

1<sup>st</sup> August, 2016

From: Littelfuse Product Management

Subject: Obsolescence of TE FT600 series and Littelfuse 461 series as direct replacement

This is a **90-day Obsolescence notice** for TE's FT600 series.

PCN number : 01082016

With the acquisition and integration of TE Circuit Protection Devices business unit into Littelfuse, we are working on the consolidation of similar product series fuses.

Both the FT600 series fuses from TE and Littelfuse's existing 461 Telecom series fuses have the below followings in common;

- Same electricals
- Same physical dimensions

With the above same specifications, the TE FT600 series would be obsoleted and replaced by the Littelfuse direct replacement of its 461 series.

Please see below table on the direct crosses for the TE FT600 series to Littelfuse's 461 series.

TE Order Part number	TE Series Part number	LF Part number
D97371-000	FT600-0500-2	0461.500ER
D72863-000	FT600-1250-2	04611.25ER
D29077-000	FT600-2000-2	0461002.ER

Dates and Timeframe

The effective start date of this notification is 1<sup>st</sup> August 2016.

Last time buy is 1<sup>st</sup> October 2016.

Best regards,  
Daniel Wang  
Director  
Global Product Management  
Electronics Business Unit
