Summary

End of Life of BC118 Bluetooth (BLE4.1) module and last time buy.

Details of Change

Sierra Wireless hereby announces the EOL of the BC118 module from the ShortRange portfolio.

Customers wishing to extend the life of a platform that has integrated the Sierra Wireless BC118 have two options:

1. Purchase sufficient quantity of the BC118 before the last purchase date to support the projected life of the platform. Note that due to a component EOL, the possible LTB quantity is limited. Please contact your account manager for more details.
2. Integrate the BC127, Sierra's latest Bluetooth modules, which will continue to be supported.

Sierra Wireless will no longer support new integrations using the BC118. These integrations should be done using the BC127
