise: factory 100 % pre-assembled and 100 % pre-tested
- On demand length to adjust to end user needs

Time secured for installation on site

- Delivery secured
- x3 faster installation compared to standard optic offer: save connection time on site, only deploy links and then reduce human intervention on site

Scalable and adaptable

- Pay as you grow
- Make your data centre evolve according to your needs
- Extensions possible thanks to on demand links

Energy efficient thanks to "Green environment"

- Fibre use
- Reduce up to 90 % of waste on site

Panel for cassette

- Empty sliding panel 1U, 19"
- Depth 257 mm
- Unit packaging
- Painting Epoxy RAL 9005 - Black color
- Provided with 2 cage nuts M6 compatible with perforations 8.5 x 8.5 mm and 9.5 x 9.5 mm.

Overhead support for cassette

- Fixing under cable tray / mesh tray
- Passive optic network easy to relocate, bring flexibility in data centre
- Compliant with all cassettes VDILC*
- Unit packaging
- Painting Epoxy RAL 9005 - Black color
- Provided with 2 fixation screws.

Sealing plate

- Metallic face plate 1U and 1/2U
- Easy mounting on panels
- Obturation for cassette (1U) or half size (1/2U)
- Unit packaging
- Painting Epoxy RAL 9005 - Black color
- Provided with 2 screws with unloosable screws.

MTP adapters

- 1U support equipped with MTP adapters
- Use for connectors MTP 12 and 24 fibres
- Mounted on cassettes and overhead patch support for cassettes
- Each adapter is equipped with cap.

MTP adapters cont.

- Color code with adapters:
 - OM3: aqua, OM4: magenta, OS2: green
- Unit packaging
- Painting Epoxy RAL 9005 - Black color
- Provided with 2 fixation screws.

MTP Helper

- White plastic helper for protecting and holding the MTP connector
- Applied force ≤50N
- Reusable
- Applicable for all MTP trunk cables and MTP fanout in our offer

Cleaning tools

- Optic connectors have to be cleaned before any use for connections in order to ensure the best optic performance.
- Cleaning tools mandatory for SC, LC ou MTP connectors
- Cleaning in 1 action, Clean all type of residual
- More than 500 cleaning use for 1 single cleaning tool
- Adaptation for adapters
- RoHS compliant
- Unit packaging.

Demo kit

- Aluminium pack
- Pack equipped with:
 - 1 optic panel equipped 96 LCq / 4*24 MTP
 - 1 cassette 6*24 MTP pre-terminated 6*24 MTP - 2 meters
 - 1 link 24 LC preterminated 1*24 MTP - 2 meters
 - 1 tool MTP
- Dimensions: 550 x 430 x 195 mm
- Unit packaging.

Optic panels pre-connectorized SC/LC/LCq to MTP

Specifications

- Metallic panels equipped with optic connectors pre-connectorized in factory
- 48 ports (SC or LC) and 96 ports (LCq) in 1U
- Depth 270 mm
- Pre-Tested panels in factory. Traceability per serial number
- Closed panels and equipped panels with immunity labels
- Color code with SC/LC/LCq adapters:
 - OM3: aqua
 - OM4: magenta
 - OS2: bleu
- MTP at the rear with 12 or 24 ports
- Color code MTP adapters:
 - OM3: aqua
 - OM4: magenta
 - OS2: vert
- Optic Standards: ANSI/TIA-568-C.0-2-2012
- Unit packaging
- Epoxy RAL 9005 - Black color
- Provided with 2 cage nuts M6 compatible with perforations 8.5 x 8.5 mm and 9.5 x 9.5 mm
- Transparent SC connector to ease testing
- Male MTP connector by default, female MTP connector is also available upon request
- Low loss connector is available upon request.

Performances

- Optic Standards: ANSI/TIA-568-C.0-2-2012
- OM3, OM4, OS2.

Actassi FL-MLink Pre-terminated solution

APAC

Answering to your quick deployment and high reliability needs

Schneider Electric FL-MLink system is a pre-terminated optical fibre cabling system specifically designed to satisfy the increasing demand for high bandwidth and high density in data center network, enterprise building applications.

Factory-terminated solutions provide improved system performance; ensure component compatibility and consistent quality. The FL-MLink (MTP Brand) System significantly reduces installation time and cost by simplifying the process of deploying an optical network in the limited space environment, particularly in data center applications.

100 %

pre-assembled and pre-tested in factory.

High density and performance for data centres

- > Up to 18 ports in 1U, up to 432 fibres
- > **MTP connector: FL-MLink technical evolution which guarantees better robustness**
- > **OM3, OM4, OS2, Bend Insensitive, Indoor/Outdoor**
- > Fan out splitter protections
- > **10 G ready. Ready to support future 40 G performances thanks to chosen polarity**
- > **Fully compliant to following international standards**

Plug & play fibre optic solution.

High security for your network

- > Complete plug & play systems
- > Pre-equipped cassettes, panels, standard and cassettes all types of links
- > Expertise: factory 100 % pre-assembled and 100 % pre-tested
- > On demand length to adjust to end user needs

- > Reduce up to 90 % of waste on site

Pre-terminated solution

APAC

19-HD fibre panel

Schneider Electric offers an innovative, robust 1U enclosure with sliding mechanism for 3 FL-MLink (MTP Brand) cassettes and 4U enclosure for 12 FL-MLink (MTP Brand) cassettes. It offers a flexible solution to customers, enabling them to incorporate a multi-functional enclosure which allow easy access during installation or maintenance, with no disturbance of existing cables. This 19-HD fibre panel can fit MTP cassettes as pre-terminated solution or standard fibre adaptor plate for field-termination application.

To answer a higher density need, 19-HD+ fibre panel is also available, which can fit 4 HD+ MTP cassettes, supporting max. 96F MTP-LC pre-terminated solution.

Product features

- Fits 19" standard rack or cabinet
- Accommodate to all available FL-MLink (MTP Brand) cassettes
- 19-HD fibre panel also accommodate standard fibre adaptor plates (refer to page 165)
- Adjustable wiring ring for cable management
- Flexigrass front door with magnetic suction
- Cable gland with "U" rubber seal
- Compliant with EIA-310-D.

Customer benefits

- Support indoor applications for data centre, premise installations, telecommunication networks
- Easy to manage cable assemblies or fan-out cables
- Flexible to manage incoming trunk cables or cable assemblies.

G13B4506

Description	Ref. No

19-HD+ fibre panel, 1U, fits 4 MTP cassettes, unloaded	ACTMP1UH
19-HD fibre panel, 4U, fits 12 MTP cassettes, unloaded	ACTMP4U*

(*) Also accommodate standard fibre adaptor plates.

Pre-terminated solution

APAC

MTP cassette

Schneider Electric FL-MLink (MTP brand) fibre cassette / adaptor plate is a repair and flexible plug and play cable management solution to improve cabling manageability.

Each fibre cassette is pre-installed with factory terminated and tested to assure quality on optical loss performance. The fibre cassette / adaptor plate is flexible to be integrated into 1U/4U 19-HD fibre panel and 19-HD+ fibre panel, which support rapid deployment and reliable cable management of high density data centre infrastructure.

Product features

- MTP (US Conec) brand MPO in standard compliant multi fibre connector
- Standard MTP cassettes and HD+ MTP cassettes for different density need
- Duplex LC adaptors faceplate
- OS2, OM3 and OM4 fibre available
- Factory terminated and tested
- Options of polarity (straight through, reversed, pair flip)
- Compliant with TIA/EIA-568-C.3, ISO/IEC 11801
- Low loss connector by default.

Customer benefits

- Simple installation and reconfiguration for Moves, Adds and Changes (MACs)
- High density easy-plug cassette (12-fibre per cassette as standard)
- Reduces labour cost and saves times on installation and testing
- Offer high precision and robust connectivity
- Superior performance with low insertion loss (≤ 0.5 dB).

- Where **x** denotes fiber Performance (S = OS2, T = OM3, G = OM4).
- **zz** denotes polarity (S: Straight through, F: pair Flipped, R: Reversed, RF: Reversed, pair Flipped).

Pre-terminated solution

APAC Trunk cables

IMC_9616

ACTMTMMT12LS055R

Schneider FL-MLink (MTP brand) trunk cables providing an effective way to install a large amount of cables quickly. It is especially suitable for the areas that require high density, rapid deployment and high performance such as Data Centre.

These high performance factory terminated and tested assemblies are pre-terminated 12-fibre or 24-fibre MTP connectors and offered in customer specific lengths. Normal fibre count is 12 or 24 (higher core counts up to 144 fibres are available upon special request) and fibre types OS2, OM3, OM4 are available for each installation need.

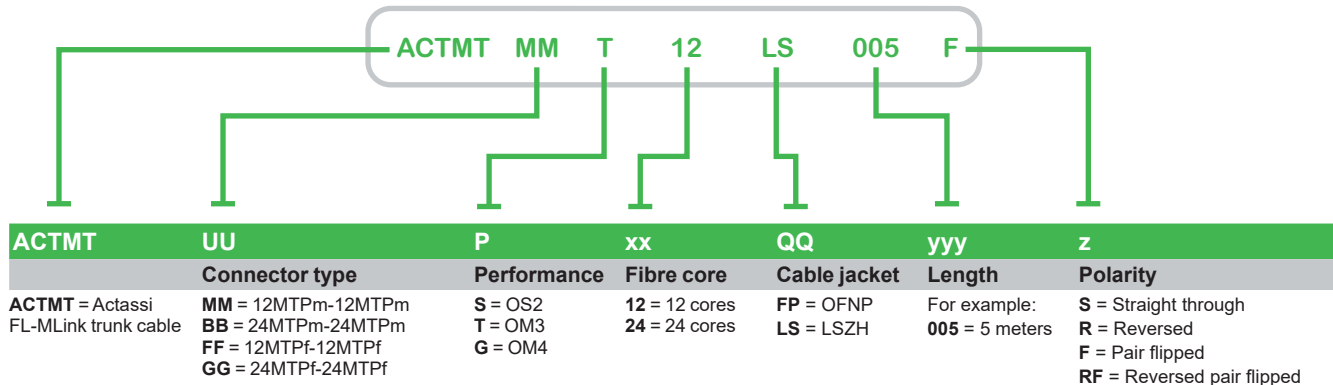

Product features

- Compliant TIA/EIA-568-C3, ISO/IEC 11801, TIA/EIA-604-5
- 100 % factory terminated and tested
- LSZH trunk cable are doubled jacket, best suitable for backbone installation
- Low loss connector by default
- Options of polarity (straight through, reversed, pair flipped)
- Provide pulling eye at one end of the cable
- Label on the trunk cable for traceability.

Customer benefits

- 10G, 40G, 100G ready a reliable high density, high performance optic interconnections
- Quick and easy connection with MTP mechanism
- Low insertion loss and reflectance for cable
- No cable preparation is necessary
- Reduced on-site disruption and installation time
- Pulling eye design to fit for different installation environment
- Cost effective optic cabling solution
- Superior connector with low insertion loss (MTP connector ≤ 0.35 dB).

Principle of reference numbers

Note: MTPm = male MTP connector, MTPf = female MTP connector.

e.g.:

- ACTMTMMT12LS005F = Actassi FL-MLink trunk cable, 12MTPm-12MTPm, OM3, 12-core, LSZH, 5 m, Polarity Pair-flipped
- ACTMTMMS24LS010R = Actassi FL-MLink trunk cable, 2x12MTPm-2x12MTPm, OS2, 24-core, LSZH, 10 m, Polarity Reversed
- ACTMTBBT24FP050S = Actassi FL-MLink trunk cable, 24MTPm-24MTPm, OM3, 24-core, OFNP, 50 m, Polarity Straight Through.

MTP-LC 12F Harness

ACTMHMLT20185F

Schneider Electric FL-MLink (MTP Brand) ruggedized harness fan-out assembly is ideal for short internal interconnection. They are used to directly interconnect MTP cassettes, panels or backbone. MTP assemblies with the active equipment, saving costly data centre rack space and easing fibre management.

MTP-MTP and MTP-LC harness / fan-out assemblies are offered in fibre count 12 or 24 fibres (higher fibre counts up to 144 are also available upon special requests) using a compact and suggested micro cable structure. The compact cables optimize pathway use and improve airflow.

Product features

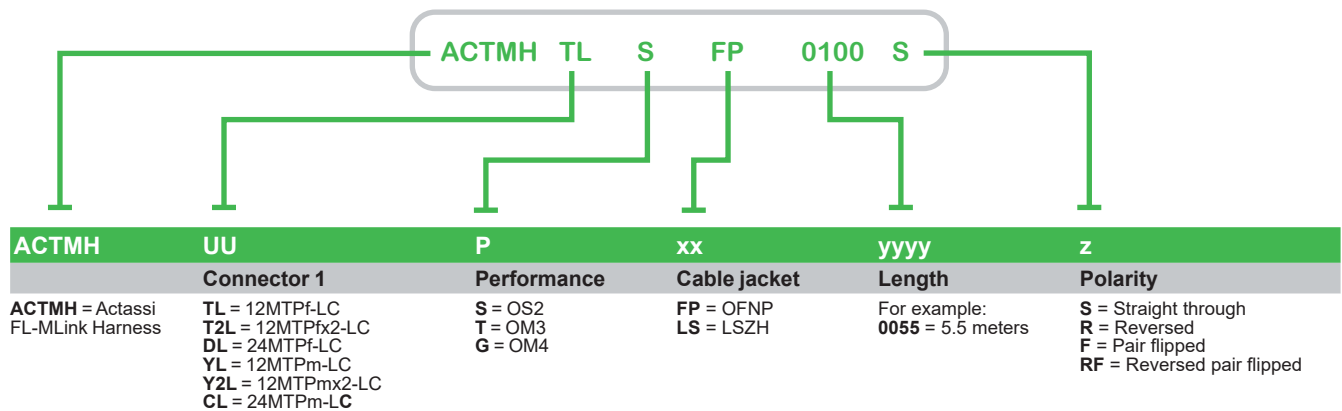

- Compliant to TIA/EIA-568-C.3, ISO/IEC 11801, TIA/EIA-604-5 & IEC 61754-7
- Standard fibre offer: OS2, OM3, OM4
- LSZH, OFNP cable jacket
- 100 % factory terminated and tested
- Low loss connector by default
- "W", "YW", "Y" cables are available supporting 40G/100G application
- Options of polarity (straight through, reversed, pair flipped)
- Label on the harness cable for traceability.

Customer benefits

- Multiple fibres angles and flammability options
- Application specific design 12 up to 144 fibres
- Can be secured to cabinet mounting profile for saving space
- Compact cable
- Reduced interconnection topology improves power budget
- High reliability due to 100 % factory terminated and tested
- Superior performance with low insertion loss (MTP connector ≤ 0.35 dB, LC connector ≤ 0.15 dB).

Principle of reference numbers: MTP-LC Harness

Note: MTPf = female MTP connector.

e.g.:

- ACTMHHTLSFP0100S = Actassi FL-MLink harness cable, 12MTPf-LC, OS2, OFNP, 10 meters, polarity Straight through
- ACTMH2TLGLS0300R = Actassi FL-MLink harness cable, 24MTPf-LC, OM4, LSZH, 30 meters, polarity Reversed.

Principle of reference numbers: MTP-MTP Harness

Note: MTPm = male MTP connector, MTPf = female MTP connector.

e.g.:

- ACTMHHTLS0050S = Actassi FL-MLink harness cable, 12MTPf-12MTPf, OS2, LSZH, 5 meters, polarity Straight through
- ACTMHHTMTLS0100R = Actassi FL-MLink harness cable, 12MTPf-12MTPm, OM3, LSZH, 10 meters, polarity Reversed.

Pre-terminated solution

APAC

Harness and fan-out cables (cont.)

IMG_0187-40.eps

Schneider Electric FL-MLink (MTP Brand) ruggedized harness fan-out assembly is ideal for short internal interconnection. They are used to directly interconnect MTP cassettes, panels or backbone. MTP assemblies with the active equipment, saving costly data centre rack space and easing fibre management.

LC-LC harness / fan-out assemblies are offered in fibre count 12 to 144 fibres using a compact and suggested micro cable structure. The compact cables optimize pathway use and improve airflow.

Fibre count higher than 24 fibres are with staggered design (50mm separator for each 12F) for easy management, identification and different distance connections.

Product features

- Compliant to TIA/EIA-568-C.3, ISO/IEC 11801, TIA/EIA-604-5 & IEC 61754-7
- Standard fibre offer: OS2, OM3, OM4
- LSZH cable jacket by default
- 100 % factory terminated and tested
- Label on the harness cable for traceability.

Customer benefits

- Multiple fibres angles and flammability options
- Application specific design 12 up to 144 fibres
- Staggered design for easy cable management
- Can be secured to cabinet mounting profile for saving space
- Compact cable
- Reduced interconnection topology improves power budget
- High reliability due to 100 % factory terminated and tested.

Principle of reference numbers: LC-LC Harness

ACTMH	UU	P	xx	QQ	yyyy	O
	Connector type	Performance	Fibre core	Cable jacket	Length	Optional
ACTMH = Actassi FL-MLink Harness	LL = LC-LC	S = OS2 T = OM3 G = OM4	12 = 12 cores 24 = 24 cores 36 = 36 cores 48 = 48 cores 72 = 72 cores 96 = 96 cores 144 = 144 cores	LS = LSZH	For example: 0055 = 5.5 meters	Normal (n/a)

e.g.:

- ACTMHLLS12LS0050 = Actassi FL-MLink harness cable, LC-LC, 12 cores, OS2, LSZH, 5 meters
- ACTMHLLT144LS0100 = Actassi FL-MLink harness cable, LC-LC, 144 cores, OM3, LSZH, 10 meters.

Actassi fibre optic HD LC patch cords

Actassi fibre optic HD LC patch cords ensure a reliable transmission in data networks. It is terminated with uniboot LC connectors at both ends, from multimode (OM3, OM4) to single-mode OS2 performances, come with a special latch that can push & pull out easily in high density environment. The patchcord is tool-less polarity changeable from A-B to A-A.

All fibre optic patch cords are compliant with IEC 11801 Ed3.0 and provide safe plug & play with a high quality thanks to the performances, the LSFRZH sheath (LSZH with fire retardant properties) and the warranties.

Patch cords

HD LC fibre patch cords

The HD LC fibre patch cords are 2 mm mini cordage with uniboot LC connectors terminated on each end. These patch cords are available in duplex, multi-mode and single-mode configurations.

Product features

- Meets ANSI/TIA/EIA 568-C.3 and ISO/IEC 11801 standards
- Patch cords are available in single-mode and multi-mode configurations with different length options
- Cords are easy-to-install and environmentally stable
- Low Smoke Zero Halogen (LSZH) sheath compliant to IEC 60332-3C
- Insertion loss: ≤ 0.2 dB.

Customer benefits

- Supports LAN, WAN and active device termination
- Provides a reliable and durable connection solution
- Easy patching push & pull in high density environment
- Bending insensitive OM3 & OM4 fibres
- Tool-less polarity changeable
- All cords are factory terminated and tested.

Actassi 19-C fibre panels

A simple all-in-one concept, pre-equipped with for example Quick Fix function, coiling wheels and cable glands. It has a capacity of 24 fibres and has transparent lids for protection and a clear visibility of the inside. Can hold up to 4 cover plates, and since it is delivered with 3 blank plates, the choice is open for the fourth to be used according to your needs. The cover plates are available in empty and pre-equipped versions with adapters.

To match your fibre optic panel we have developed a range of pre-equipped cover plates. It's a time-saving, safer and smarter way to work with your installations.

Coiling wheels

The panel contains wheels to keep the fibres in place and to avoid tension on the connectors. This will also give a correct bending radius and more space for excess lengths of the fibres.

Excellent protection

The transparent covers give both protection and overview. The front covers can be opened for quick access and the top cover is easily removed.

Clear marking

Since the marking is very clear, identifying the cable you are looking for will never be a problem.

Integrated guiding panel

A patchcord guiding panel, with smoothly shaped edges to protect the cords, is integrated in the panel. So there is no need to add a separate guiding panel that would take another 1U space.

Rear quick fixation

A quick-fixation system is provided for the cables at the rear. Use the provided 16 mm glands for cables. If a 21 mm gland (not provided) is needed, just remove the rear plastic support and fix the gland directly in the cable entry. Quick and easy!

Sliding function

The panel can be slid or completely removed for a more convenient working position.

P111266

Evolution universal sliding fibre optic panel 1U

- Universal sliding 19" fibre optic panel with 4 positions, equipped with 3 blank plates. The 1st position is empty and is to be fitted with suitable coverplate
- 1 Quick Fix function on both sides to allow a simple, quick fixing position and sliding feature
- Removable transparent cover mounted
- Fibre patchcord guiding structure at the front, protected by cover equipped with label holders
- Maximum density of 48 fibres for 1U (LC rectangular version).

Evolution panel for direct terminations

- Equipped with 2 coiling wheels and 2 PG9 (Ø 7 mm max.) cable glands.

Actassi 19-C Basic fibre panels

This is a cost-effective basic fibre optic panel solution to cater indoor field termination applications. It provides a good inter-connection or cross-connection for fibre backbone installation and LAN network of medium/small building.

The enclosure is mountable in 1U 19" equipment racks or cabinets.

This 1U height panel has two unloaded configurations, in which it accommodates with modular LC duplex adapters (max. 24 pcs or 48-fibre) or modular SC duplex adapters (max. 12 pcs or 24-fibre).

The panel consists of two major components: removal top cover lip and sliding drawer. In which, it is to provide protection against dust and humidity. Built-in PG9 cable gland and rubber-seal cable entries are aimed to cater for flexible cable management.

SC Basic fibre panel

P148753-20.eps

Basic fibre panel 1U

Actassi 1U 19" fibre optic empty panel with LC/SC duplex adapter ports. It provides all basic but specific features to facilitate easy installation and maintenance. A cost-effective fibre optic panel selection for small/medium building installations.

Product features

- 1U metallic powder coated panel in dark grey (RAL 7016)
- Recess design plus removal top cover lip and simple sliding drawer
- Equipped with PG9 (0.7 mm max.) cable gland plus cable entries and fixtures
- Pre-installed plastic covers for protection (partially)
- Compatible with existing fusion splice tray kits (ACTFMSPTKIT)
- Panel dimension and construction comply with EIA/ECA-310-D, IEC 60297.

Customer benefits

- Scalable panel capacity and rack space optimization up to 48-fiber (LC rectangular version)
- Simple sliding function, removable drawer for ease installation/maintenance.
- Fully compatible with optional fusion splice tray kit (24-fibre), modular single-mode or multi-mode LC/SC adaptors
- Quick fixation of incoming fibre cable(s) with provisional PG9 cable gland and fixtures
- Smooth management of bend radius of patch cords by recess panel design
- Fully compatible with 19" open rack & cabinet.

Actassi 19-HD fibre panels

3

Answering to your high density needs

Actassi 19-HD fibre panel is a superior and compact fibre termination solution for High productivity building and small data centre applications, covering the following requirements:

High density field termination solution

- Accepts 3 adaptor plates, up to 72 ports in 1U
- Accepts 12 adaptor plates, up to 288 ports in 4U
- Space optimization, 50 % more than standard fibre panel

Safety and Protection

- Transparent front cover (with magnetic suction mechanism) provides instant visibility of the connection status also provides perfect protection against dust and humidity
- Radiation safety label is available in the front cover

Scalable and flexible

- Pay as you grow
- Optional snap-in adaptor plates and blank plate
- Fusion splicing is possible with optional splice tray kit sets
- Built-in (adjustable in 1U panel) wiring rings, rubber-seal cable entries are aimed to cater easy cable management
- Single-mode and Multi-mode adaptors are available with color differentiation

Energy efficient thanks to "Green environment"

- Fibre use
- Reduce up to 90 % of waste on site

The Actassi 19-HD fibre panel is a superior and compact fibre termination solution. It is mountable in 19" equipment racks or cabinets. The 1U panel accepts maximum 3 adaptor plates with maximum 72 fibres count while 4U panel can accept maximum 12 adaptor plates with maximum capacity of 288 fibres. Built-in (adjustable in 1U panel) wiring rings, rubber-seal cable entries are aimed to cater easy cable management. Transparent front cover (with magnetic suction mechanism) provides instant visibility of the connection status, also provides perfect protection against dust and humidity. Design with multiple applications in mind, the Actassi 19-HD fibre panel can accommodate different types of modular adaptor panel plates and splice trays (optional) to give outstanding performance and functionality.

1U Panel: 400 x 482 x 44 mm

- Compatible with 19" open rack / cabinets (depth > 500 mm)
- 1U panel drawer with sliding rails and stopper lock mechanism
- Optional snap-in adaptor plates / blank plates (max. 3)
- Built-in adjustable cable management rings and cable entries
- Maximum density of 72 fibres (LC version).

P146840

Description	Ref. No
HD fibre panel, 1U, fits up to 3 adaptor plates, Unloaded	ACTMP1U

4U panel: 400 x 482 x 175 mm

- Compatible with 19" open rack / cabinets (depth > 500 mm)
- With removal top cover lip
- Optional snap-in adaptor plates / blank plates (max. 12)
- Built-in cable management rings and cable entries
- Maximum density of 288 fibres (LC version).

P146841

Description	Ref. No
HD fibre panel, 4U, fits up to 12 adaptor plates, Unloaded	ACTMP4U

Plates

- Blank plates and adapter plates to be fixed on Actassi 19-HD fibre panel ref ACTMP1U and ACTMP4U
- Quick fixation by push-pull rivets
- Zirconia ceramic material ferrules for higher performance.

Coverplates with adapters

Adaptors EMEAS

Adaptors

- Fibre optic adaptors suitable to connect and align optic connectors (for both applications: optic patchpanels in technical rooms and faceplates at workstation)
- both multimode and singlemode versions
- identification of multimode adaptors with beige color
- identification of singlemode adaptors with blue color
- available in SC, SC APC, ST, LC and MPO formats
- zirconia ceramic material ferrules
- snap-in latch.

The Actassi fibre optic connectors and adaptors are superior products delivering the best networking performance when used in conjunction with other Actassi fibre optic products.

Specifications

- Fibre optic adaptors suitable to connect and align optic connectors (for both applications: optic patchpanels in telecom/equipment rooms and faceplates at workstation)
- both multimode and singlemode versions
- identification of multimode adapters with beige color
- identification of singlemode adapters with blue color
- available in SC, ST, LC and MTRJ formats
- zirconia ceramic material ferrules
- snap-in latch.

Performances

- SC connectors compliant with TIA/EIA 604-3 and IEC 61754-4 Ed.2
- LC connectors compliant with TIA/EIA 604-10A and IEC 61754-20 Ed.2
- ST connectors compliant with TIA/EIA 604-2 and IEC 61754-2
- MTRJ connectors compliant with TIA/EIA 604-12 and IEC 61754-18.

Actassi Enclosures

With the Actassi system you can create a seamless end-to-end network connectivity solution for all needs. There are different conditions and demands on the installations in buildings, data centers and small offices. That is why Actassi includes all possible sizes of wall-mounted and floor-standing enclosures, from 6 to 47 units in different widths, depths, colors and compositions. You can always find an Actassi enclosure that gives a perfect result.

Do you want to have other enclosures than standard? No problem. With Actassi enclosures it's possible to customize color, accessories, specific lining etc. according to your personal needs.

The Digital Rule helps you select products

Hard to select the Actassi enclosures, RJ45 connectors, patch panels and cables? Visit se.com and try our Digital Rule. It's an intelligent online e-catalog which will facilitate your choices and helps ensuring an error-free specification.

The Actassi system – Network Connectivity

Actassi is Schneider Electric's new global state-of-the-art range for networking and connectivity infrastructure solutions for buildings. It consists of the best performing features from local Schneider Electric brands such as LexCom, Infraplus, Clipsal Datacomms, Sarel and Himel. From RJ45 connectors to network enclosures, the Actassi system offers every installer around the world the best of the best solutions.

Actassi wall-mounted enclosures

The Actassi wall-mounted OPB OpenBox enclosures allow you to easily integrate patch panels, cables, switches and digital recorders. All the lining can be removed without tools, and with the swing-rack version of OPB, with a quick-locking system, you'll get access to the connections from the back to handle the maintenance in a convenient way. Too hot in the enclosure? No problem, it's easy to integrate a blanking plate with two fans. With Actassi KDB, the new flat-pack knock-down boxes, you save 60% of space in the stock. And it takes only 5 minutes to assemble.

Actassi wall-mounted

Maximised capacity and swift maintenance with Actassi OPB

Time for adjustments? Just open the sides and fold out the swing rack. Replace and add whatever parts you need, no tools are necessary. Fold back the rack, close the sides and you are done. To increase the flexibility of the entire installation, use the Actassi OPB as a distributed solution.

The Actassi OPB serves perfectly as a distributed solution. In a hospital for instance, the need for quick, reliable and easily expandable network connectivity can be crucial.

Actassi OPB – open for installation

The Actassi OPB is wide open for a swift and struggle-free installation. Steady as a rock, even with the side panels and the door dismantled.

The swing rack makes all the difference

When making the first installation, as well as continuous upgrades, you will find that the swing rack makes all the difference for you as an installer. Access from all sides, pre-cut cable entries and minimum usage of tools are some of the other features that make the OPB truly open for installation and maintenance.

P131659

Side panels are easily removed without tools.

Easy to install using fixing points.

Pre-cut cable entry from both top and bottom.

Door easily mounted and removed without tools.

Both sides are openable.

Securit® safety glass door.

Key lock

Side panel is opened and locked from the inside.

Quick-lock, 1/4-turn nuts.

Swing rack for easy installation and maintenance.

Gradual 25 mm depth adjustment.

OPB

19" Wall-Mounted Open Box

Ergonomic and Adaptable

Actassi OPB is assembled at delivery, ready to use

Side panels, swing rack and door can be opened and removed without tools. Quick and easy.

50 kg

The body allows mounting of components up to 50 kg.

Easy to install
The Actassi OPB enclosure can be wall-mounted by a single person using the fixing points intended for the passage of holding screw heads into the wall.

Ergonomics
The side panels swing through 120° and can be easily removed without tools. Rear access is easy. Door easily removable without tools.

Easy to cable
The cable entries, top or bottom, are pre-cut and open into the rear of the Actassi OPB enclosure. The enclosure fits around those cables that are already in place (rear blanking plate optional).

Adaptable
The 19" uprights are designed to be depth-adjustable with a step of 25 mm. Their fixing with screws helps guaranteeing the rigidity of the Actassi OPB enclosure.

Easy to install and to reverse
Its drilling template on the packaging and its 4 wall-mounted points enable quick and efficient installation while guaranteeing reversibility by simply turning the enclosure around.

Ergonomics
The side panels are locked from the inside by two 1/4-turn nuts, accessible only when the door is open.

OPB

19" Wall-Mounted Open Box with swing rack

PB501435

Open for easy installation and maintenance Introduction and selection guides

- Wall-mounted enclosure made from folded and welded sheet steel, powder paint, leather-grain finish, RAL 7035 light grey epoxy-polyester
- Enclosure made up of a body, 2 hinged and removable side panels, a 19" swing rack and a Securit® glass transparent door with key no. 333
- Protection rating: IP20
 - protection against objects > 12.5 mm
 - no protection against liquids
- Impact Protection: IK08
- Impact energy = 5 joules
- Available enclosures:
 - 5 heights: 6, 9, 12, 15, 18U
 - 3 depths: 400, 500 and 600 mm
- Swing rack: acceptable load of 25 kg (Include 25% of margin load rating according to IEC 62208)
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310-E.

Total accessibility with the swing rack and the swingable and removable side panels and door.

PEB01476

Made for audiovisual application

Technical characteristics

- The body of the enclosure has cut-outs at the top and bottom to allow natural airing
- Cable entry through rear opening and through pre-cut areas on the top and bottom of the enclosure
- 4 cut-outs are provided for wall-mounted
- The 2 side panels can be opened very easily by means of two 1/4-turn nuts. The panels can be removed without tools
- The 19" uprights in zinc-coated steel are depth-adjustable on a 25 mm step
- The Securit® glass door is completely reversible. It is equipped with a handle and a locking system with key no. 333. It is easily removed without tools
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310-E.

Composition

- Actassi OPB with top and bottom cut-outs
- 1 glazed front door with a lock, key no. 333
- 1 rear plate, reference: **NSYOPB6UTPN** to **NSYOPB21UTPN**
- 4 depth-adjustable 19" uprights. Additional uprights available
- 4 wheels, reference **NSYRUFOPB**
- Option of installing a plinth instead of the wheels.

Actassi KDB knock-down boxes – ideal for smaller businesses

Imagine providing excellent equipment for network, telephone, security and audio/video while saving up to 60% on stock space. Add smart benefits like the flat-package and the exceptional mounting time of 5 minutes, and you have the major advantages of the KDB enclosure in a little box.

Actassi KDB knock-down box

A sturdy, robust enclosure made of welded sheet steel, with great opportunities for several kinds of installations, would probably lead to quite time- and space-consuming mounting and installation. Not the Actassi KDB knock-down boxes. The keyword is “easy”.

Easy to stock, assemble and manage

Let’s start with the package. The clever flat pack will help save up to 60 % on storage space. It’s easy to stock – just grab a couple of packages from the shelf, load them into the your car and you are ready to go.

On site, the enclosure can be put up, wall-mounted and prepared for the components in just a few minutes. In addition, there are a number of handy features that provide equal easiness: the tool-less door with spring hinges for optimized access to the patch panels, the brush panel for swift cable management and the fan plates for smart airing.

Save 60 % on stock space

The KDB enclosure is easy to stock and load. The flat-pack allows you to save up to 60% on space, which means you can make more installations in less time.

The Actassi KDB boxes are available at your wholesaler. Always quick and easy to find an enclosure for your needs.

5 minutes
1 person
1 tool

Actassi KDB enclosures offer exceptional simplicity in terms of mounting and installation. One person can set up the KDB in less than 5 minutes. And the only tool needed is a regular screwdriver.

KDB

19" Wall Knock-Down Box

Simple and space-saving

5 minutes

You need only five minutes to mount the Actassi KDB enclosure.

Easy to assemble. You only need one single tool. A drilling template facilitates the fixation on the wall.

40 kg

The body allows mounting of components up to 40 kg.

Easy to stock and ship
The flat-pack architecture of KDB enclosure helps saving 60% of space in the stock. It is also very easy to ship and carry.

Easy to assemble
The symmetric construction of the top, bottom and side panels gives easy and helps assembling.

Easy to use
Tool-less door with spring hinges facilitates the access to the patch panels.

Easy cable management (option)
Use the 19" brush panel to easily manage the entry of cables suppress into the top and bottom.

Smart ventilation (option)
Helps protecting the installed components like switches and PABX. Use the 19" smart fan plates equipped with a thermostat adjustable from 0 °C to 55 °C

Easy to adapt
If you need more space at the front of the enclosure, you can easily move the 19" uprights each 25 mm.

KDB

19" Wall Knock-Down Box

Simple and space-saving

60 %

The flat-pack helps saving up to 60% of space in the stock

Introduction and selection guides

- Flat-pack wall-mounted enclosure dismantled in 1 package
- Symmetric enclosure made from welded sheet steel, powder-painted, leather-grain finish, RAL 7035 light grey epoxy-polyester.
- Enclosure made up of a body, one pair of 19" fixed uprights and a Securit® glass transparent door with key no. 333.
- Top and bottom 19" knock-down plates for entry cables and fans – 0U
- Protection rating: IP20
 - protection against objects > 12.5 mm
 - no protection against liquids
- Impact Protection: IK08
 - impact energy = 5 joules
- Acceptable load: 3 kg/U; max. 40 kg per enclosure.
- (Include 25% of margin load rating according to IEC 62208)
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310-E
- Brush entry cables **NSYCRTM1U1PS** (in option)
- Smart fan **NSY1FAN230T** to manage the temperature from 0°C to 55°C (in option).

Actassi floor-standing enclosures

Are you looking for an enclosure that is robust and very quick to install? Actassi VDA should be your choice. Smart details and an option to choose pre-installed accessories reduce the installation time. If you need a top-of-the-line server enclosure, Actassi VDS is hard to beat. It can be mounted with up to 750 kg of 19" components, and the micro-perforated door helps ensuring superior air flow (above 80%).

VDA

Easy to install and to integrate
19" Cabling enclosure

Adaptable

The configured offer allows you to equip the rack according to your needs:

- 2 framework models,
- 13 door models,
- 2 side panel models.

Aesthetics and customisation

3 models referenced: VDA-B, VDA-E, VDA-L (Ruko).

2 colour variants:

- 2 colors light grey (RAL7035) or dark grey (RAL9011)

Time saving

All doors can be installed and removed quickly.

The cladding can be installed and removed by one person. The feet can be adjusted from the inside.

Rigidity and sturdiness

400 kg of acceptable static load. Option of increasing to 500 kg using a rigidity kit.

VDA

Easy to install and to integrate

19" Cabling enclosure

Innovation
The side cable entry is the most ergonomic and efficient solution on the market. The top and bottom openings, flush with the structure, allow the cables to be prepared before installing the rack. These openings also allow for easy maintenance and are closed when the side panels are installed.

Ergonomics
The routing of the cable glands is easier:

- Knock-out side cable glands at top and bottom.
- Knock-out rear cable glands at top and bottom.
- Large opening on the roof, offset towards the rear and equipped with a removable plate. Allows the integration of live equipment at the top and the entry of cables by the rear.
- Large opening at the bottom.

Accessories
The central openings on the roof and the base support multiple blanking plate combinations (plain, with brush gasket or ventilated). Optional installation of the blanking plates with the roof plate thanks to the roof stand-offs.

Panels and doors can be installed and removed quickly by one person.

Harmonious design
With modern aesthetics: strip, handle, hinge, in rounded shape.

Safety
Helps securing installed components such as switches. The latches of the panels can be equipped with a key locking system (the key is identical for all the doors).

Smart
The pivot and guide system allows the panels to be returned to their place quickly, with maximum safety.

The airing is adjustable and does not take up any units (1 to 9 fans).

Practical
Marking of the units on the front panel and on the side for quick installation of the equipment. The 19" uprights are easily adjusted in depth on site.

Adjustable airing
The roof airing is depth-adjustable and does not take up any units. Option of installing 1 to 9 fans according to the size of your enclosure.

VDA/VDS Racks Overview

VDA-B

Simple and functional

Introduction

VDA-B rack

- Designed for circulation applications with switches and routers
- 6 heights: 24U, 29U, 33U, 38U, 42U and 47U
- 2 widths: 600 and 800 mm
- 3 depths: 600, 800 and 1000 mm
- Acceptable static load: 400 kg
- Dynamic load: 250 kg
- Color: light Grey (RAL 7035) for lining
- Protection rating: IP20
 - protection against objects > 12.5 mm
 - no protection against liquids
- Impact Protection: IK08
 - impact energy = 5 joules
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310D.

Rack composition

- Top and bottom frames, mechanically assembled by Torx screws to the vertical structure uprights, thus forming a rigid framework
- Base without blanking plate
- Cut-out roof, closed with a removable blanking plate
- Glazed reversible front door, 4 mm Securit® glass, opening to 180°, 1-point lock with a key no. 333. Hinges on the right as standard
- Rear panel with quick installation and removal, locking by latches
- Side panels with quick installation and removal, locking by latches
- Top and bottom side cable glands flush with the structure
- Top and bottom side knock-out areas for cable entry, with a width of 800 mm
- Large opening on the bottom and large knock-out area on the rear for cable entry.
- Levelling feet installed
- Two 19" uprights made from treated steel, installed 100 mm back from the front surface and depth-adjustable in steps of 25 mm
- Delivered on a pallet wrapped with film.

Composition of the rack without side panels

- Exactly the same composition as the above rack, but without the side panels
- Coupling kit not supplied
- If coupling is required, use the coupling kit (ref. **NSYCUNVDA**) and the brush gasket (ref. **NSYCUNPL800** or **NSYCUNPL1000**) to close the cable entry left by the 2 side panels.

VDA-E

Equipped and ready to use

Introduction

VDA-E rack

- Designed for IT and video applications, among others
- 4 heights: 24U, 38U, 42U and 47U
- 2 widths: 600 and 800 mm
- 3 depths: 600, 800 and 1000 mm.
- Acceptable static load: 400 kg
- Dynamic load: 250 kg
- Color:
 - light Grey (RAL 7035) for lining
 - black (RAL 9011)
- Protection rating: IP20
 - protection against objects > 12.5 mm
 - no protection against liquids
- Impact Protection: IK08
 - impact energy = 5 joules
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310D.

Rack composition

- Top and bottom frames, mechanically assembled by Torx screws to the vertical structure uprights, thus forming a rigid framework
- Base without blanking plate
- Cut-out roof, closed with a removable plain sheet
- Glazed reversible front door, 4 mm Securit® glass, opening to 180°, 2-point lock with a key no. 333 and handle. Hinges on the right as standard. Option of adding a third central locking point as an accessory, with reference NSYAEDN3PVD
- Reversible full plain rear door, 1-point lock with a key no. 333, opening to 180°
- Side panels with quick installation and removal, locking by latches
- Top and bottom side cable glands flush with the structure
- Top and bottom side knock-out areas for cable entry, with a width of 800 mm
- Large opening on the bottom and large knock-out area on the rear for cable entry
- Levelling feet installed
- Four 19" uprights made from treated steel, installed 100 mm back from the front plate and depth-adjustable in steps of 25 mm
- Delivered on a pallet wrapped with film
- Earthing kit pre-installed
- 1 bag of fixings with 30 M6 screws + washers + caged nuts.

Composition of the rack without side panels

- Exactly the same composition as the above rack
- Coupling kit not supplied
- If coupling is required, use the coupling kit (ref. NSYCUNVDA) and the brush gasket (ref. NSYCUNPL800 or NSYCUNPL1000) to close the cable entry left by the 2 side panels.

VDA-E racks, RAL 9011 black cladding

- 1 height: 42U
- 2 widths: 600 and 800 mm
- 3 depths: 600, 800 and 1000 mm
- Rack composition
- Delivered assembled.

VDA-L

Prepared for Ruko locking system

Introduction

VDA-L rack, RAL 7035 Light Grey

- Designed for IT and video applications among others
- Height: 24U - 42U
- 2 widths: 600 and 800 mm
- 2 depths: 600 and 800
- Acceptable static load: 400 kg
- Dynamic load: 250 kg
- Color:
 - light Grey (RAL 7035) for lining
 - black (RAL 9011)
- Protection rating: IP20
 - protection against objects > 12.5 mm
 - no protection against liquids
- Impact Protection: IK08
 - impact energy = 5 joules
- Certifications: in compliance with directive RoHs, with 19" standard IEC 60297-3-100 and EIA-310D.

Rack composition

- Top and bottom frames, mechanically assembled by Torx screws to the vertical structure uprights, thus forming a rigid framework
- Base without blanking plate
- Cut-out roof, closed with a removable plate equipped with a brush gasket
- Glazed or front door, 4 mm Securit® glass, opening to 180°, 2-point lock with a key no. EK333 and handle. Hinges on the right as standard. Option of adding a third central locking point as an accessory, with reference NSYAEDN3PVD
- Single rear panel
- Side panels with quick installation and removal, locking by latches
- Top and bottom side cable glands flush with the structure
- Top and bottom side knock-out areas for cable entry, with a width of 800 mm
- Large opening on the bottom and large knock-out area on the rear for cable entry
- Levelling feet
- One pair of 19" uprights made from treated steel, installed 100 mm back from the front plate and depth-adjustable in steps of 25 mm
- Delivered on a pallet wrapped with film.

Composition of the rack without side panels

- Exactly the same composition as the above rack, but without the side panels.
- Coupling kit not supplied
- If coupling is required, use the coupling kit (ref. NSYCUNVDA) and the brush gasket (ref. NSYCUNPL800 or NSYCUNPL1000) to close the cable entry left by the 2 side panels.

VDA-L racks, RAL 9011 black

- 1 height: 42U
- 1 width: 600 mm
- 1 depths: 1000 mm.

Rack composition

- Same composition to the above rack with glazed door
- Two pairs of 19" uprights made from treated steel, installed 100 mm back from the front plate and depth-adjustable in steps of 25 mm
- Delivered assembled.

VDS

19" server enclosure

Robust and ventilated

Ventilated

The front and rear doors are microperforated across the width of the 19" uprights to guide the air flow through the equipment. They allow above 80% of air through for optimal airing of the live components that equip the 19" rack.

Rigidity and robustness

750 kg of acceptable static load.

Vertical cable manager (option)

Efficient vertical cable managers can be used to duct, support and hide fiber and copper cables in improving airflow.

Adaptation and customisation

The configured offer allows you to equip the rack according to your needs:

- 2 framework models.
- 13 door models (microperforated double-door, etc.).
- 2 side panel models.

VDS

19" server enclosure

Robust and ventilated

The airing is adjustable and does not take up any units (1 to 9 fans).

Panels and doors can be installed and removed quickly by a single operator.

PB501620

Innovating

The side cable entry is the most ergonomic and efficient solution on the market. The top and bottom openings, flush with the structure, allow the strands to be prepared before installing the rack. These openings also allow for easy maintenance and are closed when the side panels are installed.

PB501622

Ergonomic

The routing of the cable entries is easier:

- Side cable entries at top and bottom, pre-cut.
- Rear cable entries at the bottom, pre-cut.
- Large opening on the roof, offset towards the rear and equipped with a blanking plate.
- Allows the integration of live equipment at the top and the entry of cables from the rear.
- Large opening at the bottom.

PB501628

Adaptable airing

The roof airing is depth adjustable and does not result in the loss of any units. Option of installing 1 to 9 fans according to the size of your enclosure.

PB501625

Safety

The latches of the panels can be equipped with a key locking system (the key is identical for all the doors).

PB501626

Smart

The pivot and guide system allows the panels to be returned to their place quickly, with maximum safety.

PB501627

Practical

Marking of the units on the front panel and on the side for quick installation of the equipment. The 19" uprights are easily depth-adjustable on the site.

PB501623

Time saving

All the doors and panels can be installed and removed quickly. The cladding can be installed and removed by a single person. The feet can be adjusted from the inside.

PB501629

Accessories

The central openings on the roof and the base support allow multiple blanking plate combinations (plain, with brush or ventilated). Option of installing the blanking plates with the roof plate thanks to the roof stand-offs.

VDS

19" server enclosure

Robust and ventilated

Introduction

Technical characteristics

- **Folded and welded sheet-steel enclosure, textured, RAL 9011 black epoxy-polyester powder paint**
- **Earth continuity guaranteed, according to the standard**
- **Allowed air flow above 80%**
- **Acceptable static load: 750 kg**
- **Color: black (RAL 9011)**
- **Protection rating: IP20**
 - protection against objects > 12.5 mm
 - no protection against liquids
- **Impact Protection: IK10**
 - impact energy = 20 joules
- **Certifications: in compliance with directive RoHS, with 19" standard IEC 60297-3-100 and EIA-310D**

Rack composition

- Top and bottom frames, mechanically assembled by Torx screws to the vertical structure uprights, thus forming a rigid framework
- Base without blanking plate
- Cut-out roof, closed with a blanking plate with dismountable brush gasket
- Reversible microperforated front and rear door, opening to 180°, 2-point locking system with a handle and a key no. 333. Hinges on the right as standard
- Side panels, with quick installation and removal, closing by latches
- Top and bottom side cable entries flush with the structure
- Top and bottom side knock-out areas for cable entry, with a width of 800 mm
- Large opening on the bottom and large knock-out area on the rear for cable entry
- Levelling feet installed
- Four 19" uprights made from treated steel, installed 100 mm back from the front plate and depth-adjustable in steps of 25 mm
- Earthing kit installed
- Delivered on a pallet wrapped with film
- Composition of the rack without side panels
- Exactly the same composition as the above rack, but without the side panels
- Coupling kit not supplied
- If coupling is required, use coupling kit ref. **NSYCUNVDA** and brush gasket (ref. **NSYCUNPL800** or **NSYCUNPL1000**) to close the cable entry left by the 2 side panels.

Configured

- Configuration service: save time and rather remain focussed on your installation, letting us configure the product, color and accessories and their installation.
- One single order, one single delivery

See page 248

Specific

- Specific service: tailor-made enclosures; we specify the enclosure dimensions (15U rack, 400 mm depth, etc.), knock-outs, configuration, color and accessories and their installation for you.
- One single order, one single delivery.

See page 253

Stand-off plinth for raised floor	800	1000	NSYAEBP2F810

Patching frame

Overhead patching frame

The Actassi 19" overhead patching frame allows you to use the empty space above the enclosure. Just mount the frame onto the tray, either vertically or at an angle. For mounting on Defem mesh trays, use the Defem B1 fitting. Install patch panels and make the entire enclosure beneath available for server hosting. The patching frame now works as a consolidation point, enabling flexible cabling layout as well as convenient addition of new enclosures and servers.

Robust cord managers for bending radius protection.

Large label for clear visibility from the ground.

For maximum convenience, the brackets enable vertical or angled mounting of the frame.

VDA/VDS

EA accessories

Locking systems

NSYSTVDA

Locking system (P1)

- Allows the locking of a side panel and the rear panel.
- Lock with key no. 333 with escutcheon plate
- It is installed on the opening latches of the side and rear panels
- Delivery of 2 locks per panel.

Ref. No	Characteristics
NSYSTVDA	Locking system (P1)

NSYAEDN1DVD

Adapter for 2-point locking system handle

- Assembly on the rear of the handle for doors with 2-point locking system as standard on Actassi VDA-E or Actassi VDS
- Adapter supplied without the insert.

Adapter	Ref. No	Characteristics
DIN half-cylinder	NSYAEDN1DVD	Adapter for 2-point locking system handle

NSYAEECS

Earthing strip (Y)

- Two models available:
 - insulated: 10 x 5 mm brass bar with 40 connection points by screws for lugs (screws not installed)
 - non-insulated: stainless-steel bar ref. **NSYAEEC1UF**, connection by Faston lug 6.5 or by copper bar with caged terminal ref. **NSYAEEC1UN**
- Fixing to the 19" rack or to the framework
- Length: 480 mm
- Delivered with fixings
- Strip reference **NSYAEEC1UN** is equipped with caged terminal blocks.

Characteristics	Insulated	Ref. No
Earthing strip (Y)	Yes	NSYAEECS
Earthing strip (Y)	No	NSYAEEC1UF
Earthing strip (Y)	No	NSYAEEC1UN

NSYAEEC100C

Earthing claws

- Set of 100 pieces
- Provides earthing continuity of the front panels and blanking plates.

Note:
it is the installer's responsibility to help ensuring earth continuity and connection.

Characteristics	Ref. No
Earthing claws	NSYAEEC100C

NSYCTVDA

Earthing kit for Actassi VDA / VDS

- Kit for earthing the cladding pieces of the enclosure
- Assembly on all the doors of the enclosure to comply with standard IEC 62208, Section 9.10 regarding the continuity of the protection circuit
- Brass and copper lugs
- Green-yellow PVC insulated sheath.

Note:
it is the installer's responsibility to help ensuring earth continuity and connection.

Characteristics	Ref. No
Earthing kit for Actassi VDA / VDS	NSYCTVDA

For fixing components to the rear of the 19" uprights.

NSYGFR12M65

Nuts for 19" uprights

- Set of 50 M6 caged nuts
- Bag of M6 caged nuts for 12 mm square holes (holes on the rear of the 19" uprights).

Characteristics	Set of	Ref. No
Nuts for 19" uprights	50	NSYGFR12M65

NSYGFR95M63

Fixings for 19" rack

- They allow 19" accessories to be mounted
- Caged nut compatible with 8.5 x 8.5 mm and 9.5 x 9.5 mm holes.

Characteristics	Set of	Ref. No
M6 screws + washers + nuts	30	NSYGFR95M63
M6 caged nuts	100	NSYCN9M625
M6 screws + washers + nuts	50	NSYGFR95M65

Rear cable support

- Fixing of cables through an opening without effort
- Direct fixing to the framework and the rear part of the tray.

Characteristics	Ref. No
Rear cable support	NSYBTSCS

Universal fixing plate

- Fixing to the 19" uprights or to the framework uprights for mounting accessories
- Delivery by unit.

Characteristics	Ref. No
Universal fixing plate	NSYEUV D

Universal accessories

Electrical power distribution rails

PDU'S

UTE - 16 A/230 V~ with pin-earthed outlets

- Sockets set at 35° with child protection
- Aluminum profile silver - height 1U
- Material: fiberglass polyamide plastic that helps ensuring fire resistance up to 850 °C
- Equipped with power cord (3G 1.5 mm²) type H05 VVF, equipped with a molded right-angle plug with earthing contact system
- According to NF C 61314, IEC 60884 and NBNC61112-1 standards
- Could be used in: France, Belgium, Poland, Monaco, Slovakia, Czech Republic.

Note:

- ⁽¹⁾ A: rail of sockets without protection
- ⁽²⁾ B: rail of sockets with recessed green LED switch
- ⁽³⁾ C: rail of sockets with bi-polar magnetothermal circuit-breaker C16 type C60N 16 A curve C
- ⁽⁴⁾ D: suppression filter for interferences up to 30 MHz, guaranteed frequency 400 Hz, attenuation 20 dB per decade.
- ⁽⁵⁾ E: rail of sockets with interference filter and surge suppressor, 6.5 kA short-circuit protection. Protection level Up 1.5 kV, test voltage Uoc 5 kV Uc 255 V, 50 Hz. Operation indicator light, interfaces 30 MHz. Frequency nominal 400 Hz, attenuation 20 dB per decade.
- ⁽⁶⁾ F: rail of sockets with differential protection 30 mA, 2 poles 25 A type NC

NSYCRTM1U2

1U 19" front panel with cable-gland openings

- Fixing on the 19" uprights
- Cable openings protected by a gasket
- Sheet steel, RAL 7035 or RAL 7016 grey paint.

Characteristics	Ref. No
1U 19" front panel with cable-gland openings, RAL 7035	NSYCRTM1U2
1U 19" front panel with cable-gland openings, RAL 7016	NSYCRTM1U2G

NSYCRTM1UA2

1U 19" front panel with openings and cable support

- Fixing on the 19" uprights
- Cable openings protected by a gasket
- Performs the duty of a cable tray
- Sheet steel, RAL 7035 light grey paint.

Characteristics	Ref. No
1U 19" front panel with openings and cable support	NSYCRTM1UA2

NSYCRTM1U1P

1U 19" front panels with cable-gland and brush gasket

- Fixing on the 19" uprights
- Sheet steel, RAL 7035 or RAL 7016 paint
- 150 mm cable support.

Characteristics	Ref. No
With cable support at the rear, RAL 7035	NSYCRTM1U1P
With cable support at the rear, RAL 7016	NSYCRTM1U1PG
Without cable support at the rear, RAL 7035	NSYCRTM1U1PS

NSYCRTM1U5GCA

1U 19" front panel with insulated guides

- Channels the cables over the front panel of the rack
- Fixing on the 19" uprights
- Steel front panel, RAL 7035 light grey paint
- Equipped with 5 guides (reference NSYGCA46) in horizontal, vertical and 45° positions.

Characteristics	Ref. No
1U 19" front panel with insulated guides	NSYCRTM1U5GCA

NSYCRTM2U3

2U 19" front panel with cable-gland openings

- Fixing to the 19" rack
- Cable openings protected by a gasket
- Sheet steel, RAL 7035 light grey paint.

Characteristics	Ref. No
2U 19" front panel with cable-gland openings	NSYCRTM2U3

NSYCRTM2US

2U depth-adjustable 19" support

- Fixing on the 19" uprights
- Depth-adjustable from 50 to 200 mm; it allows the installation of non-19" devices or the fixing of cables, ducting, etc.
- Sheet steel, RAL 7035 light grey paint

Supply:

Delivered with assembly fixings.

Characteristics	Ref. No
2U depth-adjustable 19" support	NSYCRTM2US

NSYTVA

Frontal 19" cable-support cross-rails

- For frontal assembly on the 19" uprights
- Allow cables to be flanged using cable ties
- Set of 2 pieces.

Characteristics	Ref. No
Frontal 19" cable-support cross-rails	NSYTVA

Plain 19" front panel

- Fixing to the 19" rack
- Front panel made from sheet steel, 15/10 mm thick, RAL 7035 or RAL 7016 grey paint
- Front panel made from 3 or 4 mm anodised aluminum
- Fixing by screws reference **NSYGFR95M65**
- Earthing claws reference **NSYAEEC100C**.

Rack for VDI

- 1 U, 19" rack. For lamp installation in VDI enclosures.
- **Supply:** supplied with fixing elements.

Ref. No	Characteristics
NSYLAM1U	Rack for VDI

Fixing options

Fixing by sliding brackets.

Magnetic fixing.

Fixing to DIN rail.

The customised offer

Do you want to have other enclosures than standard? No problem. With Actassi enclosures it's possible to customize color, accessories, specific lining, etc. according to your personal needs.

Two levels of customisation

At Schneider Electric we have developed two levels of customized services based on more than 50 years of experience in the market:

- > Configured offer (standard, modified)
- > Specific offer (custom-built enclosures).

We perform machining, mounting of accessories and painting.

We manufacture customized solutions with our industrial tools. Example: cut-outs made before painting.

Flexibility
Several types of side panels

Functionality
Defined thermal management

Time-saving
Factory-made assemblies

Aesthetics
Colour

Mounting
Accessories mounted in our factories

Efficiency & ergonomics
Several types of doors

Examples of customised solutions

Configured

Configured offer

Make your own definition based on our standard claddings.

Example: Actassi VDA enclosure in RAL 9011

Equipped with:

- Double Front door with two-points locking system. Airflow above 80 %
- Double Rear door with two-points locking system. Airflow above 80 %
- Two side-doors with locks
- Roof equipped with 6 fans and 1 cable entry with brush seal

Specific

Specific offer

Built exactly according to your needs

Custom-made Actassi VDA-VDS enclosure

Specify your needs on VDA-VDS enclosures or spare parts.

This enclosure is delivered equipped, machined and ready to use.

- D7** Rear door with double leaf, glazed (2)
- D9** **D8** Microperforated rear door (1)
- D10** Rear door with double leaf, microperforated (2)
- D20** Rear extension kit
- E1** Plain roof plate
- E2** Roof plate with brush gasket
- E3** Perforated roof plate
- Q1** Roof stand-offs
- Z3** Panel earthing kit
- S** Color of the structure upright paint
- T** Color of the paint of the cladding elements

Base accessories

- F1** Plinth
- F2** Anti-tilt plinth
- M1** Standard levelling feet
- M2** Anti-vibration levelling feet
- M3** Handling castors
- M4** Castor adaptation kit

Blanking plates for the top of the rack (2)

- J1** Plain blanking plate
- J2** Blanking plate with brush gasket
- J3** Blanking plate with 3 fans
- J4** Blanking plate with 2 fans
- J5** Blanking plate with airing louvres

Blanking plates for the bottom of the rack (2)

- K1** Plain blanking plate
- K2** Blanking plate with brush gasket
- K3** Blanking plate with airing louvres

Blanking plates for the rear of the rack (1 plate)

- L1** Blanking plate with brush gasket
- L2** Blanking plate with 3 fans
- L3** Blanking plate with 2 fans
- L4** Blanking plate with ventilation louvres

Installation accessories

- G1** Front 19" uprights and depth supports
- G2** Front/rear 19" uprights and depth supports
- G3** 12U partial 19" uprights
- G4** Front/rear 12U partial 19" uprights installed at the top
- Z2** Bag of 19" fixings (30 pieces)

Cable-management accessories

- H2** Trim strips with cable glands (rack width 800 mm)
- N1** Cable-support cross-rails on framework, on the left
- N2** Cable-support cross-rails on framework, on the right
- N3** Cable-support cross-rails on framework, on the rear
- W1** Wired cable tray, 35 mm deep, on the left
- W2** Wired cable tray, 35 mm deep, on the right
- W3** Wired cable tray, 35 mm deep, on the rear
- W4** Wired cable tray, 70 mm deep, on the left
- W5** Wired cable tray, 70 mm deep, on the right
- W6** Wired cable tray, 70 mm deep, on the rear
- X1** 40 x 60 mm guides mounted on the 19" uprights
- X2** 40 x 100 mm guides mounted on the 19" uprights
- X3** 100x 100 mm guides mounted on the 19" uprights

Complementary accessories

- Y1** Insulated earthing strip
- Y2** Non-insulated earthing strip
- Z1** Door switch (corresponding to **NSYAEDWVD**)
- Z2** Bag of fixings (50 screws + nuts)
- Z3** Panel earthing kit

(1) Code in red: doors with 2-point locking system.

(2) Code in blue: double-door with 3-point locking system.

(3) Top frame: always 3 plates; bottom frame depth 600 mm: 2 plates; depth 800 and 1000 mm: 3 plates.

Example of realisations

Colocation 19" enclosure
Enclosure separated in 4 parts to give different access to each customer. Each hosted customer has his own secured access and cannot make some operation to the other part of the enclosure

Branded 19" enclosure equipped with saloon glazed doors
Enclosure totally customized with the customer requirements. 42U enclosure equipped with double glazed doors permits to open the doors when you don't have space.

Ventilated 19" enclosure with fans mounted on the doors
Enclosure dedicated to extract a lot of heat. Mainly dedicated to server application. This configuration permits to help ensuring the stability of the installation.

19" enclosure – Depth 400 mm
19" enclosure with a very limited depth (Depth 400 mm) for cabling application. Required by the customer to reduce the size of the installation.

Wall-mounting enclosure – Depth 1000 mm
Enclosure totally customized with the customer requirements. 12U – Width 600 mm and Depth 1000 mm.

Racks structure merged with a center zone cabling
Totally dedicated for cabling, this structure permits to easily manage the cables and to give the best access to install the components.

Degree of protection

Standard IEC 60364-5-51 lists and codifies a large number of external influences to which electrical installations can be subjected, including the presence of water, solid objects, shocks, vibrations, corrosive substances, etc.

IP code

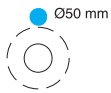

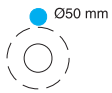

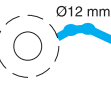

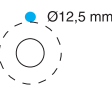

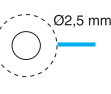

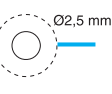

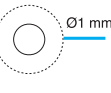

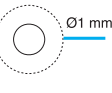

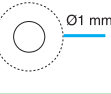

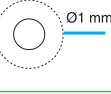

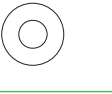

Standard IEC 60529 (IP code, February 2001) indicates the degrees of protection provided by an enclosure for electrical devices against access to hazardous parts, against penetration of solid foreign objects and against penetration of water.

These standards do not apply for the protection against the risks of explosion or conditions such a humidity, corrosive vapor, fungus or vermin.

The IP code is made up of two characteristic numerals and can include an additional letter when the actual protection for persons against access to the hazardous parts is better than that indicated by the first numeral.

The first numeral characterises the protection provided against the ingress of solid foreign objects and the protection of persons.

The second numeral characterises the protection provided against the ingress of water with harmful effects.

1 st numeral Protection of persons	Protection against ingress of solid objects	2 nd numeral Protection against ingress of water
1 Helps protecting against access with back of hand 	Protection against solid foreign objects larger than 50 mm 	1 Helps protecting against vertically dripping water (condensation) 
2 Helps protecting against access with a finger 	Protection against solid foreign objects larger than 12.5 mm 	2 Helps protecting against dripping water up to 15° from vertical 
3 Helps protecting against access with a tool 	Protection against solid foreign objects larger than 2.5 mm 	3 Helps protecting against spraying water up to 60° from vertical 
4 Helps protecting against access with a wire 	Protection against solid foreign objects larger than 1 mm 	4 Helps protecting against splashing water from all directions 
5 Helps protecting against access with a wire 	Helps protecting against dust (dust protected) 	5 Helps protecting against water jets from all directions 
6 Helps protecting against access with a wire 	Dust tight 	6 Helps protecting against the effects of temporary immersion in water 
		7 Helps protecting against the effects of continuous immersion in water 
		8 Protected against the effects of continuous immersion in water 

IK code

Standard IEC 62262 defines an IK code characterising the capacity of products to resist mechanical impacts from all sides.

IK code	Impact energy (joules)
01	0.14
02	0.2
03	0.35
04	0.5
05	0.7
06	1
07	2
08	5
09	10
10	20

IK codes can be selected according to the risks of impacts on a given site.

Risk	Site	Recommended IK
No risk of major impact	Technical premises	07
Significant risk of impact that can damage devices	Hallways	08 (switchboard with door)
Maximum risk of impact that can damage the switchboard	Workshops	10

Green Premium™

An industry leading portfolio of offers delivering sustainable value

More than 75% of our product sales offer superior transparency on the material content, regulatory information and environmental impact of our products:

- RoHS compliance
- REACH substance information
- Industry leading # of PEP's*
- Circularity instructions

Discover what we mean by green

[Check your products!](#)

The Green Premium program stands for our commitment to deliver customer valued sustainable performance. It has been upgraded with recognized environmental claims and extended to cover all offers including Products, Services and Solutions.

CO₂ and P&L impact through... Resource Performance

Green Premium brings improved resource efficiency throughout an asset's lifecycle. This includes efficient use of energy and natural resources, along with the minimization of CO₂ emissions.

Cost of ownership optimization through... Circular Performance

We're helping our customers optimize the total cost of ownership of their assets. To do this, we provide IoT-enabled solutions, as well as upgrade, repair, retrofit, and remanufacture services.

Peace of mind through... Well-being Performance

Green Premium products are RoHS and REACH compliant. We're going beyond regulatory compliance with step-by-step substitution of certain materials and substances from our products.

Improved sales through... Differentiation

Green Premium delivers strong value propositions through third-party labels and services. By collaborating with third-party organizations we can support our customers in meeting their sustainability goals such as green building certifications.
