**Dear** < Customer FSE Last Name>,

**Subject:** 91MCE Series Limit Switch Obsolescence

This is to inform you that effective September 5, 2017, Honeywell will no longer offer the 91MCE Series limit switch due to changes in our supply chain. We are requesting that our customers place last time buy orders no later than December 31, 2017 with shipments scheduled by February 28, 2018.

The 91MCE Series is being replaced by the NGC Series limit switch. The NGC Series limit switch has the same mounting footprint as the 91MCE with comparable operating specifications. The NGC offers the user more design versatility with the addition of DPDT circuitry, plastic and metal housing options and more cable and connector options

Honeywell values its customers and realizes that this transition may require our customers to test and validate proposed alternate solution. We want to work with you to make this a smooth transition to the available solution of your choice.

If you have any questions, please contact your Honeywell Sales Consultant, your Sales Representative for Honeywell products, or me at [pam.davis@honeywell.com](mailto:pam.davis@honeywell.com) or 815-618-6058.

Sincerely,

*Pamela A Davis*
