Cable marker label, Roll, yellow/black, can be labeled with: THERMOMARK GO, THERMOMARK GO.K, THERMOFOX: without print, mounting type: adhesive, lettering field size: continuous x 8 mm

Your advantages

☑ Easy and efficient material cartridge system: Includes both the material to be printed and the corresponding ink ribbon

☑ No visible difference between retrospective marking and existing markings created with a desktop roll printer

☑ The transparent protective foil is wound over the marking and provides permanent protection against contamination and abrasion

☑ The wrap-around labels do not add bulk, which means that the cable can still be drawn through cable ducts, for example

☑ Thanks to the continuous format, a wrap-around label of the appropriate width can be created flexibly for the relevant application

☑ The material is cUL certified

☑ High-quality and solvent-resistant marking solution for industrial applications that is created by means of thermal transfer printing
