ATC55 - Dual Carry Case

ATC55 - Dual Carry Case Information:

Many customers have asked for this! Two instruments can be housed in this really smart case. There is even enough space for the range of probe accessories, such as the Tweezers, Crocs, USB stick and of course, spare AAA and GP23 batteries. The machined foam will firmly protect your investment for years to come. The surface finish is a black spark texture with a gold logo. Body dimensions are approximately 230mm x 170mm x 45mm (9" x 7" x 2"). Contents shown are not included.
