Dear Valued Customer:

This letter serves as notification that CTS Electrocomponents will discontinue manufacturing specific versions of our 204 series, 206 series, 208 series, and 206RA/208RA DIP switches. The products contained in this notice are part of an annual CTS product portfolio review process. Our intent is to support these products for a limited time in order to allow for future planning by all of our customers. Therefore we will offer a last time buy opportunity to support your needs.

The switches to be discontinued are the DPDT and 4PST types.

Our records indicate you have purchased the following switches in these product categories in the past 3 years.

204-221ST	204-221STR
204-222ST	
206-221ST	

Last time orders will be accepted through September 30, 2014 for shipment scheduled no later than December 31, 2014.

Please contact me or your local CTS representative if you have questions.

Best regards,

Tari Gard
Product Marketing Supervisor
