

## Statement of Compliance

## **Requested Part**

11 June 2023	LT300016T261K0J		(Part 1 of 1)
TE Inte	rnal Number:	1624329-4	
Product	Description:	LT 3000 1/6W 1K0 5%	
	Part Status:	Obsolete	
Mil-Sp	pec Certified:	No	
EU RoHS Directive	2011/65/EU:	Not Yet Reviewed	
This declaration covers EU Directive 2011/65/EU incl. Delegated Directive 2015/863/EU.			
EU E	LV Directive:	Compliant with Exemptions	
	2000/53/EC	10(a) - Lead in certain electronic cor	nponents.
	S 2 Directive:	Restricted Materials Above Three	eshold
MIIT Order	No 32, 2016	-	
	Regulation:	Current ECHA Candidate List: JAN 2	. ,
(EC) No	o. 1907/2006	Candidate List Declared Against: JU	N 2016 (169)
		SVHC > Threshold: Not Yet Reviewed	
	<b>•</b> • •		
Halo	gen Content:	Not Yet Reviewed for halogen conte	nt
Solder Process Cap	ability Code:	Wave solder capable to 265°C	

**TE** Connectivity Corporation

Berwyn, PA 19312

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change.

The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked.

Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV).

Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
