SS Series

Change to the Lot Code Mark on SS Slide Switch Case

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

The process by which a lot code mark is applied to the SS Series switch cases will be changing. Previously, the mark had been engraved on the case, but the method will be revised to laser application. This change will effect both standard and custom, illuminated and non-illuminated products for the SS Series. The table below lists the standard part numbers that will be effected by this change.
