

Item description

License for the visualization of dashboards and diagrams in responsive design

Data

Notes

Note

The "Energy Data Management" Software is a pre-programmed application based on the *e!COCKPIT* Development Environment and can be used for both PFC200 G2 Controllers or Touch Panels 600. To download the application and license to the device, WAGOupload software is required, which can be obtained free of charge from the WAGO homepage. Internet connection may be required for license activation.

Delivery

Delivery type	License certificate by email (software available for download)

Manual

Software Documentation – Energy Data Management EDM	2.4.1 2023 May 16	pdf 14.2 MB	Download
The Energy Data Management application can be used to capture and save energy and operating data and display its progression over time. The data is made available for further processing steps. The integrated user interface can be used to parameterize the signals of connected sensors. No programming experience is required to use the Energy Data Management application.			
Software Application Note – Energy Data Management EDM 2.x	V 1.0.0 2020 Dec 16	pdf 3.0 MB	Download
This Application Note is intended to provide a description of the use of some of the more complex features of the EDM application and to explain the features in a user-friendly manner using examples. This document is to be used in combination with the manual and provides supplementary content.
