Product Change Notification: E-20-004691

PCN Date: 06-APR-20

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Solder devices as per attached list of parts.

Description of Changes

Flux change.

Reason for Changes:

Product Improvement. This is notification of a flux change in our Devices product. ROL1 flux containing Hexabromocyclododecane (HBCDD) is being replaced with ROLO flux free of HBCDD to be compliant with applicable laws and regulations. We are changing to a flux that does not contain HBCDD and meets all of the performance requirements and comply with internal TE specifications and external agency specifications including the applicable MIL specifications as required, in order to comply with applicable regulations. Some customers may receive mixed shipments for a few weeks as we switch flux materials.
