

ESD Pens - Static Dissipative

DC2000

A commonly overlooked source of static is everyday office supplies such as pens.

Ensure total ESD protection with the DC2000 Static Safe ESD pen. The static dissipative ball point pen is perfect for use in static controlled manufacturing facilities. Use this pen in ESD areas or any area. Does not tribo-charge. Printed with an ESD symbol in yellow for easy identification. Black, Blue or Red colors.

Meets or exceeds requirements of ANSI ESDS20.20.

Applications:

Common office supplies can be an overlooked source of static. Ensure total ESD protection by using certified ESD pens in controlled areas.
