

Pricing Subscription Extension for NMO-EVAL-CE1

after expiration of the 1-year Nubo Cloud subscription included in the evaluation kit

As of 25th March 2021

For easy testing and evaluation Sensirion provides a complete and easy evaluation kit, consisting of Nubo Monitor One and the environmental sensing cartridge NMO-CE1. The kit includes various mounting and power options – a wall and a pole mounting kit as well as a solar panel and a grid power supply. It includes one year of Nubo Cloud subscription for free. The Nubo Cloud subscription includes connectivity, cloud services & API access.

Subscription Extension

After expiration of the first year, the subscription can be renewed directly with Sensirion for another fixed term of 12 months towards the end of the subscription at the rates stated below. Each renewal includes a free replacement cartridge NMO-CE1 to ensure maximum data quality.

Pricing

Region	Pricing*	Currency	Conditions
USA	54,- / device / month	net, USD	renewal for another 12-month fixed term
EU & UK	46,- / device / month	net, EUR	
CH	50,- / device / month	net, CHF	

* This is no binding quote. Pricing might change anytime without prior notice.

Project Pricing
