

2 x AAA Battery Holder with switch COM1305

This little battery holder comes with a power switch and a JST connector. It connects two AAA batteries in series, while its small size makes it ideal for portable projects.

This is the same battery holder we use in our popular micro:bit accessories kit.

- Holds two AAA batteries (not included)
- JST connector compatible with micro:bit
- Power switch
- Dimensions 63x26x16mm excluding cable
