Model 3862 Non-RoHS - End of Life

Bourns® Sensors and Controls is announcing the end of life for the non-RoHS **Model 3862** Single-turn Panel Control. Several materials are no longer available to continue production in this configuration.

Bourns® Model 3862 RoHS* version will continue in production and may be used as an alternate. The RoHS* version has the same performance specifications.

At this time we are asking customers to assess their needs for Bourns® Model 3862 non-RoHS version and place last time buy orders. Please make note of the following deadlines:

- *Deadline for accepting final orders will be **March 31, 2011***
- *All shipments will be filled by no later than **June 30, 2011***

All last time orders are final. Last time orders may not be scheduled out.

This notice affects all standard catalog part numbers associated with this model. Military and aerospace customers who require non-RoHS configurations will have the option of solder dipped leads containing **3 % Pb (3 % lead)** supplied as a custom part.

Please feel free to contact Bourns Customer Service with any questions you may have regarding this product announcement.
