DESCRIPTION AND PURPOSE OF CHANGE:

Change of inductance value from 7,5 μ H to 7,0 μ H because of wrong declaration in our datasheet (due to typo).

DETAIL OF CHANGE:

The value of inductance will be corrected in the datasheet to 7,0 μ H with a tolerance of $\pm 20\%$. Also the marking description of the datasheet will be revised to 7R0 instead of 7R5.

The part itself has always been marked with 7R0 and produced in the correct way. Due to that there is NO change in the part.

DATA SHEET CHANGE: Yes No
