**Phase-out of your present Contrast Sensor families KT5, KT5-2, KTL5, KT6, KT8, KT10 and KT10-2
More performance with the new product family: KTL180**

Dear Sir or Madam,

As a leading supplier of Registration Sensors we continuously tend to improve our products for being able to offer futureoriented solutions. In the field of Contrast Sensors we have one new result: KTS/KTX

Advantages of KTS/KTX:

- Different housing sizes
- Core and Prime portfolio
- Integrated color mode, TwinEye-Technology, 7 segment display etc. in Prime version

The Last Call for Contrast Sensors of product family KT5, KT5-2, KTL5, KT6, KT8, KT10 and KT10-2 is on 31.12.2020. Last Delivery on 31.03.2021 at the latest.

Product family KT8L will not be discontinued.

To identify the correct replacement product or to get more information about the KTS/KTX you can arrange a consulting by telephone or arrange a meeting – therefore you can use the template below. Of course, you can also contact me directly.

Sincerely,

SICK AG
