

Tubing for Submersible Pumps – PVC 8mm ID – 1 Meter Long

PRODUCT ID: 4545

This tubing is designed to go with our simple submersible pumps. Great for making water-powered projects. This tubing seems to be made of PVC, it's definitely not food safe, we recommend it for use with plant-watering or fountain projects only. It's super easy to cut and you get a full meter!

TECHNICAL DETAILS

- Tube length: 1 meter
- Tube diameter: 8mm (internal diameter) / 11.5mm (external diameter)
