Testboy; with integrated flashlight

www.wago.com/206-804

Item description

Contact-free Voltage Test

The WAGO Testboy 206-804 is able to seek live wires out with the circuit integrated in the point. When recognizing an alternating voltage of 12 V AC, the white cap flashes up red and a warning tone rings out. A current flow is not necessary!

Testboy can detect the following:

Live conductors

Cable breaks

Blown fuses (in cartridges or holders)

Defective switches

Defective lamps in strings of lights

Installation Notes

Subject to changes. Please also observe the further product documentation!

A device that will reliably detect AC voltage in cables, sockets, fuses, switches, outlets and other installations.

Testboy can detect the following:

- Live conductors
- Cable breaks
- Blown fuses (in cartridges or holders)
- Defective switches
- Defective lamps in strings of lights

Subject to changes. Please also observe the further product documentation!
