### Altera<sup>®</sup> MAX<sup>®</sup>10 FPGA Product Family Ordering Information Update

---

#### Change Description

Altera<sup>®</sup> recommends that customers start using production part numbers for the procurement of MAX<sup>®</sup>10 family of FPGA products. Effective immediately, any orders on these product families should be placed using the corresponding production part numbers listed in the “Replacement Standard Part Number” column of Appendix 1 of this notice.

#### Products Affected

Please refer to [Appendix 1](#).

#### Recommended Action

The part numbers in the “Replacement Standard Part Number” column are the final, mass production equivalents of the corresponding “ES” part numbers. Customers are requested to do the following:

- a) Convert any existing “ES” part number orders to production part number orders.
- b) Update their Material Requirements Planning (MRP), Enterprise Resource Planning (ERP), or documentation systems to specify the production part numbers on all future orders.

This change does not impact the form, fit or function of the products.

#### Reason for Change

Altera is implementing the ordering information change to formally phase-in the production part numbers and to deactivate the “ES” versions.

## Product Transition Dates

Production part numbers are now available for order entry and ready for shipment. Customers and Distributors are advised to make the required nomenclature changes and submit change orders or cancel existing “ES” part number orders. Authorized Altera distribution partners have until the date specified in Table 1 below to submit a Return Material Authorization (RMA) request to Altera for any ES inventory.

**Table 1. Key Dates**

<i>Milestones</i>	<i>Date</i>
Date production part numbers are open for order entry and shipment	Now
Last day to submit a Return Material Authorization (RMA) request to Altera for any ES inventory <u>Note:</u> After this date, “ES” part number orders become Non-Cancellable, Non-Returnable (NC/NR)	December 18, 2015

## Contact

Please contact your Altera Sales representative for additional information or support with this ordering part number transition. Visit the URL below to find a sales office in your region:
