Sales ALERT Bulletin

Safety Approval Change

To: Emerson Network Power KA&D Customer Base
From: Chris Jones
Subject: Update to NRTL (National Recognized Test Lab) for Safety Approval in America
Date: 20 Sept 2013

Starting September 20, 2013 standard products provided by Emerson Embedded Power will be using Underwriters Laboratories as the NRTL for all American based approvals. In the past we have used a combination of UL and CSA for the approval/certification process. This change is based on costs associated with support of testing and licensing fees. There is no change to the product or level of approval, but with the elimination of CSA as the NRTL we will be removing the CSA logo. Please note that all products will carry the cULus mark.

REMOVED CSA MARK

REMAINING cULus MARK

We apologize for any inconvenience this change may cause. Please feel free to contact me directly if you have any questions or concerns.

Best Regards,

Chris Jones
