## **Product Advisory # 1488 MPEe-V5 Rev 2.00 VGA Connector**

This is a formal notification regarding a product supplied by VersaLogic Corp. Our records indicate that your company has purchased this product.

Please read this notice thoroughly to determine what impact this change may have on you in regards to your currently owned product or future purchases from VersaLogic Corp.

### **Affected Products**

<b>Products</b>	<b>Description</b>	<b>Old Revision Level</b>	<b>New Revision Level</b>
VL-MPEe-V5	Mini PCIe Video Expansion Module	1.00	2.00

### **Changes Made to Product**

Version 2.00 of the VL-MPEe-V5 features a new VGA connector. This connector has a more robust mechanical design than the VGA connector used on Version 1.00 products.

With the new connector, the entry point for the VGA cable is oriented vertically. This makes cable insertion easier and more reliable.

An accessory cable to interface between the VL-MPEe-V5 and a standard 15-pin VGA connector, is also available (VL-CBR-1204).

### **Customer Impact**

This change will improve the ease of assembly and reliability of the product.

#### **Fielded Units**

Use as is.

#### **Future Shipments**

New revision boards will begin shipping on August 3, 2015.

### **Additional Information**

For additional information or assistance related to this change, please contact VersaLogic Technical Support at [Support@VersaLogic.com](mailto:Support@VersaLogic.com) or call (503) 747-2261.
