LF PTN# A0099 PAL 50A Fuses: change of color

March 29, 2016

Dear Valued Customer,

Littelfuse would like to notify you of the change in colorant used in our 50A PAL fuses: from Pantone 216 C to Pantone 186 C. No change is made to the resin or design, so the change to the color will not impact Form, Fit or Function of the material. The change to the colorant will impact only the visual appearance of the material.

Existing Color	New Color
 PANTONE 216 C can be found in:	 PANTONE 186 C can be found in:

Littelfuse will implement this change immediately as a running change, so you can expect to receive product in the new color once we have consumed our inventory of the existing stock.
