**Reason:** TGX silicone thermal pad is being removed from its EOL period.

**Description:**

Due to customer feedback, T-Global have decided to prolong the life of TGX, TG2030, TG4040 and TG6050 and will be supporting these products once again through our distributor Digi-Key Electronics. However, we still encourage customers to sample and approve newer materials wherever possible.

Please note that in conjunction with this change, these products are being renamed. The material TGX will become TG-A126X. Further details of this change may be found here:
