Product Discontinuation

PDN-IF-1874-2018

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
IF - Interface Components	CK6	Product Discontinuation	Notify Distributors and Field	7/5/2018

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Description for Product Discontinuation

Due to the introduction of a new line of hazardous location relays within the PLC relay family, legacy electro-mechanical relays for hazardous locations (PLC-R.../C1D2 & PLC-R.../ATEX) will be discontinued.

The new PLC..EX relays represent an expanded hazardous location relay family that now carries triple agency certification – UL CID2, IECEx, and ATEX Ex approvals. Traditional screw terminals are available, complimented by the new PLC..EX relays with PT push-in terminals that replace those modules with spring cage connection. The addition of all-new 10A single pole relays rounds out the PLC..EX portfolio.

The technical attributes of the new PLC..EX articles are virtually identical to the old articles, making migration to the new parts a straightforward process. The chart below shows the existing articles and the new replacement options. Additional information may be found at www.phoenixcontact.com/hazloc-relay.

Stock Status

Can existing stock still be used?
Is mixture of stock acceptable?
