

Tripp Lite 1111 W. 35th Street Chicago, IL 60609 USA Telephone: 773.869.1234 www.tripplite.com

SmartOnline 208/240 & 120V 6kVA 4.2kW Double-Conversion UPS, 9U Rack/Tower, Extended Run, Network Card Slot, DB9, Bypass Switch, Hardwire

MODEL NUMBER: SU6000RT3U

Description

Tripp Lite SU6000RT3U on-line, double-conversion UPS protects server, networking or telecommunications equipment from blackouts, voltage fluctuations and surges in a compact tower/rackmount housing. In a rack configuration, the power module, step-down transformer, and battery pack occupy only 3 rack spaces each (9U total). Upright tower placement of entire system supported with included tower stands. Large capacity 6000VA/4200 watt power module double-conversion technology converts raw input AC to DC, then resynthesizes it back to perfect sine wave AC output within 2% of user-selectable 208V/240V and 120V AC output voltages. Frequency regulation locks output power to 50/60Hz (+/-0.2 Hz), removing harmonic distortion, fast electrical impulses and other hard-to-solve power problems not addressed by other UPS types. Perfectly regulated, continuous sine wave output with zero transfer time offers guaranteed uptime and compatibility with all equipment types. Hardwire input and output connections support a variety of permanent or plug-in power connections. Highly efficient operation in optional economy mode setting, saving BTU heat output and energy costs. Battery support can be extended through the addition of external battery packs. Includes accessory slot for optional monitoring and management cards, plus DB9 contact-closure, and DB9 enhanced serial monitoring ports for unattended shutdown, remote control and monitoring of UPS system and power data.

Features

- Tripp Lite SU60000RT3U 6kVA / 6,000VA / 4200 watt on-line, double-conversion UPS system in 9U total rack/tower configuration (3U UPS power module, 3U external battery pack and 3U step-down transformer)
- Included step-down transformer with manual bypass switch enables hot-swappable UPS power module replacement with no interruption in output power to connected networking equipment

Highlights

- 6000VA / 6kVA / 4200W on-line double-conversion UPS
- 208/120V or 240/120V 50/60Hz output; Economy mode option
- 9U Rack/Tower compatible; Hotswap power and battery modules
- RS232 & EPO ports; Slot for network management card options
- Front panel LEDs with detailed LCD monitoring and control screen
- Expandable runtime with optional external battery packs
- Hardwire input (3 wire);
 Hardwire output

Package Includes

- SU6000RT3UPM 3U power module
- SU6000XFMRRT3U 3U stepdown isolation transformer
- 240V 3U external battery pack
- Four post compatible rack rail kit (3 sets)
- DB9 & EPO cables

- Fault tolerant electronic bypass maintains utility output during a variety of UPS fault conditions
- Hardwire input and output connections
- Full-time active power conditioning provides clean, continuous dual-conversion AC output free of voltage fluctuations, power interruptions and line noise
- Double-conversion operation converts raw input from AC to DC, then re-synthesizes output power back to perfect sine wave AC with enhanced protection from harmonic distortion, fast electrical impulses and other hard-to-solve power problems not addressed by other UPS types
- Accepts input voltages between 156 and 276, regulating output within 2% of selectable 208/240 and 120V AC output
- Standard included 3U battery pack provides 20 minutes runtime at half load (3000VA) and 8 minutes at full load (6000VA)
- Expandable runtime is supported with optional BP240V10RT3U; BP240V787C-1PH external battery packs
- · Intelligent battery management system extends battery life
- Highly efficient operation in optional economy mode significantly reduces BTU heat output and operating energy costs
- Serial port enables data-saving unattended shutdown when used with Tripp Lite's PowerAlert software, available via FREE download from <u>www.tripplite.com/poweralert</u>
- Supports detailed monitoring of equipment load levels, self-test data and utility power conditions via built-in RS-232 interfaces
- Optional network management and contact-closure communications card accessories available.
- Compatible with Tripp Lite UPS management card options TLNETCARD, WEBCARDLX,
- SNMPWEBCARD, MODBUSCARD and RELAYIOCARD
- Supports Emergency Power Off (EPO) via built-in interface
- Included rail kit supports 9U 19 inch rackmount installation in 4 post racks
- Optional 2POSTRMKITHD supports installation in 2 post 19 inch racks
- Front panel LED's and LCD readout with scroll controls and supports visual monitoring of all major UPS functions and advanced UPS settings for nominal voltage selection, economy mode, and other operational parameters
- LED / LCD display panel rotates for viewing in rackmount or tower configurations
- Network-grade AC surge and noise suppression
- External battery packs are field replaceable and hot swappable

	Input Circuit Breakers	40A double-pole
Input Phase Single-Phase	Recommended Electrical Service	30A 208V or 240V
	Input Phase	Single-Phase

BATTERY	
Full Load Runtime (min.)	8 min. (4200w)
Half Load Runtime (min.)	20 min. (2100w)
Expandable Battery Runtime	Supports extended runtime with optional external battery packs
External Battery Pack Compatibility	BP240V10RT3U; <a class="productLink" href="//www.tripplite.com/External-240V-Tower-Battery-Pack-for-
use-with-Select-Tripp-Lite-UPS-Systems-BP240V787C-1PH~BP240V787C-1PH">BP240V787C-1PH
DC System Voltage (VDC)	240
Battery Recharge Rate (Included Batteries)	Less than 6 hours from 10% to 80% (typical, full load discharge)
Battery Replacement Description	Hot-swappable, user replaceable batteries
Expandable Runtime	Yes
VOLTAGE REGULATION	
Voltage Regulation Description	Online, double-conversion power conditioning
Overvoltage Correction	2% output voltage regulation during overvoltages to 276
Undervoltage Correction	2% output voltage regulation during undervoltages to 156
USER INTERFACE, ALERTS & CONTROLS	
Front Panel LCD Display	Selectable LCD display with scroll and selection buttons enables UPS control and detailed monitoring options; LED/LCD panel rotates for viewing in rack/tower formats (see manual)
Switches	2 Switches control off/on power status and alarm-cancel/self-test operation; 2 additional switches support set and execute scrolling LCD functions; bundled transformer includes bypass switch to enable hot-swap UPS power module replacement
Alarm Cancel Operation	Alarm cancel switch
Audible Alarm	Unique audible alarms for all major UPS, environmental and power conditions (see manual)
LED Indicators	6 LEDs indicate line power, online mode, economy/bypass mode, on-battery, charger and AC output status; LCD screen offers additional information and control options
SURGE / NOISE SUPPRESSION	
UPS AC Suppression Response Time	Instantaneous
EMI / RFI AC Noise Suppression	Yes
ISOLATION	
Output Isolation Transformer	120V output includes load isolation transfomer protection
PHYSICAL	
Included Mounting Accessory Description	3 sets of adjustable 4 post rack rails included (for UPS, transformer and battery pack components); 2-9USTAND tower kit included (supports up to 9U in tower format)
Installation Form Factors Supported with Optional Accessories	2 post rackmount (2POSTRMKITHD)

Optional Mounting Accessory Notes	3 sets of <a class="productLink" href="//www.tripplite.com/2-Post-Rack-Mount-Installation-Kit-3U-Larger-UPS-
Transformer-Battery-Pack-Components~2POSTRMKITHD">2POSTRMKITHD required for 2 post rackmount installation of separate UPS, transformer and battery pack
Primary Form Factor	Rackmount
UPS Power Module Dimensions (hwd, in.)	5.2 x 17.5 x 26
UPS Power Module Dimensions (hwd, cm)	13.21 x 44.45 x 66.04
Rack Height	9U
Maximum Device Depth (in.)	26
Minimum Required Rack Depth (inches)	33
Maximum Device Depth (cm)	66.04
Minimum Required Rack Depth (cm)	83.82
UPS Power Module Weight (lbs.)	43.8
UPS Power Module Weight (kg)	19.87
UPS Dimensions Details	Includes 3U UPS/power module, 3U stepdown transformer and 3U battery pack
Stepdown Transformer Dimensions (hwd / in.)	5.2 x 17.5 x 26
Stepdown Transformer Dimensions (hwd / cm)	13.21 x 44.45 x 66.04
Stepdown Transformer Weight (lbs.)	90
Stepdown Transformer Weight (kg)	40.82
Included Battery Pack Dimensions (hwd / in.)	5.2 x 17.5 x 25
Included Battery Pack Weight (lbs.)	136.5
Included Battery Pack Weight (kg)	61.92
Shipping Dimensions (hwd / in.)	36.00 x 24.00 x 35.00
Shipping Dimensions (hwd / cm)	91.44 x 60.96 x 88.90
Shipping Weight (lbs.)	436.00
Shipping Weight (kg)	197.77
Cooling Method	Fan
UPS Housing Material	Steel
Maximum Device Depth (mm)	660
Stepdown Transformer Height (mm)	132
Stepdown Transformer Width (mm)	445
Stepdown Transformer Depth (mm)	660
Primary UPS Height (mm)	132
Primary UPS Width (mm)	445

Primary UPS Depth (mm)	660	
ENVIRONMENTAL		
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius	
Storage Temperature Range	+5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius	
Relative Humidity	0 to 95%, non-condensing	
AC Mode BTU / Hr. (Full Load)	1418	
Battery Mode BTU / Hr. (Full Load)	1593	
AC Mode Efficiency Rating (100% Load)	91%	
AC Economy Mode Efficiency Rating (100% Load)	96%	
Operating Elevation (ft.)	0-3000m (0 to 10,000 ft.)	
Audible Noise	53dBA At Front Side 1 Meter	
Operating Elevation (m)	0-3000 m	
COMMUNICATIONS		
Communications Interface	DB9 Serial; Contact closure; EPO (emergency power off); Slot for SNMP/Web interface	
Network Management Cards	SNMPWEBCARD; TLNETCARD; WEBCARDLX; MODBUSCARD; <a <br="" class="productLink">href="//www.tripplite.com/Programmable-Relay-I-O-Card~RELAYIOCARD">RELAYIOCARD	
Network Monitoring Port Description	RS232 and contact closure communications are located on two separate DB9 ports	
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert Local software at http://www.tripplite.com/poweralert	
Communications Cable	DB9 cable included	
LINE / BATTERY TRANSFER		
Transfer Time	No transfer time (0 ms.) in online, double-conversion mode	
Transfer Time (Economy Mode)	8ms. typical power failure response in optional economy mode	
Low Voltage Transfer to Battery Power (Setpoint)	156	
High Voltage Transfer to Battery Power (Setpoint)	276	
SPECIAL FEATURES		
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported	
Economy Mode Operation	Optional economy mode enables high efficiency bypass operation with a maximum output voltage variation of +/- 10%. Double conversion mode is automatically restored as mains voltage varies beyond +/-10% with less than 1 millisecond transfer time between modes.	
High Availability UPS Features	Automatic inverter bypass; Manual bypass switch; Hot swappable UPS power module; Hot swappable batteries	
Green Energy-Saving Features	High efficiency economy mode operation; Schedulable daily hours of economy mode operation	

CERTIFICATIONS	
UPS Certifications	Tested to UL1778 (USA); Tested to CSA (Canada); Tested to NOM (Mexico); CE; Tested to GOST (Russia); Tested to SASO (Saudi Arabia); Tested to IRAM (Argentina)
WARRANTY	
Product Warranty Period (Worldwide)	2-year limited warranty
Connected Equipment Insurance (U.S., Canada & Puerto Rico)	\$250,000 Ultimate Lifetime Insurance
