Description

Ruland KS32-1/4X20:24-PF is a star knob with a 32 mm knob diameter, 1/4x20 threading, and 24 mm long threaded stud. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It replaces standard hardware with 1/4x20 threading. The knob is made of shock-resistant technopolymer plastic with a matte black finish and is attached to a zinc-plated steel stud allowing for use in most industrial applications. The grooves of the star-shaped knob offer an ergonomical grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to its small dimensions and tool-free operation. KS32-1/4X20:24-PF is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
