Datasheet update of PMXB65ENE

Information Notification

The data sheet of ssMOS type PMXB65ENE will be updated. The changes in the revised data sheet are merely editorial corrections. The product remains unchanged. There is no change in electrical and thermal behaviour. Only the data sheet limit for VGSth will be decreased from max 2,5V to max 2V. In addition the data sheet graphs Fig.8 and Fig.13 will be adapted to the new limit.

Why do we issue this Information Notification
Update of data sheet.

Identification of Affected Products
Product identification does not change

Impact

There is no impact to the products' functionality.

Data Sheet Revision
A new datasheet will be issued

Disposition of Old Products
There is no impact to the products' functionality.
