

8 PCN 627: Changes to SDK-DM3730-30-256512R-D

This PCN describes changes made to the Zoom DM3730 Torpedo Development Kit built with the following model number:

SDK-DM3730-30-256512R-D

8.1 Kit Contents

8.1.1 Included PCB Assemblies

The SDK-DM3730-30-256512R-D revision of the Zoom DM3730 Torpedo Development Kit contains the hardware components listed in the following table. The assembly part number or model number helps to identify the specific boards; these numbers are indicated by stickers attached to each PCB.

Item	Assembly PN or Model Number
DM3730 Torpedo SOM	SOMDM3730-20-2780AGCR-D
DM3730 Torpedo + Wireless SOM	SOMDM3730-32-2780AKCR-A
Baseboard	1021669
Embedded Trace Macrocell (ETM) adapter board	1020745
4.3" WQVGA LCD	1023328

8.1.2 Software Contents

The SDK-DM3730-30-256512R-D revision of the Zoom DM3730 Torpedo Development Kit also contains the following software items:

Item	Assembly PN or Version
Android Demo and Development Kit SD Card (Android Gingerbread 2.3.4 BSP v1.5)	1027732
Linux Demo and SDK SD Card (Linux BSP v2.4-4)	1027731
Windows CE Demo and SDK SD Card (Windows CE BSP v3.0.2)	1023977

IMPORTANT NOTE: The Windows CE software included in this kit is not supported for use on the DM3730/AM3703 Torpedo + Wireless SOM.

8.2 Changes to the Kit Contents

8.2.1 Windows CE Evaluation DVD Removal

The Windows Embedded CE 6 evaluation DVD has been removed from this kit. That evaluation DVD is obsolete and no replacement DVD is offered.
