Reason(s) for Change: Ongoing global supply chain shortages have increased the risk of not being able to procure the necessary raw materials to complete builds on time.

Description of Change: In an effort to mitigate the risk associated with the ongoing global supply chain shortages, the startup circuits within the products listed above have been modified to accommodate a broader set of raw materials thereby improving the stability of the supply chain. The impact of this change to product performance is minimal and outlined below:

- No-load power consumption will increase slightly to 0.2/0.3 W
- Startup delay time will increase slightly to 2 seconds

Affected Date Code: All product marked with date code 2223 (year: 2022, work-week: 23) or later will have the changes listed above incorporated into the design.
