

## MCLX-10-6-SS

Ruland MCLX-10-6-SS, 10mm x 6mm Rigid Coupling, 303 Stainless Steel, One-Piece Clamp Style, 29mm OD, 45mm Length

### Description

Ruland MCLX-10-6-SS is a one-piece rigid coupling with 10mm x 6mm bores, 29mm OD, and 45mm length. Proprietary Nypatch® anti-vibration coating on hardware allows for even seating of the screw, repeated screw installations, prevents galling, and maintains high holding power. It eliminates the need to treat screws upon receipt greatly reducing installation time. Forged screws test beyond DIN 912 12.9 standards to ensure maximum holding power. Tightly controlled bore tolerance of +.050mm/+.012mm is maintained. MCLX-10-6-SS is made from 303 stainless steel with hardware of like material for consistent corrosion resistance. It is machined from solid bar stock that is sourced exclusively from North American mills and is RoHS3 and REACH compliant. MCLX-10-6-SS is manufactured in our Marlborough, MA factory under strict controls using proprietary processes.

### Installation Instructions

1. Align the MCLX-10-6-SS one-piece rigid coupling on the two shafts to be connected. There should be no misalignment.
2. Tighten the Nypatch® screws in two stages, starting with the inside screws. Using a 3.0 mm torque wrench, tighten the inside screws to 1.25 Nm which is half the recommended seating torque. Repeat for the outside screws, again tightening to half of the recommended seating torque.
3. Tighten the screws to the full recommended seating torque of 2.5 Nm following the same pattern, starting with the inside screws first.
