October 2021

SUBJECT: HTS02S Thermal Paste Packaging Change

Dear Valued Customer,

We recently changed the packaging of the Carlo Gavazzi HTS02S Thermal Paste. This silicon thermal paste is provided as an accessory to our line of Solid State Relays and Heatsinks. The previous packaging was a syringe containing 2ml of the thermal paste material. The new packaging is a sachet (packet) containing 2.38ml or 5g volume of the same thermal paste material.

Please note that there are no changes in the amount, chemical composition, specifications, characteristics, or performance of the thermal paste itself. Only the packaging has changed (please refer to the Product Photos below):

Should you have any questions regarding the HTS02S packaging change, please contact us at [Sales@CarloGavazzi.com](mailto:Sales@CarloGavazzi.com) or 847.465.6100

Sincerely,

The Carlo Gavazzi Team
