

Product Change Notification

PCN No: 2010-10-20-01

Report Date: October 20, 2010

Subject: Graphic 24064-16-1U-FGW Backlight Resistor

Reason for Change:

The graphic 24064-16-1U-FGW display has gone through a backlight life audit, which yielded to a change in the backlight current limiting resistor used in the display. Because of this change, customers will experience comparative brightness in the display and still can expect longer lasting backlight life.

List of New / Changed Products:

All the following displays (and their variants):

Graphic Displays	
GLK24064-16-1U-FGW	Variants: -LV,-V,-VPT, -E
GX24064-FGW-XX-XXX	

Product Change:

The value of the (circled) backlight current limiting resistor is now changed from 36 Ohms to 15 Ohms.

Schedule of Change:

September 29, 2010
