Product Change Notification: E-14-016902

PCN Date: 20-NOV-14

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

Crimped terminal. Requested by one customer for all specs an

**Description of Changes**

Change from a welded strip to "loose end method" splice to correct customer quality problems. There have been no changes to the existing parts, this is a revision increase only. This change is considered by TE Connectivity as a minor change. The loose ends of the strip will be captured in the interleave paper. Location of change is in the packaging.

**Reason for Changes:**

Customer Request. Change from a welded carrier strip to "loose end method" splice to correct customer quality problems. The loose ends of the terminal strip will be captured in the interleave paper wrap with a roughly 3-4" gap between the ends of the strip. There will be no taping or other attachment of the ends.
