Replacement Combination Lock for SmartRack Wall-Mount Server Rack Cabinets - Front Door

MODEL NUMBER: SRWCOMBO

Replacement combination lock kit allows facility and IT managers to designate authorized access to wall-mount rack cabinets.

Features

Theft-Deterrent Replacement Lock Prevents Unauthorized Access to Your Rack Cabinet This replacement combination lock kit helps you securely store your valuable rack-mounted equipment to protect it from damage, tampering or theft. It's recommended for data centers, server rooms or network closets where you need your wall-mount rack enclosures to be protected from unauthorized access.

Choose from Up to 1000 Different Combinations for Flexible Protection The three-digit combination can be easily reset and changed as often as you want. Choose from as many as 1000 different combinations to closely guard access and to adjust when access requirements change.

Highlights

- Replacement combination lock fits front door of SmartRack® wall-mount enclosures
- Uses mounting hardware from existing SmartRack door handle for quick installation
- Choose from up to 1000 different combinations for easy changes as often as needed

Applications

- Prevent unauthorized access to wall-mount rack equipment in your data center, server room or network closet

System Requirements

- SmartRack wall-mount enclosure
