**PRODUCT:** GT1 DeviceNet Modules  
**TYPE:** Modification Notice

## GT1-TS04T and GT1-TS04P Temporarily Going Non-RoHS

Omron regrettably announces that GT1-TS04T and GT1-TS04P DeviceNet Temperature Input Modules have been temporarily modified away from RoHS compliance due to unavoidable circumstances with component discontinuation.

### Affected Products

Model	Description
GT1-TS04T	DeviceNet 4ch Thermocouple Input module
GT1-TS04P	DeviceNet 4ch RTD Input module

### Effective Date

Production as of May 2014, meaning Lot No. after 0154K

# 0154K

01: day, range 01...31

5: month, range 1...9, X(=10), Y(=11), Z(=12)

4: year, range 0(=2020 or 2010), 1,2,3(=2013),,,9(=2019),

K: Kusatsu factory

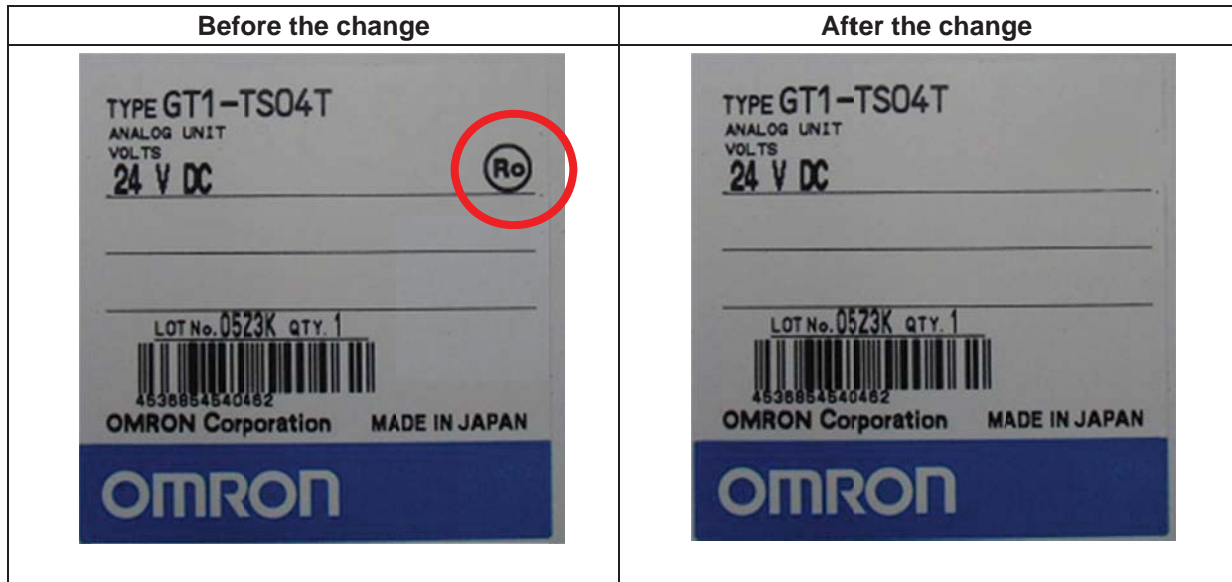

### Product Specification Changes

None

### Resolution

The GT1-TS04□ products will be redesigned for RoHS compliance. There is no fixed date for the redesign to be completed. Users must consider impact of non-RoHS compliance, or switch to other products like the Omron DRT1 series DeviceNet remote I/O line.

## Package/Label Changes
