Features

All-in-One Charger Adapter Allows You to Charge up to 4 Devices at the Same Time This portable charger expansion hub attaches to the 61W or 87W AC wall charger that came with your Apple MacBook Pro to expand the number of charging ports from one to four. A white LED indicates sufficient charging power is available for your devices.

Connect Your Devices to a USB-C Port and 3 USB-A Ports for Pure Charging The USB-C PD 3.0 port produces a maximum power output up to 20V 2.25A (45W).
