

Product Change Notification

TE Connectivity

Product Change Notification: E-16-013335

PCN Date: 20-SEP-16

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

8 pos. Housing for Junior-Timer Contact

Description of Changes

Serial tool is worn out; A new tool is available which is producing two other codings of this series. To get PN 927366/368 on the new tool the area of injection needs to be enlarged because the nozzle is positioned directly on the part. The change does not affect the function of the connector, because injection area is not in contact with counterpart.
