Easy Setup

Power On Computer:

1)   Make sure Equipotential Terminal is connected to equipotential ground in the hospital.
2)   Connect the adapter to Power DC-IN. Please note that using different adaptors may put the system into risk.
3)   Press Power On/ Off. The button will turn green.

Driver Installation:

Advantech supports "one key" driver installation. A user can simply double click an icon to install all the drivers.

1)   Make sure the OS has been successfully installed. If you have difficulty installing an OS, please follow the instructions in the POC-W152 User Manual.
2)   Download the "one key" package from the Advantech Support website:
http://support.advantech.com/support/new_default.aspx.
Open the folder and double click "InstallAll.exe."
3)   An Install dialog will appear. Follow the instructions shown in the dialog to finish the installation.

* Please use a clean OS to install this auto installation; otherwise, unexpected errors may occur.
* Should you only want to install specific drivers, please follow the instructions in the POC-W152 User Manual.
