

MT8/8-CC2W-A

Ruland Two-Way Connector Clamp, Thru Holes 8mmx8mm, L 37mm, Aluminum

Description

Ruland MT8/8-CC2W-A a two-way connector clamp with perpendicular thru holes for 8mm round tubes, M4 clamp screws, 14mm width and height, and 37mm overall length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT8. MT8/8-CC2W-A is aluminum and screws are 304 stainless steel for use in most industrial applications. This two-way connector is commonly used to support tubes for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. Thru holes are perpendicular to one another for fixed mounting of components at a 90° angle. MT8/8-CC2W-A is ideal for applications where the tube angles remain fixed such as on conveyors. MT8-ALK-M4-16 adjustable clamping handles can be used in place of standard hardware if rapid fine repositioning of the tube(s) is required. MT8/8-CC2W-A is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
