SIEMENS

Data sheet

Key-operated switch O.M.R, 22 mm, round, plastic with metal front ring, lock number 73033, yellow, with 2 keys, 2 switch positions O<I, momentary contact type, Actuating angle 45°, 10:30h/12h, key removal O, with laser labeling, upper case

product designation Key-operated switches Actuating/signaling element 3SU1 product type designation 3SU1 Plastic with metal front ring, matt, 22 mm anufacturer's article number of included key 3SU1950-0FM30-0AA0 ACTUATOR principle of operation of the actuating element momentary contact, 45° (10:30 h/12 h), return from center to left product extension optional light source No of the actuating element yellow material of the actuating element shape of the actuating element Any inscription, text in upper case number of switching positions 2 switch position for key distraction October 100 oct	product brand name	SIRIUS ACT
design of the product product type designation product line manufacturer's article number of included key Actuator Principle of operation of the actuating element product extension optional light source of the actuating element shape of the actuating element shape of the actuating element cuter diameter of the actuating element marking of the actuating element Any inscription, text in upper case unumber of switching positions switch position for key distraction actuating angle clockwise clockwise clockwise design of the front ring design of the front ring design of the front ring material of the front ring design of the front ring color of the front ring degree of protection NEMA rating product component Stance according to IEC 60068-2-27 for railway applications according to EN 61373 operating frequency maximum chanical service life (switching cycles) typical Actuating frequency maximum rechanical service life (switching cycles) typical Actuating size in the front ring susuaccion of the front ing caccording to IEC 60068-2 (special control of the formation of the caccording to EN 61373 category 1, Class B Actuating/signaling element product extension of the actuating element momentary contact, 45° (10:30 h/16), return from center to left product component from center to left product actuation, and the foot actuation of the formation of the front ring sand gray Actuating signalized with extension of the foot ring of the front ring sand gray Actuation product component front ring sand gray Actuating selement saturation product selement saturation	•	Key-operated switches

degree of protection NEMA rating 1, 2, 3, 3R, 4, 4X, 12, 13 shock resistance according to IEC 60068-2-27 sinusoidal half-wave 15g / 11 ms for railway applications according to EN 61373 Category 1, Class B vibration resistance according to IEC 60068-2-6 10 500 Hz: 5g for railway applications according to EN 61373 Category 1, Class B operating frequency maximum 1 800 1/h mechanical service life (switching cycles) typical 1 000 000	protection class IP	IP66, IP67, IP69(IP69K)
shock resistance • according to IEC 60068-2-27 sinusoidal half-wave 15g / 11 ms • for railway applications according to EN 61373 Category 1, Class B vibration resistance • according to IEC 60068-2-6 10 500 Hz: 5g • for railway applications according to EN 61373 Category 1, Class B operating frequency maximum 1 800 1/h mechanical service life (switching cycles) typical 1 000 000	of the terminal	IP20
 according to IEC 60068-2-27 for railway applications according to EN 61373 vibration resistance according to IEC 60068-2-6 for railway applications according to EN 61373 for railway applications according to EN 61373 Category 1, Class B operating frequency maximum 1 800 1/h mechanical service life (switching cycles) typical 1 000 000 	degree of protection NEMA rating	1, 2, 3, 3R, 4, 4X, 12, 13
for railway applications according to EN 61373 category 1, Class B vibration resistance	shock resistance	
vibration resistance	according to IEC 60068-2-27	sinusoidal half-wave 15g / 11 ms
 according to IEC 60068-2-6 for railway applications according to EN 61373 Category 1, Class B operating frequency maximum mechanical service life (switching cycles) typical 1 000 000 	for railway applications according to EN 61373	Category 1, Class B
 for railway applications according to EN 61373 Category 1, Class B operating frequency maximum 1 800 1/h mechanical service life (switching cycles) typical 1 000 000 	vibration resistance	
operating frequency maximum 1 800 1/h mechanical service life (switching cycles) typical 1 000 000	according to IEC 60068-2-6	10 500 Hz: 5g
mechanical service life (switching cycles) typical 1 000 000	 for railway applications according to EN 61373 	Category 1, Class B
	operating frequency maximum	1 800 1/h
reference code according to IEC 81346-2	mechanical service life (switching cycles) typical	1 000 000
	reference code according to IEC 81346-2	S

Substance Prohibitance (Date)	10/01/2014
Ambient conditions	
ambient temperature	
 during operation 	-25 +70 °C
during storage	-40 +80 °C
environmental category during operation according to IEC 60721	3M6, 3S2, 3B2, 3C3, 3K6 (with relative air humidity of 10 95%)
Installation/ mounting/ dimensions	
height	29.5 mm
width	29.5 mm
shape of the installation opening	round
mounting diameter	22.3 mm
positive tolerance of installation diameter	0.4 mm
mounting height	51.7 mm
installation width	29.5 mm
installation depth	25.4 mm
Certificates/ approvals
