

Electronic COUNTDOWN TIMER

Operation Manual

To activate your timer, remove the battery cover by pushing in and up. Remove the plastic tab from between the battery and contact point.

To set the time:

Press the "MIN" and "SEC" button to set the required time.

To start:

Press the "START/STOP" button with a "beeping" sound.

To stop:

Press the "START/STOP" button to stop the "beeping" sound.

To clear the setting:

Press the "MIN" and "SEC" buttons at the same time.

The timer will turn off the display automatically and enter into sleeping mode to save power without any attention after 10 minutes. Press any button to return timer from sleeping mode to activating mode.

The timer will count up the overtime until 20 minutes after the count down setting time is completed. Press the "Start/Stop" button to terminate the overtime counting and recall last count down time setting by holding "Start/Stop" button again for 3 seconds.
