

PRODUCT CHANGE NOTIFICATION

PCN No.:	10083	Date of Issue:	2021/03/17
Title of Change:	PCB Pad Change (remove 4 corner dummy pins)	PCN Effective Date:	2021/03/17
Type of Change:	Cosmetic Change (PCB Pad Change)	Last Time Buy Date:	N/A
Change Description:	Beginning immediately on and after March 17th, 2021. QT-Brightek will begin shipment of QBTS40ZXX 3-Digit 7 Segment LED display series with a an updated PCB pad (Without 4 corner dummy pins). This is a drop-in replacement and will not affect any form, fit or function. No re-design for existing applications is required. Customers may receive shipments containing both the current lead frame pad appearances in until Digikey inventory of the current lead frame pad is depleted.		
Disposition of Old Product	Remaining inventory stock from Digikey can still be ordered until depleted.		
Reason for Change:	The pcb supplier stopped producing original pcb pad (with 4 corner dummy pins). A new pcb pad (without 4 corner dummy pins) will be used. New display PCB pad also provides a better manufacturability for factory and raw material suppliers.		
Lot Number / Date Code Identification	QBTS40ZXX series ships after March 17th, 2021 (date code:210317) onwards will have the new PCB pad appearance (without 4 corner dummy pins)		
Effect of Change on Product Fit, Form, or Function	Fit: The new design is still compatible with the old PCB design through minor process modification at customer's side. The existing customers can still use the display with this new pcb style (without dummy pins) because the dummy pins are not functional or electrically connected. There is no need to put solder paste on their pcb corner dummy pads. The existing customer can still fit the new design by covering the 4 corner dummy pads on their PCB stencils.
