Sub: TEH70 Resistors to be discontinued

Ohmite announces the discontinuance of TEH70P and TEH70M TO-247 type power resistors. Orders for these parts will be through May 30, 2015, and final deliveries can be scheduled as late as December 31, 2015 for these products. Increased usage of the higher performing, drop in replacement product, TEH100M, has rendered the TEH70 product unnecessary. TEH70 users will be furnished equivalent TEH100M samples for qualification upon request. Distributors with excess TEH70 inventory will be furnished an RMA by Customer Service to return any unused parts. Returns will not be counted against a Distributor's Stock Rotation Allowance. Effected parts are listed in the attached spreadsheet.

Best Regards,

Brandon Metzger
Product Manager

Cc: Kirk Schwiebert-Director of Product Development
